applied catalysis A

# Author Index Volumes 101–120

## A

Abbot, J., see Guerzoni, F.N. 103(1993)243

Abbot, J., see Guerzoni, F.N. 120(1994)55

Abdalla, B.K., Elnashaie, S.S.E.H., Alkhowaiter, S. and Elshishini, S.S.
Intrinsic kinetics and industrial reactors modelling for the dehydrogenation of ethylbenzene to styrene on promoted iron oxide catalysts
113(1994)89

Abe, Y., see Takita, Y. 103(1993)281

Abello, M.C., see Papageorgiou, J.N. 120(1994)17

Aboukaïs, A., Ghoussoub, D., Blouet-Crusson, E., Rigole, M. and Guelton, M.
Oxidative dehydrogenation of isobutyric acid on $H_4PVMo_{11}O_{40}$, $Na_xH_{4-x}PVMo_{11}O_{40}$ and $Cu_yH_{4-2y}PVMo_{11}O_{40}$ heteropolyacid catalysts supported on silica 111(1994)109

Aboul-Gheit, A.K.
Hydroconversion of *meta*-xylene on catalysts containing Pt, Re and PtRe on H-mordenite
105(1993)127

Absi-Halabi, M., Stanislaus, A. and Al-Zaid, H.
Effect of acidic and basic vapors on pore size distribution of alumina under hydrothermal conditions 101(1993)117

Absi-Halabi, M., see Stanislaus, A. 105(1993)195

Acharya, D.R., see Al-Bayaty, S. 110(1994)109

Adeeva, V., Lei, G.D. and Sachtler, W.M.H.
Isomerization of $^{13}C$ labeled butane over Fe,Mn promoted sulfated $ZrO_2$ catalyst 118(1994)11

Adesina, A.A., see Chen, H. 112(1994)87

Adkins, B.D., see Milburn, D.R. 119(1994)205

Afanasiev, P.V., see Tsurov, M.A. 105(1993)205

Aguinaga, A., Montes, M., Malet, P., Capitán, M.J., Carrizosa, I. and Odriozola, J.A.
Extended X-ray absorption fine structure study of sulphur poisoned $Ni/SiO_2$ catalysts
110(1994)197

Ahn, P.K., Nishiyama, S., Tsuruya, S. and Masai, M.
Effect of alkaline earth added to platinum-supporting oxides on platinum dispersion and dehydrogenation activity 101(1993)207

Ai, M., Muneyama, E., Kunishige, A. and Ohdan, K.
Formation of methacrylic acid by oxidative dehydrogenation of isobutyric acid: Promoters of iron phosphate catalysts 109(1994)135

Ai, M., see Muneyama, E. 116(1994)165

Akgerman, A., see Postula, W.S. 112(1994)175

Akolekar, D.B.
Investigations on the characteristics, surface, acidity/acid strength distribution and catalytic properties of the zinc-substituted aluminophosphate of type 36 molecular sieve
112(1994)125

Al-Bayaty, S., Acharya, D.R. and Hughes, R.
Effect of coke deposition on the effective diffusivity of catalyst pellets 110(1994)109

Alderucci, V., see Torre, T. 114(1994)261

Alkemade, U., see Haas, A. 115(1994)103

Alkhowaiter, S., see Abdalla, B.K. 113(1994)89

Allmang, G., see Mercier, C. 114(1994)55

Almeida, J.L.G.d., Dufaux, M., Ben Taarit, Y. and Naccache, C.
Effect of pore size and aluminium content on the production of linear alkylbenzenes over HY, H-ZSM-5 and H-ZSM-12 zeolites: Alkylation of benzene with 1-dodecene 114(1994)145

Al-Noaimi, A.N., El-Sawy, M., Fagal, G.A. and El-Shobaky, G.A.
Thermal and catalytic behaviour of grafted polytetrafluoroethylene (PTFE) pretreated with some transition metal nitrates 120(1994)45

Al-Sa'doun, A.W.
Dimerization of ethylene to butene-1 catalyzed by $Ti(OR')_4$–$AlR_3$ 105(1993)1

Alyea, E.C., He, D. and Wang, J.
Alcohol synthesis from syngas. I. Performance of alkali-promoted Ni–Mo(MOVS) catalysts 104(1993)77

Al-Zaid, H., see Absi-Halabi, M. 101(1993)117

Amariglio, A., see Mielczarski, E. 104(1993)215

Amariglio, H., see Mielczarski, E. 104(1993)215

Amarilli, S., see Forni, L. 103(1993)173

An, L., see Deng, Y. 119(1994)23

Ancion, C. and Poncelet, G.
Transformation of isopropanol over $Pt/H_xVMoO_{5.5}$ hydrogen bronze 108(1994)31

Anderson, J.A., Daza, L., Damyanova, S., Fierro, J.L.G. and Rodrigo, M.T.
Hydrogenation of styrene over nickel/sepiolite catalysts 113(1994)75

Andersson, A., see Sanati, M. 106(1993)51

Andersson, A., Andersson, S.L.T., Centi, G., Grasselli, R.K., Sanati, M. and Trifirò, F.
Surface characterization and reactivity in ammoxidation reactions of vanadium antimonate catalysts 113(1994)43

Andersson, S.L.T., see Lindblad, T. 112(1994)187

Andersson, S.L.T.
Kinetic study of the oxidative dehydrogenation of propane over vanadia supported on amorphous $AlPO_4$ 112(1994)209

Andersson, S.L.T., see Andersson, A. 113(1994)43

Andreev, A., Ivanova, V., Kirilov, K. and Passage, G.
Catalytic oxidation of sulfide ions over $NiPS_3$ 107(1994)189

Andreev, A., Vladov, Ch., Prahov, L. and Atanasova, P.
Catalytic activity of $NiPS_3$ in the reaction of thiophene hydrodesulfurization 108(1994)97

Andreev, A., see Vassileva, M. 112(1994)141

Andriamasinoro, D., Kieffer, R., Kiennemann, A. and Poix, P.
Preparation of stabilized copper–rare earth oxide catalysts for the synthesis of methanol from syngas 106(1993)201

Anikeev, V.I., see Yermakova, A. 101(1993)25

Anthony, R.G., see Postula, W.S. 112(1994)175

Antonucci, V., see Torre, T. 114(1994)261

Aracil, J., see Ramirez, J. 118(1994)73

Arai, H., see Chai, M. 110(1994)239

Arawaka, H., see Matsuzaki, T. 105(1993)159

Aricò, A.S., see Torre, T. 114(1994)261

Armor, J.N. and Farris, T.S.
Simultaneous exchange and extrusion of metal exchanged zeolites 114(1994)191

Arsalane, S., Kacimi, M., Ziyad, M., Coudurier, G. and Védrine, J.C.
Behaviour of copper–thorium phosphate $CuTh_2(PO_4)_3$ in butan-2-ol conversion 114(1994)247

Arteaga, A., see Sánchez, J. 101(1993)199

Arteaga, G., see Sánchez, J. 101(1993)199

Artizzu, P., Monaci, R., Rombi, E., Ferino, I., Solinas, V. and Forni, L.
Conversion of *sec*-butylbenzene over synthetic zeolites 111(1994)191

Arvelo, R., see Brito, A. 103(1993)17

Asanuma, M., see Miki, J. 115(1994)1

Asmussen, F., see Maltha, A. 115(1994)85

Atanasova, P., see Andreev, A. 108(1994)97

Atanasova, P. and Halachev, T.
Phosphorus induced formation of a $NiWO_4$ phase in the oxide form of P–Ni–W/$Al_2O_3$ catalysts 108(1994)123

Aufrand, M., see Mercier, C. 114(1994)55

Augugliaro, V., López-Muñoz, M.J., Palmisano, L. and Soria, J.
Influence of pH on the degradation kinetics of nitrophenol isomers in a heterogeneous photocatalytic system 101(1993)7

Auroux, A., see Le Bars, J. 119(1994)341

Avalos-Borja, M., see Cruz Reyes, J. 120(1994)147

Axon, S.A. and Klinowski, J.
Nuclear magnetic resonance studies of the synthesis of zeolite ZSM-5 by the "fluoride method" 111(1994)29

# B

Babu, G.P., see Ghuge, K.D. 103(1993)183

Applied Catalysis A: General (1994) 247–329

applied catalysis A

# Subject Index Volume 101–120

## A

**Acetaldehyde**
Ethanol dehydrogenation on silica pillared rectorite 115(1994)219

**Acetone**
Highly selective one-step formation of methyl isobutyl ketone from acetone with a magnesia supported nickel catalyst 101(1993)1

Synthesis of 2-picoline from acetone over modified ZSM-5 catalysts 111(1994)101

Vapour-phase reaction of methanol with acetone over alkali containing zeolites 118(1994)33

**Acetophenone hydrogenation**
Influence of metal–support effects on acetophenone hydrogenation over platinum 113(1994)59

**Acid additive**
Effects of acid or base additives on the catalytic combustion activity of chromium and cobalt oxides 114(1994)39

**Acid–base**
Analysis of the surface acid–base characteristics of Pt/C catalysts for phosphoric acid fuel cells 114(1994)261

**Acid–base properties**
Acid–base properties and direction of oxidative transformations of methane on magnesium–phosphorus catalysts 101(1993)15

Alkylation of phenol with methanol over magnesium–aluminium calcined hydrotalcites 119(1994)241

**Acid catalyzed dehydration**
Dehydration of glucose to organic acids in microporous pillared clay catalysts 109(1994)147

**Acid faujasites**
Dimerization of styrene catalyzed by acid 12-membered ring zeolites 116(1994)127

**Acidic properties**
Preparation of a dense ZSM-5 zeolite film on the outer surface of an alumina ceramic filter 111(1994)143

**Acidity**
Characterization of catalyst acidity by microcalorimetry and temperature-programmed desorption 102(1993)253

Investigation of zeolite catalysts for the direct partial oxidation of benzene to phenol 103(1993)135

$AlPO_4$–$Al_2O_3$ catalysts with low-alumina content. II: Acidity and catalytic activity in cyclohexene conversion and cumene cracking of catalysts obtained with aqueous ammonia 104(1993)109

Measuring the acid–base properties of supported nickel catalysts using temperature-programmed desorption of ammonia 105(1993)251

Conversion of 1-butene over $WO_3$–$TiO_2$ catalysts 107(1994)249

Acidity and catalytic activity of B-Al beta zeolite 108(1994)53

State, activation, and migration of gallium in Ga/ H-MFI(Si,Al) propane aromatization catalysts 108(1994)85

Oxidative dimerization of methane in molten $Li_2CO_3$–$Na_2CO_3$ eutectic supported by lithium aluminate at 700–850°C 108(1994)157

Promoted vanadia/titania catalysts for *o*-xylene oxidation: influence of acid–base and redox properties 108(1994)241

Disproportionation of n-propylamine on supported nickel catalysts 109(1994)265

Improvement of catalytic properties of SAPO-31 molecular sieves by using an activated form of $SiO_2$ 110(1994)27

Heats of adsorption for ammonia and pyridine in H-ZSM-5: evidence for identical Brønsted-acid sites 110(1994)67

Vapour phase aniline alkylation activity and selectivity over H-ZSM-5 111(1994)133

Investigations on the characteristics, surface, acidity/acid strength distribution and catalytic properties of the zinc-substituted aluminophosphate of type 36 molecular sieve 112(1994)125

Nickel modified H-ZSM-5 catalysts 114(1994)299

Nature of the active sites and catalytic activity of SAPO-5 synthesized in the presence of nickel cations 119(1994)195

Influence of zeolite acidity on thiophene hydrodesulfurization activity 119(1994)253

Microcalorimetric and infrared studies of the acid–base properties of $V_2O_5/\gamma\text{-}Al_2O_3$ catalysts 119(1994)341

**Acidity (Lewis)**

Vapour-phase reaction of methanol with acetone over alkali containing zeolites 118(1994)33

**Acid sites**

Structure–activity relation and ethane formation in the hydrogenolysis of methyl acetate on silica-supported copper catalysts 111(1994)63

**Acid sites distribution**

Effect of pore size and aluminium content on the production of linear alkylbenzenes over HY, H-ZSM-5 and H-ZSM-12 zeolites: Alkylation of benzene with 1-dodecene 114(1994)145

**Acid strength**

Solid superacid as the support of a platinum catalyst for low-temperature catalytic combustion 110(1994)61

Effect of pore size and aluminium content on the production of linear alkylbenzenes over HY, H-ZSM-5 and H-ZSM-12 zeolites: Alkylation of benzene with 1-dodecene 114(1994)145

**Acoustophoresis**

Application of *acoustophoresis* in a study on solute–support interactions for the preparation of supported cobalt–molybdenum catalysts 102(1993)35

**Acrylonitrile**

Selective ammoxidation of propane over Ca–Bi–Mo oxide catalyst 110(1994)173

Selective ammoxidation of propane over multicomponent oxide catalysts 110(1994)207

Surface characterization and reactivity in ammoxidation reactions of vanadium antimonate catalysts 113(1994)43

**Activated carbons**

Activated carbons as supports for nickel catalysts 112(1994)75

**Active center**

Study on the active center of $Ga_2O_3$/HZSM-5 catalyst 103(1993)259

**Active sites**

Nature of the active sites and catalytic activity of SAPO-5 synthesized in the presence of nickel cations 119(1994)195

**Activity**

Effects of zinc addition to silica supported copper catalysts for the hydrogenolysis of esters 108(1994)63

Activity-enhanced copper–zinc based catalysts for the hydrogenolysis of esters 116(1994)237

**Activity profile**

Estimation of catalyst activity profiles in fixed-bed reactors with decaying catalysts 106(1993)193

**Additives**

Influence of the preparation procedure and of the barium content on the physicochemical and catalytic properties of barium-modified platinum/alumina catalysts 108(1994)221

**Adipic acid**

Liquid-phase oxidation of cyclohexane over CoAPO-5: Synergism effect of coreactant and solvent effect 118(1994)21

**Adsorption**
Application of *acoustophoresis* in a study on solute–support interactions for the preparation of supported cobalt–molybdenum catalysts 102(1993)35

Effects of zinc addition to silica supported copper catalysts for the hydrogenolysis of esters 108(1994)63

Heats of adsorption for ammonia and pyridine in H-ZSM-5: evidence for identical Brønsted-acid sites 110(1994)67

Characterization of the porous structure and cracking activity of Al-pillared saponites 110(1994)153

Effect of hydrogen reduction temperature on the surface chemistry of pure and promoted magnetite 110(1994)185

Carbon monoxide adsorption and hydrogenation on $Cu–Rh/SiO_2$ catalysts 114(1994)113

Role of alkali promoters on $Mn_3O_4$ in the selective reduction of nitrobenzene 115(1994)85

Influence of zeolite acidity on thiophene hydrodesulfurization activity 119(1994)253

Microcalorimetric and infrared studies of the acid–base properties of $V_2O_5/\gamma\text{-}Al_2O_3$ catalysts 119(1994)341

**Adsorption of carbon monoxide**
High surface area $\alpha$-alumina. I. Adsorption properties and heats of adsorption of carbon monoxide, carbon dioxide, and ethylene 111(1994)151

**Aerogel**
Catalytic alkylation of phenol with methanol on a microporous xerogel and a macroporous aerogel of high surface area aluminas 101(1993)339

**Aerogel catalysts**
Intermediate species on zirconia supported methanol aerogel catalysts. I. State of the catalyst surface before and after the adsorption of hydrogen 101(1993)297

Intermediate species on zirconia supported methanol aerogel catalysts. II. Adsorption of carbon monoxide on pure zirconia and on zirconia containing zinc oxide 105(1993)223

Intermediate species on zirconia supported methanol aerogel catalysts III. Adsorption of carbon monoxide on copper containing solids 112(1994)57

Intermediate species on zirconia supported methanol aerogel catalysts. IV. Adsorption of carbon dioxide 112(1994)219

**Aerogels**
Lead oxide–magnesia aerogel catalysts for the oxidative coupling of methane with nitrous oxide 108(1994)41

**Aging**
Coking kinetics of fresh and thermally aged commercial $Cr_2O_3/Al_2O_3$ catalyst 101(1993)185

Coking, aging and regeneration of zeolites. XIV. Kinetic study of the formation of coke from propene over USHY and H-ZSM-5 101(1993)351

State, activation, and migration of gallium in Ga/ H-MFI(Si,Al) propane aromatization catalysts 108(1994)85

Characterization of the porous structure and cracking activity of Al-pillared saponites 110(1994)153

**$Al_2O_3$ ($\gamma$-)**
Comparison of platinum–iridium bimetallic catalysts supported on $\gamma$-alumina and HY-zeolite in n-hexane reforming reaction 115(1994)229

TPR study of $Al_2O_3$- and $SiO_2$-supported $CuCl_2$ catalysts 117(1994)139

**Alcohol**
Effects of zinc addition to silica supported copper catalysts for the hydrogenolysis of esters 108(1994)63

**Alcohol formation**
Surface species on the oxidized $K_2CO_3/MoS_2$ and their effects on catalytic carbon monoxide hydrogenation 104(1993)199

**Alcohol oxidation**
Oxidation of linear alcohols with hydrogen peroxide over titanium silicalite 1 106(1993)97

**Alcohol synthesis**
Alcohol synthesis from syngas. I. Performance of alkali-promoted Ni–Mo(MOVS) catalysts 104(1993)77

Characterization of copper–cobalt catalysts for alcohol synthesis from syngas 118(1994)63

**Alkali**
Morphology changes and deactivation of alkali-promoted $Ni/SiO_2$ catalysts during carbon monoxide hydrogenation 115(1994)135

**Alkali addition**
Microstructural and surface area development during hydrogen reduction of magnetite 109(1994)211

**Alkali compounds**
Alkali compounds and copper chromite as low-temperature slurry phase methanol catalysts 103(1993)105

**Alkali doping**
Hydrogenation of phenol to cyclohexanone over palladium and alkali-doped palladium catalysts 110(1994)49

**Alkali halide**
Oxidative coupling of methane over alkali halide-promoted perovskite oxide catalysts 115(1994)269

**Alkali metals**
Critical performance evaluation of catalysts and mechanistic implications for oxidative coupling of methane 104(1993)11

**Alkaline earth**
Carbon dioxide hydrogenation catalyzed by alkaline earth- and platinum-based catalysts supported on carbon 116(1994)187

**Alkaline earth ions**
Surface area stability and characterisation of a novel sulfate-based alumina modified by rare earth and alkaline earth ions 107(1994)267

**Alkaline earth oxides**
Stabilisation of aluminas by rare earth and alkaline earth ions 101(1993)105

A comparative study of oxidative methylation of toluene with methane to styrene and ethylbenzene over bi-alkali-promoted MgO, CaO, SrO or BaO 102(1993)233

**Alkaline earths**
Effect of alkaline earth added to platinum-supporting oxides on platinum dispersion and dehydrogenation activity 101(1993)207

Critical performance evaluation of catalysts and mechanistic implications for oxidative coupling of methane 104(1993)11

**Alkaline medium**
Lead/platinum on charcoal as catalyst for oxidation of furfural. Effect of main parameters 112(1994)1

**Alkali promoters**
Role of alkali promoters in $K/MoS_2$ catalysts for $CO–H_2$ reactions 110(1994)11

**Alkali promotion**
Structure and reactivity of alkali-doped calcium oxide catalysts for oxidative coupling of methane 101(1993)167

Alkali hydroxides as promoters of $Mn_3O_4$ in the selective reduction of nitrobenzene; an X-ray photoelectron spectroscopy, ultraviolet photoelectron spectroscopy and ion scattering spectroscopy study 115(1994)69

Role of alkali promoters on $Mn_3O_4$ in the selective reduction of nitrobenzene 115(1994)85

**Alkali sulphate**
Oxidative coupling of methane over alkali sulphates in the presence and absence of tetrachloromethane 103(1993)55

**Alkali zeolites**
Vapour-phase reaction of methanol with acetone over alkali containing zeolites 118(1994)33

**Alkane cracking**
Influence of hydrocarbon chain length and zeolite structure on the catalyst activity and deactivation for n-alkanes cracking 117(1994)29

**Alkanes**
Direct conversion of methane to higher alkanes by platinum loaded zeolites 104(1993)215

Conversion of heavy n-alkanes into light isomers over H-mordenite, platinum/H-mordenite, platinum/alumina and composite catalysts 106(1993)27

**Alkene**
Fluorinated alumina as a catalyst for skeletal isomerization of n-butene 118(1994)127

**Alkenes**
Reactions of mixtures of light alkenes and n-heptane over USHY zeolite 108(1994)107

**Alkylaromatics**
Gas-phase oxygen oxidations of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve. II. The role of carbon dioxide as a co-oxidant 106(1993)259

**Alkylation**
Catalytic alkylation of phenol with methanol on a microporous xerogel and a macroporous aerogel of high surface area aluminas 101(1993)339

Solid-state exchange of lanthanum in beta zeolite 106(1993)185

Alkylation of isobutane with butenes over solid superacids, $SO_4^{2-}/ZrO_2$ and $SO_4^{2-}/TiO_2$ 107(1994)229

Alkylation of isobutane with butenes over solid acid catalysts 107(1994)239

Vapour phase aniline alkylation activity and selectivity over H-ZSM-5 111(1994)133

Effect of pore size and aluminium content on the production of linear alkylbenzenes over HY, H-ZSM-5 and H-ZSM-12 zeolites: Alkylation of benzene with 1-dodecene 114(1994)145

Reactions of aromatics and naphthenes with alkanes over a $Pt/ZrO_2/SO_4$ catalyst 114(1994)183

Zeolite catalysed intramolecular cyclization of 5-amino-1-pentanol to piperidine bases 119(1994)13

Zeolite beta as a catalyst for alkylation of isobutane with 2-butene. Influence of synthesis conditions and process variables 119(1994)83

**Alkylation of phenol**
Alkylation of phenol with methanol over magnesium–aluminium calcined hydrotalcites 119(1994)241

**Alkylcyclopentanes**
Effect of the platinum/aluminum sites ratio on the performance of platinum/$\beta$ zeolite in the reforming of alkylcyclopentanes 117(1994)75

**Alkyl peroxides**
Synthesis, characterization and catalytic properties of vanadium silicates with a ZSM-48 structure 102(1993)201

**Alkyne hydrogenation**
Selective hydrogenation of $C_4$-alkynes over a copper on silica catalyst 120(1994)163

**Alloying**
Composition and catalytic properties of products from the reduction of $NiMoO_4$ 105(1993)205

**Alloys**
Selectivity dependence on the alloying element of carbon supported Pt-alloy catalysts in the hydrogenation of phenol 110(1994)167

**Alloys (palladium)**
Oxidation state of germanium promoter on a palladium/carbon catalyst and its role in hydrogenation reactions 102(1993)105

**AlPO**
Investigations on the characteristics, surface, acidity/acid strength distribution and catalytic properties of the zinc-substituted aluminophosphate of type 36 molecular sieve 112(1994)125

**$AlPO_4$**
Characterization of vanadia supported on amorphous $AlPO_4$ and its properties for oxidative dehydrogenation of propane 112(1994)187

Kinetic study of the oxidative dehydrogenation of propane over vanadia supported on amorphous $AlPO_4$ 112(1994)209

**$AlPO_4$-5**
Vanadium oxide loading on aluminophosphate molecular sieve by vapor adsorption 102(1993)93

**$AlPO_4$–$Al_2O_3$**
$AlPO_4$–$Al_2O_3$ catalysts with low-alumina content. II: Acidity and catalytic activity in cyclohexene conversion and cumene cracking of catalysts obtained with aqueous ammonia 104(1993)109

**ALPON**
Application of a new hydrogenated aluminophosphate oxynitride (ALPON) as a catalytic support for the one-step synthesis of methyl isobutyl ketone from acetone 114(1994)1

**Alumina**
Stabilisation of aluminas by rare earth and alkaline earth ions 101(1993)105

Effect of acidic and basic vapors on pore size distribution of alumina under hydrothermal conditions 101(1993)117

Catalyst characterization by a probe reaction. Effect of tin addition in $PtSn/Al_2O_3$ 101(1993)199

Catalytic alkylation of phenol with methanol on a microporous xerogel and a macroporous aerogel of high surface area aluminas 101(1993)339

Application of *acoustophoresis* in a study on solute–support interactions for the preparation of supported cobalt–molybdenum catalysts 102(1993)35

Preparation of high surface area $\alpha$-$Al_2O_3$ and its surface properties 105(1993)141

Adsorption of platinum complexes on silica and alumina: Preparation of non-uniform metal distributions within support pellets 106(1993)239

Surface area stability and characterisation of a novel sulfate-based alumina modified by rare earth and alkaline earth ions 107(1994)267

Influence of the preparation procedure and of the barium content on the physicochemical and catalytic properties of barium-modified platinum/alumina catalysts 108(1994)221

Influence of the preparation method and the nature of the support on the stability of nickel catalysts 109(1994)169

High surface area $\alpha$-alumina. I. Adsorption properties and heats of adsorption of carbon monoxide, carbon dioxide, and ethylene 111(1994)151

Simultaneous exchange and extrusion of metal exchanged zeolites 114(1994)191

Support effects on magnesium-vanadium mixed oxides in the oxidative dehydrogenation of propane 114(1994)201

Another view of the surface properties of high surface area $\alpha$-alumina 118(1994)5

Influence of the forming method on the pore structure of alumina supports 119(1994)45

Porous nanocomposites as catalyst supports Part I. 'Second phase stabilization', thermal stability and anatase-to-rutile transformation in titania–alumina nanocomposites 119(1994)163

**Alumina ceramic filter**

Preparation of a dense ZSM-5 zeolite film on the outer surface of an alumina ceramic filter 111(1994)143

**Alumina loading**

$AlPO_4$–$Al_2O_3$ catalysts with low-alumina content. II: Acidity and catalytic activity in cyclohexene conversion and cumene cracking of catalysts obtained with aqueous ammonia 104(1993)109

**Alumina membrane**

Formaldehyde production by catalytic dehydrogenation of methanol in inorganic membrane reactors 109(1994)63

**Alumina (modified)**

Fluorinated alumina as a catalyst for skeletal isomerization of n-butene 118(1994)127

**Alumina support**

Alumina supported molybdenum and tungsten oxide catalysts. Surface area and pore size distribution from nitrogen adsorption and mercury penetration 119(1994)205

**Aluminium**

Acidity and catalytic activity of B-Al beta zeolite 108(1994)53

**Aluminium/titanium molar ratio**

Dimerization of ethylene to butene-1 catalyzed by $Ti(OR')_4$–$AlR_3$ 105(1993)1

**Aluminium diacetate**

Catalytic cracking of heavy vacuum gas oil over aluminum diacetate containing catalyst 110(1994)87

**Aluminium oxide**

Kinetic study of dimethylsulfide and methanethiol synthesis 109(1994)45

**Aluminium phosphates**

Investigations on the characteristics, surface, acidity/acid strength distribution and catalytic properties of the zinc-substituted aluminophosphate of type 36 molecular sieve 112(1994)125

**Aluminium-saponites**

Characterization of the porous structure and cracking activity of Al-pillared saponites 110(1994)153

**Aluminophosphate**

Synthesis and characterization of silicon-rich SAPO-44 molecular sieves 110(1994)1

**Aluminophosphate oxynitride**

Influence of nitrogen content of a new aluminophosphate oxynitride catalyst: AlPON in Knoevenagel condensation 114(1994)195

**Aluminophosphate oxynitrides**

Application of a new hydrogenated aluminophosphate oxynitride (ALPON) as a catalytic support for the one-step synthesis of methyl isobutyl ketone from acetone 114(1994)1

**Aluminosilicate catalyst**
Ethylation of ethylbenzene over some aluminosilicates with molecular sieve structure 103(1993)173

**Aluminosilicate domains**
Synthesis and characterization of silicon-rich SAPO-44 molecular sieves 110(1994)1

**Aluminum borate**
Nitrobenzene hydrogenation over aluminum borate-supported platinum catalyst 119(1994)185

**Aluminum oxide**
Catalytic synthesis of thiolane from tetrahydrofuran and $H_2S$ 116(1994)95

**Amberlyst 15**
Conversion of methanol and isobutanol to MTBE 103(1993)223

Effect of dealumination on the catalytic activity of acid zeolites for the gas phase synthesis of MTBE 119(1994)69

**Ambersorb**
Oxidative dehydrogenation of ethylbenzene to styrene over carbonaceous catalysts 112(1994)117

**Ambipolar diffusion**
Oxygen permeation flux through $La_{1-y}Sr_yFeO_3$ limited by carbon monoxide oxidation rate 119(1994)279

**Amination**
Catalytic amination of methyl *tertiary*-butyl ether to *tertiary*-butylamine over pentasil molecular sieves 106(1993)213

**Amines**
Disproportionation of n-propylamine on supported nickel catalysts 109(1994)265

Heats of adsorption for ammonia and pyridine in H-ZSM-5: evidence for identical Brønsted-acid sites 110(1994)67

**5-Amino-1-pentanol**
Zeolite catalysed intramolecular cyclization of 5-amino-1-pentanol to piperidine bases 119(1994)13

**Amino acid**
Catalytic reductive amination of $\alpha$-ketocaboxylic acids as a useful route to amino acids 119(1994)1

**Ammonia**
Characterization of catalyst acidity by microcalorimetry and temperature-programmed desorption 102(1993)253

Measuring the acid–base properties of supported nickel catalysts using temperature-programmed desorption of ammonia 105(1993)251

Catalytic amination of methyl *tertiary*-butyl ether to *tertiary*-butylamine over pentasil molecular sieves 106(1993)213

Study of the hydrodeoxygenation of carbonyl, carboxylic and guaiacyl groups over sulfided CoMo/$\gamma$-$Al_2O_3$ and NiMo/$\gamma$-$Al_2O_3$ catalyst. II. influence of water, ammonia and hydrogen sulfide 109(1994)97

Heats of adsorption for ammonia and pyridine in H-ZSM-5: evidence for identical Brønsted-acid sites 110(1994)67

Structure–activity relation and ethane formation in the hydrogenolysis of methyl acetate on silica-supported copper catalysts 111(1994)63

**Ammonia oxidation**
High-temperature superconductors in catalysis 109(1994)1

**Ammonia synthesis**
Kinetics of activation of the industrial and model fused iron catalysts for ammonia synthesis 112(1994)13

Effect of cobalt on the morphology and activity of fused iron catalyst for ammonia synthesis 112(1994)149

**Ammonia synthesis catalyst**
Passivation layer in a pre-reduced ammonia synthesis catalyst: A temperature-programmed reduction study 115(1994)295

**Ammonia TPD**
Vapour phase aniline alkylation activity and selectivity over H-ZSM-5 111(1994)133

**Ammoxidation**
Ammoxidation of toluene to benzonitrile over vanadium–bismuth scheelite 101(1993)269

Selective ammoxidation of propane over Ca–Bi–Mo oxide catalyst 110(1994)173

**Amorphous metals**
Methanol synthesis by amorphous copper-based catalysts prepared by spark-erosion 101(1993)151

**Amyl ethyl ether (tert-)**
Reactivity of isoamylenes with ethanol 101(1993)283

**Aniline**
Vapour phase aniline alkylation activity and selectivity over H-ZSM-5 111(1994)133

Oxidation of aniline over TS-1, the titanium substituted silicalite-1 118(1994)173

**Antimony**
Surface characterization and reactivity in ammoxidation reactions of vanadium antimonate catalysts 113(1994)43

**Aqueous ammonia**
$AlPO_4$–$Al_2O_3$ catalysts with low-alumina content. II: Acidity and catalytic activity in cyclohexene conversion and cumene cracking of catalysts obtained with aqueous ammonia 104(1993)109

**Aromatic organic compound hydrogenation**
Influence of metal–support effects on acetophenone hydrogenation over platinum 113(1994)59

**Aromatics**
Conversion of n-heptane over Pt- and Pd/SAPO-11 catalysts 114(1994)291

Selective ethylation of ethylbenzene in the presence of other aromatics 115(1994)257

Zeolite beta catalyzed $C_7$ and $C_9$ aromatics transformation 116(1994)71

**Aromatization**
Propane aromatization over Pt–Tl/ZSM-5 103(1993)123

Selective synthesis of aromatics from propene on platinum-modified zinco-silicate catalysts 106(1993)83

Aromatic compounds synthesis from cyclopentadiene 111(1994)1

Transformations of n-heptane over Pt/activated carbon catalysts 119(1994)271

**Arylthiols preparation**
Selective reduction of *para*-substituted diphenyldisulfides catalysed by a sulfided NiMo supported on alumina catalyst 115(1994)303

**ATTM**
Characterization of supported molybdenum sulfide catalyst ex ammonium tetrathiomolybdate 112(1994)161

**Azobenzene**
Oxidation of aniline over TS-1, the titanium substituted silicalite-1 118(1994)173

# B

**$(Ba,Ca)(Co,Fe)O_{3-\delta}$**
Oxidative coupling of methane on perovskite oxides, $(Ba,Ca)(Co,Fe)O_{3-\delta}$ 101(1993)63

**Barium**
High-temperature superconductors in catalysis 109(1994)1

Identification of solid solutions and other phases in strontium and barium catalysts containing oxides of magnesium, aluminum or silicon as additive. II. catalyst characterisation 114(1994)87

**Barium hexaaluminate**
Preparation and characterization of hexaaluminate-based materials for catalytic combustion 104(1993)101

**Barium modified alumina**
Influence of the preparation procedure and of the barium content on the physicochemical and catalytic properties of barium-modified platinum/alumina catalysts 108(1994)221

**Barium oxide**
Solid-state basicity as a guide to formulation of improved catalysts for oxidative coupling of methane. I. Performance evaluation 114(1994)69

**Base additive**
Effects of acid or base additives on the catalytic combustion activity of chromium and cobalt oxides 114(1994)39

**Base catalyst**
One-step synthesis of citronitril on hydrotalcite derived base catalysts 114(1994)219

**Basic catalyst**
Application of a new hydrogenated aluminophosphate oxynitride (ALPON) as a catalytic support for the one-step synthesis of methyl isobutyl ketone from acetone 114(1994)1

**Basicity**
Critical performance evaluation of catalysts and mechanistic implications for oxidative coupling of methane 104(1993)11

Application of solid base catalysts in the preparation of prepolymers by condensation of ketones and malononitrile 105(1993)271

Solid-state basicity as a guide to formulation of improved catalysts for oxidative coupling of methane. I. Performance evaluation 114(1994)69

Influence of nitrogen content of a new aluminophosphate oxynitride catalyst: AlPON in Knoevenagel condensation 114(1994)195

Transformations of n-heptane over Pt/activated carbon catalysts 119(1994)271

Microcalorimetric and infrared studies of the acid–base properties of $V_2O_5/\gamma\text{-}Al_2O_3$ catalysts 119(1994)341

**Basicity (Lewis)**
Vapour-phase reaction of methanol with acetone over alkali containing zeolites 118(1994)33

**Benzene**
Investigation of zeolite catalysts for the direct partial oxidation of benzene to phenol 103(1993)135

One-step hydroxylation of benzene to phenol I. Gas-phase nitric acid oxidation over $Fe/Mo/SiO_2$ 117(1994)1

**Benzene complete oxidation**
Structure of metal–metal oxide $Pd\text{–}V_2O_5/Al_2O_3$ catalyst for complete oxidation of hydrocarbons 112(1994)141

**Benzene hydrogenation**
Benzene hydrogenation on platinum and iridium catalysts. Variation of the toxicity of sulfur with the nature of the support 101(1993)143

Benzene hydrogenation and hydrogenolysis of n-butane on $Rh/H(x)NaY$ zeolite catalysts 103(1993)5

**Benzene oxidation**
Factors affecting the deactivation of various zeolites used as catalysts for the direct partial oxidation of benzene to phenol 106(1993)167

**Benzoic acid**
Structural analysis of $NiO\text{–}Fe_2O_3$ catalyst for vapor-phase oxidation of benzoic acid to phenol 115(1994)1

**Benzonitrile**
Ammoxidation of toluene to benzonitrile over vanadium–bismuth scheelite 101(1993)269

Surface characterization and reactivity in ammoxidation reactions of vanadium antimonate catalysts 113(1994)43

**Benzylpyruvic acid**
A convenient synthesis of benzylpyruvic acid: the double carbonylation of phenethyl bromide 102(1993)53

**Beta zeolite**
Solid-state exchange of lanthanum in beta zeolite 106(1993)185

**Bi-alkali-promoted alkaline earth oxides**
A comparative study of oxidative methylation of toluene with methane to styrene and ethylbenzene over bi-alkali-promoted MgO, CaO, SrO or BaO 102(1993)233

**Bimetallic**
Catalyst characterization by a probe reaction. Effect of tin addition in $PtSn/Al_2O_3$ 101(1993)199

**Bimetallic catalyst**
Improved alkene selectivity in carbon monoxide hydrogenation over silica supported cobalt–molybdenum catalyst 112(1994)87

**Bimetallic catalysts**
Conversion under hydrogen of dichlorodifluoromethane over bimetallic palladium catalysts 101(1993)41

Propane aromatization over Pt–Tl/ZSM-5 103(1993)123

Selective hydrodechlorination of CFC-113 on Bi- and Tl-modified palladium catalysts 113(1994)29

Preparation of platinum–gold bimetallic catalysts by redox reactions 116(1994)179

1,3-Butadiene selective hydrogenation over Pd/alumina and CuPd/alumina catalysts 117(1994)41

**Bimetallic particles**
Mechanism of the decomposition of Pt–Co bimetallic particles in NaY zeolites 120(1994)1

**Bimetallics**
Lead/platinum on charcoal as catalyst for oxidation of furfural. Effect of main parameters 112(1994)1

**Bimolecular processes**
Catalytic cracking of a binary mixture on zeolite catalysts 103(1993)243

**Binary mixture**
Catalytic cracking of a binary mixture on zeolite catalysts 103(1993)243

**Biomass**
Catalysis in thermal biomass conversion 116(1994)5

**Biphenyl**
Kinetic approach in the comparison of supported and unsupported ternary nickel–ruthenium–sulphur compounds in hydrotreating reactions 103(1993)79

**Bismuth**
Selective hydrodechlorination of CFC-113 on Bi- and Tl-modified palladium catalysts 113(1994)29

Oxidative dehydrogenation of ethane over lithium–bismuth–calcium oxide catalysts 114(1994)211

**Bismuth molybdate**
Investigations of the mechanisms and kinetics leading to a loss of molybdenum from bismuth molybdate catalysts 117(1994)163

**Blending**
Preparation and catalytic activity of $H_3PMo_{12}O_{40}$-blended polymer film for ethanol conversion reaction 119(1994)107

**Boron**
Acidity and catalytic activity of B-Al beta zeolite 108(1994)53

**Boron dopant**
Doped aluminas as hydrorefining catalyst supports 119(1994)59

**Borosilicate molecular sieve**
Gas-phase oxygen oxidations of alkylaromatics over Chemical vapor deposited Fe/Mo/borosilicate molecular sieve, Fe/Mo/DBH. I. The selective synthesis of terephthaldehyde from *para*-xylene 105(1993)83

**Bottoms conversion**
Catalytic cracking of heavy vacuum gas oil over aluminum diacetate containing catalyst 110(1994)87

**Brønsted acid sites**
Fluorinated alumina as a catalyst for skeletal isomerization of n-butene 118(1994)127

Selective hydrogenation of $C_4$-alkynes over a copper on silica catalyst 120(1994)163

**Butadiene hydrogenation**
1,3-Butadiene selective hydrogenation over Pd/alumina and CuPd/alumina catalysts 117(1994)41

**Butane**
Activated carbons as supports for nickel catalysts 112(1994)75

**Butane (2-ethoxy-2-methyl-1-)**
Reactivity of isoamylenes with ethanol 101(1993)283

**Butane aromatization**
Platinum promoting effects in Pt/Ga zeolite catalysts of lower alkane aromatization. I. Ga and Pt electronic states, dispersion and distribution in zeolite crystals in dependence of preparation techniques. Dynamic effects caused by reaction mixture 107(1994)147

Platinum promoting effects in Pt/Ga zeolite catalysts of lower alkane aromatization. II. The catalytic properties in n-butane aromatization, formation of the catalytically active sites and reaction mechanism 107(1994)165

**Butane isomerization**
A comparative study of $O_4^{2-}/ZrO_2$ and zeolite beta as catalysts for the isomerization of n-butane and the alkylation of isobutane with 2-butene 111(1994)175

Isomerization of $^{13}C$ labeled butane over Fe,Mn promoted sulfated $ZrO_2$ catalyst 118(1994)11

**Butane oxidation**
Incorporation of promoter elements into the crystal lattice of $(VO)_2P_2O_7$ and its promotion effects on the oxidation of n-butane to maleic anhydride 103(1993)281

**Butanol conversion**
Behaviour of copper–thorium phosphate $CuTh_2(PO_4)_3$ in butan-2-ol conversion 114(1994)247

**Butanol dehydration**
Preparation and catalytic activity of titanium pillared montmorillonite 103(1993)23

**Butene**
Alkylation of isobutane with butenes over solid superacids, $SO_4^{2-}/ZrO_2$ and $SO_4^{2-}/TiO_2$ 107(1994)229

Alkylation of isobutane with butenes over solid acid catalysts 107(1994)239

**Butene-1**
Dimerization of ethylene to butene-1 catalyzed by $Ti(OR')_4$–$AlR_3$ 105(1993)1

**2-Butene**
Zeolite beta as a catalyst for alkylation of isobutane with 2-butene. Influence of synthesis conditions and process variables 119(1994)83

**Butene conversion**
Conversion of 1-butene over $WO_3$–$TiO_2$ catalysts 107(1994)249

**Butene dehydrogenation**
Dehydrogenation of butene-1: effect of coking on reactor performance 119(1994)153

**Butylamine (n-)**
Methylation of n-butylamine over solid-acid catalysts 109(1994)225

**Butylamine(*N*,*N*-dimethyl-n-)**
Methylation of n-butylamine over solid-acid catalysts 109(1994)225

**Butylamine (*tertiary*-)**
Catalytic amination of methyl *tertiary*-butyl ether to *tertiary*-butylamine over pentasil molecular sieves 106(1993)213

**Butylbenzene (sec-)**
Conversion of *sec*-butylbenzene over synthetic zeolites 111(1994)191

**Butyne**
Selective hydrogenation of $C_4$-alkynes over a copper on silica catalyst 120(1994)163

**Butyrolactone ($\gamma$-)**
Hydrogenolysis of dimethyl succinate on copper-based catalysts 116(1994)137

# C

**$C_1$ chemistry**
Alcohol synthesis from syngas. I. Performance of alkali-promoted Ni–Mo(MOVS) catalysts 104(1993)77

**$C_{2+}$ hydrocarbons**
Critical performance evaluation of catalysts and mechanistic implications for oxidative coupling of methane 104(1993)11

**$C_4$ aromatization mechanism**
Platinum promoting effects in Pt/Ga zeolite catalysts of lower alkane aromatization. II. The catalytic properties in n-butane aromatization, formation of the catalytically active sites and reaction mechanism 107(1994)165

**$C_4$ formation**
Methanol conversion to hydrocarbons over zeolite H-ZSM-5: Comments on the formation of $C_4$ hydrocarbons at low reaction temperatures 106(1993)115

**$C_4$ hydrocarbons**
$C_4$ alkene separation process using solid acid catalysis 109(1994)247

**$C_7$ aromatics**
Zeolite beta catalyzed $C_7$ and $C_9$ aromatics transformation 116(1994)71

**$C_8$ aromatics**
Desired and undesired ethylbenzene dealkylation over MFI zeolite catalyst 101(1993)95

**$C_9$ aromatics**
Zeolite beta catalyzed $C_7$ and $C_9$ aromatics transformation 116(1994)71

**Ca–Bi–Mo oxide**
Selective ammoxidation of propane over Ca–Bi–Mo oxide catalyst 110(1994)173

**Calcium**
Deactivation of a multimetal supported catalyst for aniline *N*-alkylation with alcohol 118(1994)139

**Calcium dopant**
Doped aluminas as hydrorefining catalyst supports 119(1994)59

**Calcium oxide**
Structure and reactivity of alkali-doped calcium oxide catalysts for oxidative coupling of methane 101(1993)167

Oxidative dehydrogenation of ethane over lithium–bismuth–calcium oxide catalysts 114(1994)211

Roles of oxygen and carbon dioxide on methane oxidative coupling over CaO and $Sm_2O_3$ catalysts 115(1994)243

**Calorimetry**
Microcalorimetric and infrared studies of the acid–base properties of $V_2O_5/\gamma$-$Al_2O_3$ catalysts 119(1994)341

**Carbenium ions**
Reactions of aromatics and naphthenes with alkanes over a $Pt/ZrO_2/SO_4$ catalyst 114(1994)183

**Carbinol (dimethyl ethynyl)**
Isomerisation of $\alpha$-acetylenic alcohols into $\alpha,\beta$-ethylenic carbonyl derivatives in vapor phase 114(1994)55

**Carbon**
Activated carbons as supports for nickel catalysts 112(1994)75

Oxidative dehydrogenation of ethylbenzene to styrene over carbonaceous catalysts 112(1994)117

**Carbonate type species**
Intermediate species on zirconia supported methanol aerogel catalysts. II. Adsorption of carbon monoxide on pure zirconia and on zirconia containing zinc oxide 105(1993)223

Intermediate species on zirconia supported methanol aerogel catalysts III. Adsorption of carbon monoxide on copper containing solids 112(1994)57

Intermediate species on zirconia supported methanol aerogel catalysts. IV. Adsorption of carbon dioxide 112(1994)219

**Carbon blacks**
Analysis of the surface acid–base characteristics of Pt/C catalysts for phosphoric acid fuel cells 114(1994)261

**Carbon dioxide**
Methanol synthesis by amorphous copper-based catalysts prepared by spark-erosion 101(1993)151

Development of an active and stable ceria-supported palladium catalyst for hydrogenation of carbon dioxide to methanol 106(1993)1

Gas-phase oxygen oxidations of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve. II. The role of carbon dioxide as a co-oxidant 106(1993)259

**Carbon dioxide and ethylene**
High surface area $\alpha$-alumina. I. Adsorption properties and heats of adsorption of carbon monoxide, carbon dioxide, and ethylene 111(1994)151

**Carbon dioxide hydrogenation**
Preparation of stabilized copper–rare earth oxide catalysts for the synthesis of methanol from syngas 106(1993)201

Hydrogenation of carbon dioxide over silver promoted copper/zirconia catalysts 106(1993)275

Catalytic reaction of methane with carbon dioxide over supported palladium 108(1994)205

Methanol synthesis over copper and ZnO promoted copper surfaces 115(1994)15

Carbon dioxide hydrogenation catalyzed by alkaline earth- and platinum-based catalysts supported on carbon 116(1994)187

Carbon dioxide hydrogenation over iron containing catalysts 117(1994)125

**Carbon dioxide methanation**
Mechanisms of methanation of carbon dioxide and carbon monoxide over nickel/alumina catalysts 104(1993)87

**Carbon dioxide promotion**
Methanol synthesis over copper and ZnO promoted copper surfaces 115(1994)15

**Carbon disulphide poisoning**
Mass transfer test and maximum rate determination during liquid-phase hydrogenations 120(1994)105

**Carbon disulphide titration of active sites**
Mass transfer test and maximum rate determination during liquid-phase hydrogenations 120(1994)105

**Carbon monoxide**
Methanol synthesis by amorphous copper-based catalysts prepared by spark-erosion 101(1993)151

Role of alkali promoters in $K/MoS_2$ catalysts for CO–$H_2$ reactions 110(1994)11

Partial oxidation of methane to synthesis gas using La–M–O catalysts 110(1994)99

Effect of hydrogen reduction temperature on the surface chemistry of pure and promoted magnetite 110(1994)185

Morphology changes and deactivation of alkali-promoted $Ni/SiO_2$ catalysts during carbon monoxide hydrogenation 115(1994)135

High-temperature catalytic reduction of nitrogen monoxide by carbon monoxide and hydrogen over $La_{1-x}Sr_xMO_3$ perovskites (M = Fe, Co) during reducing and oxidising conditions 116(1994)109

Activity-enhanced copper–zinc based catalysts for the hydrogenolysis of esters 116(1994)237

Oxygen permeation flux through $La_{1-y}Sr_yFeO_3$ limited by carbon monoxide oxidation rate 119(1994)279

**Carbon monoxide adsorption**
Microstructural and surface area development during hydrogen reduction of magnetite 109(1994)211

**Carbon monoxide chemisorption**
Improved activity of a silica supported ruthenium catalyst by carbon monoxide pretreatment 115(1994)315

**Carbon monoxide hydrogenation**
Surface species on the oxidized $K_2CO_3/MoS_2$ and their effects on catalytic carbon monoxide hydrogenation 104(1993)199

Effect of transition metals on oxygenates formation from syngas over $Co/SiO_2$ 105(1993)159

Preparation of stabilized copper–rare earth oxide catalysts for the synthesis of methanol from syngas 106(1993)201

Hydrocarbons from synthesis gas: Selectivity changes induced by the zeolite matrix on the metallic function in Rh/Y catalysts 107(1994)59

Selective synthesis of light alkenes from carbon monoxide and hydrogen on silicalite supported iron–manganese catalysts 107(1994)73

Hydrogenation of carbon monoxide on unsupported Fe–Mn–K catalysts for the synthesis of lower alkenes: promoter effect of manganese 111(1994)119

Carbon monoxide adsorption and hydrogenation on $Cu–Rh/SiO_2$ catalysts 114(1994)113

Methanol synthesis over copper and ZnO promoted copper surfaces 115(1994)15

Intrinsic reactivities of manganese oxides for carbon monoxide hydrogenation catalysis 119(1994)97

Carbon monoxide hydrogenation over carbon supported cobalt or ruthenium catalysts. Promoting effects of magnesium, vanadium and cerium oxides 120(1994)71

**Carbon monoxide methanation**
Mechanisms of methanation of carbon dioxide and carbon monoxide over nickel/alumina catalysts 104(1993)87

**Carbon monoxide oxidation**
Catalytic carbon monoxide oxidation over strontium, cerium and copper-substituted lanthanum manganates and cobaltates 107(1994)201

Effect of platinum on supported copper catalysts for carbon monoxide removal 108(1994)21

Effect of sulfur oxides on surface state and carbon monoxide oxidation activity of $Cu_xZn_{1-x}Cr_2O_4$ mixed oxides 108(1994)115

High-temperature superconductors in catalysis 109(1994)1

Effects of acid or base additives on the catalytic combustion activity of chromium and cobalt oxides 114(1994)39

**Carbon support**
In situ poisoning of the thiophene hydrodesulfurization activity of carbon-supported transition metal sulfide catalysts by phosphorus 119(1994)293

**Carbon supported molybdena**
Preparation of molybdenum-based catalysts by new slurry impregnation method: active carbon supported molybdenum sulfide hydrodesulfurization catalyst 115(1994)285

**Carbonylation**
Slurry phase synthesis of methanol with a potassium methoxide/copper chromite catalytic system 102(1993)13

**Carbonyl bond hydrogenation**
Influence of metal–support effects on acetophenone hydrogenation over platinum 113(1994)59

**Carboxylic acid**
Liquid-phase oxidation of cyclohexane over CoAPO-5: Synergism effect of coreactant and solvent effect 118(1994)21

**Carboxylic ester**
Study of the hydrodeoxygenation of carbonyl, carboxylic and guaiacyl groups over sulfided CoMo/$\gamma$-$Al_2O_3$ and NiMo/$\gamma$-$Al_2O_3$ catalysts. I. Catalytic reaction schemes 109(1994)77

Study of the hydrodeoxygenation of carbonyl, carboxylic and guaiacyl groups over sulfided CoMo/$\gamma$-$Al_2O_3$ and NiMo/$\gamma$-$Al_2O_3$ catalyst. II. influence of water, ammonia and hydrogen sulfide 109(1994)97

**Catalyst**
Catalyst characterization. Variation of several parameters with the deactivation/regeneration cycles 103(1993)17

**Catalyst characterisation (FT-IR/XPS)**
Hydrogenation of styrene over nickel/sepiolite catalysts 113(1994)75

**Catalyst characterisation (Raman/TPR/XPS)**
Structure and reactivity of titania-supported oxides. V. Influence of phosphorus and potassium impurities on the properties of molybdenum oxide supported on titania 105(1993)281

**Catalyst characterisation (SEM)**
Methanol synthesis by amorphous copper-based catalysts prepared by spark-erosion 101(1993)151

**Catalyst characterization (adsorption/DSC/Raman/XRD)**
Porous nanocomposites as catalyst supports Part I. 'Second phase stabilization', thermal stability and anatase-to-rutile transformation in titania–alumina nanocomposites 119(1994)163

**Catalyst characterization (ammonia TPD/IR/MAS NMR/XRD)**
Improvement of catalytic properties of SAPO-31 molecular sieves by using an activated form of $SiO_2$ 110(1994)27

**Catalyst characterization (BET)**
Synthesis and activity of vanadium-based supported catalysts for ethylene polymerization 102(1993)1

Preparation and catalytic activity of titanium pillared montmorillonite 103(1993)23

**Catalyst characterization (BET/EDX/magnetization/TEM/XRD)**
A plasma-produced dispersed and disposable supported nickel catalyst for hydroconversion of heavy oils. I. Preparation and characterization 104(1993)137

**Catalyst characterization (BET/IR/TPD/XRD)**
Catalytic performance and active sites determination of niobium oxide promoted vanadia/titania catalysts for selective catalytic reduction of nitric oxide 105(1993)41

**Catalyst characterization (BET/TPD/XRD)**
Catalytic activity of niobium oxynitride and carbide I. Preparation, characterization and thermal stability of finely divided niobium oxynitrides 119(1994)223

**Catalyst characterization (BET/XRD/AA/UV/VIS)**
Liquid-phase oxidation of cyclohexane using CoAPO-5 as the catalyst 105(1993)289

**Catalyst characterization (BET/XRD/DRIFTS/FT-Raman spectroscopy/EDX/SEM/HREM)**
Zirconia-supported vanadium oxide catalysts for ammoxidation and oxidation of toluene: A characterization and activity study 106(1993)51

**Catalyst characterization (BET/XRD/TG-DTA)**
Oxidative coupling of methane over alkali halide-promoted perovskite oxide catalysts 115(1994)269

**Catalyst characterization (doping)**
Doped aluminas as hydrorefining catalyst supports 119(1994)59

**Catalyst characterization (DTA/IR/XRD)**
Thermal and catalytic behaviour of grafted polytetrafluoroethylene (PTFE) pretreated with some transition metal nitrates 120(1994)45

**Catalyst characterization (DTA/TG/XRD)**
Identification of solid solutions and other phases in strontium and barium catalysts containing oxides of magnesium, aluminum or silicon as additive. II. catalyst characterisation 114(1994)87

**Catalyst characterization (EPMA/DSC/GC/MS)**
Selective hydrogenation of isoprene on eggshell and uniform palladium profile catalysts 108(1994)7

**Catalyst characterization (ESR)**
Dispersion and activity of vanadia supported on phosphate modified silica 101(1993)221

**Catalyst characterization (ESR-IR-TPD-XPS-XRD)**
Surface species on the oxidized $K_2CO_3/MoS_2$ and their effects on catalytic carbon monoxide hydrogenation 104(1993)199

**Catalyst characterization (EXAFS)**
Extended X-ray absorption fine structure study of sulphur poisoned $Ni/SiO_2$ catalysts 110(1994)197

**Catalyst characterization (FT-IR/FT-Raman/surface area/XPS/XRD)**
Characterization of vanadia supported on amorphous $AlPO_4$ and its properties for oxidative dehydrogenation of propane 112(1994)187

**Catalyst characterization (FT-IR/X-ray methods)**
Influence of the preparation procedure and of the barium content on the physicochemical and catalytic properties of barium-modified platinum/alumina catalysts 108(1994)221

**Catalyst characterization (IR/NMR/UV-VIS/XRD)**
Behaviour of copper–thorium phosphate $CuTh_2(PO_4)_3$ in butan-2-ol conversion 114(1994)247

**Catalyst characterization (IR/TPD)**
Influence of preparation conditions on the structure and catalytic properties of $SO_4^{2-}/ZrO_2$ superacid catalysts 116(1994)151

**Catalyst characterization (IR/UV-VIS/XPS/XRD)**
Preparation of V–Mg–O catalysts: Nature of active species precursors 104(1993)161

**Catalyst characterization (LRS/TPD/XPS/XRD)**
Influence of surface composition of perovskite-type complex oxides on methane oxidative coupling 104(1993)61

**Catalyst characterization (TPD)**
Measuring the acid–base properties of supported nickel catalysts using temperature-programmed desorption of ammonia 105(1993)251

**Catalyst characterization (TPO/TPR/XRD)**
On the nature of oxidic nickel phases in $NiO/\gamma\text{-}Al_2O_3$ catalysts 106(1993)73

**Catalyst characterization (TPR)**
Redox behavior of trimanganese tetroxide catalysts 101(1993)233

Ammoxidation of toluene to benzonitrile over vanadium–bismuth scheelite 101(1993)269

Selective hydrodechlorination of CFC-113 on Bi- and Tl-modified palladium catalysts 113(1994)29

**Catalyst charaterization (XPS)**
Hydrogenation of carbon dioxide over silver promoted copper/zirconia catalysts 106(1993)275

**Catalyst deactivation**
Coke profiles in deactivated alumina pellets studied by NMR imaging 115(1994)147

**Catalyst passivation**
Passivation layer in a pre-reduced ammonia synthesis catalyst: A temperature-programmed reduction study 115(1994)295

**Catalyst performance**
Critical performance evaluation of catalysts and mechanistic implications for oxidative coupling of methane 104(1993)11

**Catalyst preparation**
Dependence of selectivity on the preparation method of copper/$\alpha$-alumina catalysts in the dehydrogenation of cyclohexanol 103(1993)233

**Catalyst preparation (deposition-precipitation/impregnation)**
Hydrogenation of styrene over nickel/sepiolite catalysts 113(1994)75

**Catalyst preparation (extrusion)**
Influence of the forming method on the pore structure of alumina supports 119(1994)45

**Catalyst preparation (extrusion/ion exchange)**
Simultaneous exchange and extrusion of metal exchanged zeolites 114(1994)191

**Catalyst preparation (ion exchange/incipient wetness/deposition–precipitation)**
Influence of the preparation method and the nature of the support on the stability of nickel catalysts 109(1994)169

**Catalyst preparation (nitridation)**
Catalytic activity of niobium oxynitride and carbide I. Preparation, characterization and thermal stability of finely divided niobium oxynitrides 119(1994)223

**Catalyst preparation (pelletization)**
Role of catalyst pellet activity distribution in catalyst poisoning 108(1994)141

**Catalyst preparation (plasma discharge)**
A plasma-produced dispersed and disposable supported nickel catalyst for hydroconversion of heavy oils. I. Preparation and characterization 104(1993)137

**Catalyst preparation (precipitation)**
Preparation and characterization of hexaaluminate-based materials for catalytic combustion 104(1993)101

**Catalyst preparation procedure**
Preparation of V–Mg–O catalysts: Nature of active species precursors 104(1993)161

**Catalyst preparation (reduction)**
Preparation of platinum–gold bimetallic catalysts by redox reactions 116(1994)179

**Catalyst preparation (spray combustion)**
Influence of surface composition of perovskite-type complex oxides on methane oxidative coupling 104(1993)61

**Catalyst preparation (thermal decomposition)**
Preparation of high surface area $\alpha$-$Al_2O_3$ and its surface properties 105(1993)141

**Catalyst pretreatment (steaming)**
Cracking of an industrial feedstock over combinations of H-ZSM-5 and HY: The influence of H-ZSM-5 pretreatment 120(1994)55

**Catalytic activity**
$AlPO_4$–$Al_2O_3$ catalysts with low-alumina content. II: Acidity and catalytic activity in cyclohexene conversion and cumene cracking of catalysts obtained with aqueous ammonia 104(1993)109

Catalytic activity of $NiPS_3$ in the reaction of thiophene hydrodesulfurization 108(1994)97

**Catalytically initiated homogeneous reactions**
Catalytic combustion of methane over magnesium oxide 114(1994)231

**Catalytic combustion**
Solid superacid as the support of a platinum catalyst for low-temperature catalytic combustion 110(1994)61

Effects of acid or base additives on the catalytic combustion activity of chromium and cobalt oxides 114(1994)39

**Catalytic cracking**
Application of the energy gradient selectivity concept to fluid catalytic cracking catalysts 115(1994)103

Kinetics of gasoil cracking and catalyst decay on SAPO-37 and USY molecular sieves 118(1994)153

**Catalytic oxidation**
Catalytic oxidation of sulfide ions over $NiPS_3$ 107(1994)189

**Catalytic properties**
Comparison of the catalytic properties of protonic zeolites and exchanged clays for Diels–Alder synthesis 101(1993)253

**Catalytic reduction**
Kinetic model for the reaction of sulphur dioxide catalytic reduction to hydrogen sulphide 101(1993)25

**Ceria promoter**
Carbon monoxide hydrogenation over carbon supported cobalt or ruthenium catalysts. Promoting effects of magnesium, vanadium and cerium oxides 120(1994)71

**CFC treatment**
Electronic state of platinum supported on the monochlorotrifluoromethane-treated alkaline L zeolite 102(1993)167

Characterization and catalytic performance of the platinum KL zeolite treated with chlorotrifluoromethane 106(1993)9

**Chemicals**
Catalysis in thermal biomass conversion 116(1994)5

**Chemisorption**
Effects of zinc addition to silica supported copper catalysts for the hydrogenolysis of esters 108(1994)63

Structure–activity relation and ethane formation in the hydrogenolysis of methyl acetate on silica-supported copper catalysts 111(1994)63

**Chlorine**
Critical performance evaluation of catalysts and mechanistic implications for oxidative coupling of methane 104(1993)11

**Chlorotrifluoroethene**
Selective hydrodechlorination of CFC-113 on Bi- and Tl-modified palladium catalysts 113(1994)29

**Chromatographic techniques**
Adsorption parameters of some $C_5$–$C_8$ paraffinic hydrocarbons on platinum–alumina by gas chromatographic pulse techniques 103(1993)35

**Chromia/alumina**
Coking kinetics of fresh and thermally aged commercial $Cr_2O_3/Al_2O_3$ catalyst 101(1993)185

**Chromia/zirconia catalysts**
Isobutane dehydrogenation on chromia/zirconia catalysts 106(1993)125

**Chromia–alumina**
Effect of coke deposition on the effective diffusivity of catalyst pellets 110(1994)109

Dehydrogenation of butene-1: effect of coking on reactor performance 119(1994)153

**Chromium active species**
Isobutane dehydrogenation on chromia/zirconia catalysts 106(1993)125

**Chromium aluminophosphate-5**
Selective decomposition of cyclohexyl hydroperoxide to cyclohexanone catalyzed by chromium aluminophosphate-5 108(1994)1

**Chromium exchanged montmorillonite**
Ethylene polymerization over transition metal-exchanged montmorillonite catalysts 101(1993)129

**Chromium oxide**
Effects of acid or base additives on the catalytic combustion activity of chromium and cobalt oxides 114(1994)39

***cis–trans* isomerization**
Role of mass transfer and kinetics in the hydrogenation of rapeseed oil on a supported palladium catalyst 116(1994)269

**Citronitril synthesis**
One-step synthesis of citronitril on hydrotalcite derived base catalysts 114(1994)219

**Clay catalyst**
Ethylene polymerization over transition metal-exchanged montmorillonite catalysts 101(1993)129

**Cluster compounds**
The oxidative dehydrogenation of ethane on silica-supported metal–oxygen cluster compounds 109(1994)117

**$CO_2$ hydrogenation**
Hydrogenation of $CO_2$ over gold supported on metal oxides 102(1993)125

**CoAPO-11**
Autoxidation of *p*-cresol to *p*-hydroxy benzaldehyde using $CoCl_2$, CoAPO-5 and CoAPO-11 118(1994)51

**CoAPO-5**
Liquid-phase oxidation of cyclohexane using CoAPO-5 as the catalyst 105(1993)289

Liquid-phase oxidation of cyclohexane over CoAPO-5: Synergism effect of coreactant and solvent effect 118(1994)21

Autoxidation of *p*-cresol to *p*-hydroxy benzaldehyde using $CoCl_2$, CoAPO-5 and CoAPO-11 118(1994)51

**Cobalt**
Application of *acoustophoresis* in a study on solute–support interactions for the preparation of supported cobalt–molybdenum catalysts 102(1993)35

Effect of transition metals on oxygenates formation from syngas over $Co/SiO_2$ 105(1993)159

Ethylmercaptan oxidation over supported cobalt(II) phthalocyanines 107(1994)181

Characterization of copper–cobalt catalysts for alcohol synthesis from syngas 118(1994)63

**Cobalt/carbon catalysts**
Carbon monoxide hydrogenation over carbon supported cobalt or ruthenium catalysts. Promoting effects of magnesium, vanadium and cerium oxides 120(1994)71

**Cobalt acetate**
Principal component analysis of data on the catalytic oxidation of toluene 119(1994)7

**Cobalt catalysts**
A convenient synthesis of benzylpyruvic acid: the double carbonylation of phenethyl bromide 102(1993)53

**Cobalt–molybdenum**
$MoS_2$ structures in high-activity hydrotreating catalysts. I. Semi-quantitative method for evaluation of transmission electron microscopy results. Correlations between hydrodesulfurization and hydrodenitrogenation activities and $MoS_2$ dispersion 105(1993)53

Effects of transition metal addition to $CoMo/\gamma\text{-}Al_2O_3$ catalyst on the hydrotreating reactions of atmospheric residual oil 109(1994)195

**Cobalt nitrate**
Thermal and catalytic behaviour of grafted polytetrafluoroethylene (PTFE) pretreated with some transition metal nitrates 120(1994)45

**Cobalt oxide**
Effects of acid or base additives on the catalytic combustion activity of chromium and cobalt oxides 114(1994)39

**Co-impregnation**
Phosphorus induced formation of a $NiWO_4$ phase in the oxide form of $P–Ni–W/Al_2O_3$ catalysts 108(1994)123

**Coke**
Deactivation of toluene alkylation with methanol over magnesium-modified ZSM-5 Shape selectivity changes induced by coke formation 114(1994)277

Oxidative dehydrogenation of isobutyronitrile to methacrylonitrile over iron phosphate catalyst 116(1994)165

Deactivation of a multimetal supported catalyst for aniline *N*-alkylation with alcohol 118(1994)139

**Coke analysis**
Coke deposition on H-ZSM-20 and USHY zeolites 114(1994)165

**Coke-burn process**
Temperature-programmed oxidation technique: kinetics of coke–$O_2$ reaction on supported metal catalysts 117(1994)53

**Coked catalysts**
Temperature-programmed oxidation technique: kinetics of coke–$O_2$ reaction on supported metal catalysts 117(1994)53

**Coke deposition**
Selective synthesis of aromatics from propene on platinum-modified zinco-silicate catalysts 106(1993)83

Dehydrogenation of butene-1: effect of coking on reactor performance 119(1994)153

**Coke formation**
Adsorption of propene and coke formation on a cracking catalyst (FCC) 104(1993)1

Coke deposition on H-ZSM-20 and USHY zeolites 114(1994)165

**Coke morphology**
Temperature-programmed oxidation technique: kinetics of coke–$O_2$ reaction on supported metal catalysts 117(1994)53

**Coke particle size**
Temperature-programmed oxidation technique: kinetics of coke–$O_2$ reaction on supported metal catalysts 117(1994)53

**Coke profile**
Coke profiles in deactivated alumina pellets studied by NMR imaging 115(1994)147

**Coking**
Coking kinetics of fresh and thermally aged commercial $Cr_2O_3/Al_2O_3$ catalyst 101(1993)185

Coking, aging and regeneration of zeolites. XIV. Kinetic study of the formation of coke from propene over USHY and H-ZSM-5 101(1993)351

Reactions of mixtures of light alkenes and n-heptane over USHY zeolite 108(1994)107

Effect of coke deposition on the effective diffusivity of catalyst pellets 110(1994)109

Characterization of the porous structure and cracking activity of Al-pillared saponites 110(1994)153

Effect of the platinum/aluminum sites ratio on the performance of platinum/$\beta$ zeolite in the reforming of alkylcyclopentanes 117(1994)75

**Combustion**
Catalytic combustion of methane over magnesium oxide 114(1994)231

**Combustion catalyst**
Oxygen desorption and oxidation–reduction kinetics with methane and carbon monoxide over perovskite type metal oxide catalysts 104(1993)175

**Competitive reactions**
Some new approaches to the competitive catalytic reaction kinetics 113(1994)9

**Complex oxides**
Influence of surface composition of perovskite-type complex oxides on methane oxidative coupling 104(1993)61

**Composite catalyst**
Conversion of heavy n-alkanes into light isomers over H-mordenite, platinum/H-mordenite, platinum/alumina and composite catalysts 106(1993)27

**Composite membrane**
Formaldehyde production by catalytic dehydrogenation of methanol in inorganic membrane reactors 109(1994)63

**Concurrent synthesis**
Alkali compounds and copper chromite as low-temperature slurry phase methanol catalysts 103(1993)105

**Condensation**
Application of solid base catalysts in the preparation of prepolymers by condensation of ketones and malononitrile 105(1993)271

Zeolite catalysed intramolecular cyclization of 5-amino-1-pentanol to piperidine bases 119(1994)13

**Cooxidation**
Liquid-phase oxidation of cyclohexane over CoAPO-5: Synergism effect of coreactant and solvent effect 118(1994)21

**Copper**
Synthesis and reactivity of copper-containing non stoichiometric spinel-type catalysts 103(1993)69

Effect of water vapour and ammonia on the solid–solid interaction of Cu oxide with Y-type zeolite: Preparation of catalyst for reduction of nitric oxide with ammonia at low temperature. 103(1993)269

Preparation of stabilized copper–rare earth oxide catalysts for the synthesis of methanol from syngas 106(1993)201

Effects of zinc addition to silica supported copper catalysts for the hydrogenolysis of esters 108(1994)63

Effect of sulfur oxides on surface state and carbon monoxide oxidation activity of $Cu_xZn_{1-x}Cr_2O_4$ mixed oxides 108(1994)115

High-temperature superconductors in catalysis 109(1994)1

Nature of formate in methanol synthesis on $Cu/ZnO/Al_2O_3$ 112(1994)37

The use of 2,2-dimethylbutane (neohexane) as a probe molecule of metal catalysts 114(1994)13

Carbon monoxide adsorption and hydrogenation on $Cu–Rh/SiO_2$ catalysts 114(1994)113

Methanol synthesis over copper and ZnO promoted copper surfaces 115(1994)15

Preparation and characterization of silica-supported copper catalysts for the dehydrogenation of cyclohexanol to cyclohexanone 115(1994)29

Hydrogenolysis of dimethyl succinate on copper-based catalysts 116(1994)137

Activity-enhanced copper–zinc based catalysts for the hydrogenolysis of esters 116(1994)237

Characterization of copper–cobalt catalysts for alcohol synthesis from syngas 118(1994)63

**Copper/γ-alumina**
Effect of platinum on supported copper catalysts for carbon monoxide removal 108(1994)21

**Copper/α-alumina catalyst**
Dependence of selectivity on the preparation method of copper/α-alumina catalysts in the dehydrogenation of cyclohexanol 103(1993)233

**Copper/silica**
Structure–activity relation and ethane formation in the hydrogenolysis of methyl acetate on silica-supported copper catalysts 111(1994)63

Selective hydrogenation of $C_4$-alkynes over a copper on silica catalyst 120(1994)163

**Copper/zirconia**
Hydrogenation of carbon dioxide over silver promoted copper/zirconia catalysts 106(1993)275

**Copper addition**
Alcohol synthesis from syngas over nickel catalysts: Effect of copper and lithium addition 103(1993)291

**Copper catalysts**
Methanol synthesis by amorphous copper-based catalysts prepared by spark-erosion 101(1993)151

Hydrogenation and methylation of dodecyl nitrile in the presence of copper catalysts supported on alumina I: characterization of the catalysts 102(1993)137

**Copper chromite**
Slurry phase synthesis of methanol with a potassium methoxide/copper chromite catalytic system 102(1993)13

Alkali compounds and copper chromite as low-temperature slurry phase methanol catalysts 103(1993)105

**Copper–chromium catalysts**
Hydrogenation and methylation of dodecylnitrile in the presence of supported copper–chromium catalysts II: catalytic properties 102(1993)151

**Copper nitrate**
Thermal and catalytic behaviour of grafted polytetrafluoroethylene (PTFE) pretreated with some transition metal nitrates 120(1994)45

**Copper–thorium phosphate**
Behaviour of copper–thorium phosphate $CuTh_2(PO_4)_3$ in butan-2-ol conversion 114(1994)247

**Coreactant**
Liquid-phase oxidation of cyclohexane over CoAPO-5: Synergism effect of coreactant and solvent effect 118(1994)21

**$Cr_2O_3/Al_2O_3$**
Catalyst characterization. Variation of several parameters with the deactivation/regeneration cycles 103(1993)17

**Cracking**
Reducibility of metals on fluid cracking catalyst 103(1993)87

Catalytic cracking of a binary mixture on zeolite catalysts 103(1993)243

Adsorption of propene and coke formation on a cracking catalyst (FCC) 104(1993)1

Microactivity test (MAT) study of the ZSM-5 addition effects on FCC product yields and gasoline composition 105(1993)107

Reactions of mixtures of light alkenes and n-heptane over USHY zeolite 108(1994)107

Catalytic evaluation of gallium modified wide-pore zeolites 109(1994)235

Catalytic cracking of heavy vacuum gas oil over aluminum diacetate containing catalyst 110(1994)87

Characterization of the porous structure and cracking activity of Al-pillared saponites 110(1994)153

Coke deposition on H-ZSM-20 and USHY zeolites 114(1994)165

Metal-resistant FCC catalysts: effect of matrix 115(1994)59

Cracking of an industrial feedstock over combinations of H-ZSM-5 and HY: The influence of H-ZSM-5 pretreatment 120(1994)55

**Cracking activity**
Acidity and catalytic activity of B-Al beta zeolite 108(1994)53

**Cresol autoxidation**
Autoxidation of *p*-cresol to *p*-hydroxy benzaldehyde using $CoCl_2$, CoAPO-5 and CoAPO-11 118(1994)51

**Crotonaldehyde (β-methyl)**
Isomerisation of α-acetylenic alcohols into α,β-ethylenic carbonyl derivatives in vapor phase 114(1994)55

**Crystallinity**
Carbon dioxide hydrogenation over iron containing catalysts 117(1994)125

**Crystallization**
Silica-supported small crystals of ZSM-5 zeolite 115(1994)7

**Cu/ZSM-5**
Hydrogen cyanide formation in selective catalytic reduction of nitrogen oxides over Cu/ZSM-5 107(1994)125

**$CuCl_2$**
TPR study of $Al_2O_3$- and $SiO_2$-supported $CuCl_2$ catalysts 117(1994)139

**Cumene**
Transalkylation of di-isopropylbenzenes over large pore zeolites 106(1993)143

**Cumene cracking**
Investigations on the characteristics, surface, acidity/acid strength distribution and catalytic properties of the zinc-substituted aluminophosphate of type 36 molecular sieve 112(1994)125

**Cumene cracking/cyclohexene conversion**
$AlPO_4$–$Al_2O_3$ catalysts with low-alumina content. II: Acidity and catalytic activity in cyclohexene conversion and cumene cracking of catalysts obtained with aqueous ammonia 104(1993)109

**Cumene dehydrogenation**
Cumene dehydrogenation on silica-pillared rectorite 120(1994)179

**$Cu_xZn_{1-x}Cr_2O_4$ catalysts**
Effect of sulfur oxides on surface state and carbon monoxide oxidation activity of $Cu_xZn_{1-x}Cr_2O_4$ mixed oxides 108(1994)115

**Cu–ZnO–$Al_2O_3$**
Methanol synthesis over copper and ZnO promoted copper surfaces 115(1994)15

**CVD Fe/Mo/DBH**
Gas-phase oxygen oxidations of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve. II. The role of carbon dioxide as a co-oxidant 106(1993)259

Gas-phase oxygen oxidation of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve Fe/Mo/DBH. III. Selective oxidation of *p*-xylene from a xylene isomer mixture containing ethylbenzene 110(1994)75

Gas-phase oxygen oxidations of alkylaromatics over chemical vapor deposited Fe/Mo/borosilicate molecular sieve, Fe/Mo/DBH. IV. Effect of supporting matrix on *p*-xylene oxidation 118(1994)87

**Cyclocondensation**
Zeolite catalysed intramolecular cyclization of 5-amino-1-pentanol to piperidine bases 119(1994)13

**Cyclohexane**
Liquid-phase oxidation of cyclohexane using CoAPO-5 as the catalyst 105(1993)289

Liquid-phase oxidation of cyclohexane over CoAPO-5: Synergism effect of coreactant and solvent effect 118(1994)21

**Cyclohexane dehydrogenation**
Influence of the preparation procedure and of the barium content on the physicochemical and catalytic properties of barium-modified platinum/alumina catalysts 108(1994)221

**Cyclohexanol dehydrogenation**
Dependence of selectivity on the preparation method of copper/α-alumina catalysts in the dehydrogenation of cyclohexanol 103(1993)233

Preparation and characterization of silica-supported copper catalysts for the dehydrogenation of cyclohexanol to cyclohexanone 115(1994)29

**Cyclohexanone**
Selective hydrogenation of phenol to cyclohexanone using palladium-based membranes as catalysts 107(1994)83

Selective decomposition of cyclohexyl hydroperoxide to cyclohexanone catalyzed by chromium aluminophosphate-5 108(1994)1

Hydrogenation of phenol to cyclohexanone over palladium and alkali-doped palladium catalysts 110(1994)49

Preparation and characterization of silica-supported copper catalysts for the dehydrogenation of cyclohexanol to cyclohexanone 115(1994)29

Liquid-phase oxidation of cyclohexane over CoAPO-5: Synergism effect of coreactant and solvent effect 118(1994)21

**Cyclohexanone ammoximation**
Incorporation of titanium into the framework sites of Na-zeolites using $TiCl_4$: Catalytic activity in the ammoximation of cyclohexanone to cyclohexanone oxime 103(1993)1

**Cyclohexene**
Effect of the hydrogen and hydrogen sulfide partial pressures in the hydrodesulfurisation of thiophene and hydrogenation of cyclohexene on rhodium–tungsten catalysts 107(1994)101

**Cyclohexene hydrogenation**
Mass transfer test and maximum rate determination during liquid-phase hydrogenations 120(1994)105

**Cyclohexylamine**
Synthesis and characterization of silicon-rich SAPO-44 molecular sieves 110(1994)1

**Cyclohexyl hydroperoxide**
Selective decomposition of cyclohexyl hydroperoxide to cyclohexanone catalyzed by chromium aluminophosphate-5 108(1994)1

**Cyclopentadiene**
Aromatic compounds synthesis from cyclopentadiene 111(1994)1

**Cymenes**
Transalkylation of di-isopropylbenzenes over large pore zeolites 106(1993)143

Factors controlling iso-/n- and *para*-selectivity in the alkylation of toluene with isopropanol on molecular sieves 108(1994)187

# D

**Deactivation**
Coking kinetics of fresh and thermally aged commercial $Cr_2O_3/Al_2O_3$ catalyst 101(1993)185

Adsorption of propene and coke formation on a cracking catalyst (FCC) 104(1993)1

$MoS_2$ structures in high activity hydrotreating catalysts. II. Evolution of the active phase during the catalyst life cycle deactivation model 105(1993)69

Investigations on the loss mechanisms and the loss kinetics of molybdenum trioxide on alumina and silica 105(1993)185

Factors affecting the deactivation of various zeolites used as catalysts for the direct partial oxidation of benzene to phenol 106(1993)167

Estimation of catalyst activity profiles in fixed-bed reactors with decaying catalysts 106(1993)193

Preparation of stabilized copper–rare earth oxide catalysts for the synthesis of methanol from syngas 106(1993)201

Deactivation of industrial hydrotreating catalyst for middle petroleum fractions processing 107(1994)133

Selective hydrogenation of isoprene on eggshell and uniform palladium profile catalysts 108(1994)7

Hydrodemetallisation of nickel-5,10,15,20-tetraphenylporphyrin over sulphided $Mo/Al_2O_3$: Initial catalyst deactivation 108(1994)171

Deactivation of toluene alkylation with methanol over magnesium-modified ZSM-5 Shape selectivity changes induced by coke formation 114(1994)277

Morphology changes and deactivation of alkali-promoted $Ni/SiO_2$ catalysts during carbon monoxide hydrogenation 115(1994)135

Influence of hydrocarbon chain length and zeolite structure on the catalyst activity and deactivation for n-alkanes cracking 117(1994)29

Investigations of the mechanisms and kinetics leading to a loss of molybdenum from bismuth molybdate catalysts 117(1994)163

Deactivation of a multimetal supported catalyst for aniline *N*-alkylation with alcohol 118(1994)139

Kinetics of gasoil cracking and catalyst decay on SAPO-37 and USY molecular sieves 118(1994)153

Joint effects of diffusion resistance and catalyst deactivation on the selectivity of complex reactions proceeding via different mechanisms 118(1994)199

Sulfate accumulation in commercial Pd–Pt/$Al_2O_3$ and Pt/$Al_2O_3$ catalysts used for removal of hydrogen from carbon dioxide 119(1994)23

**Deactivation/regeneration**
Catalyst characterization. Variation of several parameters with the deactivation/regeneration cycles 103(1993)17

**Dealkylation**
Desired and undesired ethylbenzene dealkylation over MFI zeolite catalyst 101(1993)95

Dealkylation of *N,N*-dialkylanilines over transition metal catalysts in the presence of ammonia, water and hydrogen 103(1993)43

**Dealumination**
Effect of the platinum/aluminum sites ratio on the performance of platinum/$\beta$ zeolite in the reforming of alkylcyclopentanes 117(1994)75

Vanadium–nickel interaction in REY zeolite 117(1994)109

**Decane (n-) hydroconversion**
Proposed pore volume topology of zeolite MCM-22 based on catalytic tests 115(1994)121

**Decarboxylation**
Liquid-phase oxidation of cyclohexane using CoAPO-5 as the catalyst 105(1993)289

**Decomposition**
Selective decomposition of cyclohexyl hydroperoxide to cyclohexanone catalyzed by chromium aluminophosphate-5 108(1994)1

Mechanism of the decomposition of Pt–Co bimetallic particles in NaY zeolites 120(1994)1

**Deconvolution**
Temperature-programmed oxidation technique: kinetics of coke–$O_2$ reaction on supported metal catalysts 117(1994)53

**Degradation kinetics**
Influence of pH on the degradation kinetics of nitrophenol isomers in a heterogeneous photocatalytic system 101(1993)7

**Dehydration**
Dehydration of glucose to organic acids in microporous pillared clay catalysts 109(1994)147

**Dehydrogenation**
Effect of alkaline earth added to platinum-supporting oxides on platinum dispersion and dehydrogenation activity 101(1993)207

Vanadium oxide loading on aluminophosphate molecular sieve by vapor adsorption 102(1993)93

Catalyst characterization. Variation of several parameters with the deactivation/regeneration cycles 103(1993)17

Dealkylation of *N,N*-dialkylanilines over transition metal catalysts in the presence of ammonia, water and hydrogen 103(1993)43

Oxidative dehydrogenation of isobutyric acid on $H_4PVMo_{11}O_{40}$, $Na_xH_{4-x}PVMo_{11}O_{40}$ and $Cu_yH_{4-2y}PVMo_{11}O_{40}$ heteropolyacid catalysts supported on silica 111(1994)109

Oxidative dehydrogenation of ethylbenzene to styrene over carbonaceous catalysts 112(1994)117

Intrinsic kinetics and industrial reactors modelling for the dehydrogenation of ethylbenzene to styrene on promoted iron oxide catalysts 113(1994)89

Oxidative dehydrogenation of isobutyronitrile to methacrylonitrile over iron phosphate catalyst 116(1994)165

**Dehydrogenation catalyst**
Formaldehyde production by catalytic dehydrogenation of methanol in inorganic membrane reactors 109(1994)63

**Dehydrogenation (oxidative)**
Estimation of catalytic performance by neural network — product distribution in oxidative dehydrogenation of ethylbenzene 114(1994)177

**Deposition–precipitation**
Selective hydrogenation of $C_4$-alkynes over a copper on silica catalyst 120(1994)163

**Deuterium exchange**
The use of 2,2-dimethylbutane (neohexane) as a probe molecule of metal catalysts 114(1994)13

**Development strategy for catalysts**
Solid-state basicity as a guide to formulation of improved catalysts for oxidative coupling of methane. I. Performance evaluation 114(1994)69

**Dewaxing**
Selective hydroisomerization of long chain normal paraffins 119(1994)121

**Diaspore**
Another view of the surface properties of high surface area $\alpha$-alumina 118(1994)5

**Dibasic acids)**
Liquid-phase oxidation of cyclohexane using CoAPO-5 as the catalyst 105(1993)289

**Dichlorodifluoromethane**
Conversion under hydrogen of dichlorodifluoromethane over bimetallic palladium catalysts 101(1993)41

**Dicyclopentadiene**
Aromatic compounds synthesis from cyclopentadiene 111(1994)1

**Diels–Alder synthesis**
Comparison of the catalytic properties of protonic zeolites and exchanged clays for Diels–Alder synthesis 101(1993)253

**Diffuse reflectance spectroscopy**
Phosphorus induced formation of a $NiWO_4$ phase in the oxide form of P–Ni–W/$Al_2O_3$ catalysts 108(1994)123

**Diffuse reflectance sprectroscopy**
Fluorinated hydrotreatment catalysts Effect of the deposition order of $F^-$ ions on F–CoMo/$\gamma$-$Al_2O_3$ catalysts 116(1994)221

**Diffusion**
Effect of coke deposition on the effective diffusivity of catalyst pellets 110(1994)109

Oxidation of aniline over TS-1, the titanium substituted silicalite-1 118(1994)173

**Diffusion effects**
Joint effects of diffusion resistance and catalyst deactivation on the selectivity of complex reactions proceeding via different mechanisms 118(1994)199

**Diffusion limitations**
Oxidation of linear alcohols with hydrogen peroxide over titanium silicalite 1 106(1993)97

**Diffusion test**
Mass transfer test and maximum rate determination during liquid-phase hydrogenations 120(1994)105

**Diisobutene**
The role of by-products formation in methyl *tert*-butyl ether synthesis catalyzed by a macroporous acidic resin 117(1994)99

**Di-isopropylbenzene**
Transalkylation of di-isopropylbenzenes over large pore zeolites 106(1993)143

**Dimethylbutane**
The use of 2,2-dimethylbutane (neohexane) as a probe molecule of metal catalysts 114(1994)13

**Dimethyl ether**
The role of by-products formation in methyl *tert*-butyl ether synthesis catalyzed by a macroporous acidic resin 117(1994)99

**Dimethylphenols**
Direct hydrodeoxygenation and hydrogenation of 2,6- and 3,5-dimethylphenol over sulphided CoMo catalyst 117(1994)151

**Dimethyl succinate**
Hydrogenolysis of dimethyl succinate on copper-based catalysts 116(1994)137

**Dimethylsulfide**
Kinetic study of dimethylsulfide and methanethiol synthesis 109(1994)45

**Diphenyldisulphides**
Selective reduction of *para*-substituted diphenyldisulfides catalysed by a sulfided NiMo supported on alumina catalyst 115(1994)303

**Direct hydrodeoxygenation**
Direct hydrodeoxygenation and hydrogenation of 2,6- and 3,5-dimethylphenol over sulphided CoMo catalyst 117(1994)151

**Dispersion**
Effect of alkaline earth added to platinum-supporting oxides on platinum dispersion and dehydrogenation activity 101(1993)207

$MoS_2$ structures in high-activity hydrotreating catalysts. I. Semi-quantitative method for evaluation of transmission electron microscopy results. Correlations between hydrodesulfurization and hydrodenitrogenation activities and $MoS_2$ dispersion 105(1993)53

$MoS_2$ structures in high activity hydrotreating catalysts. II. Evolution of the active phase during the catalyst life cycle deactivation model 105(1993)69

Phosphorus induced formation of a $NiWO_4$ phase in the oxide form of P–Ni–W/$Al_2O_3$ catalysts 108(1994)123

Influence of the preparation method and the nature of the support on the stability of nickel catalysts 109(1994)169

Conversion of methane to higher alkanes by ruthenium loaded $Zr_3(PO_4)_4$ 118(1994)187

Transformations of n-heptane over Pt/activated carbon catalysts 119(1994)271

Metal dispersion dependent selectivities for syngas conversion to ethanol on $V_2O_3$ supported rhodium 120(1994)115

**Disposable catalyst**
A plasma-produced dispersed and disposable supported nickel catalyst for hydroconversion of heavy oils. I. Preparation and characterization 104(1993)137

A plasma-produced dispersed and disposable supported nickel catalyst for hydroconversion of heavy oils. II. Evaluation of the catalytic activity in the hydroconversion of a deasphalted vacuum residue 104(1993)149

**Disproportionation**
Catalytic cracking of a binary mixture on zeolite catalysts 103(1993)243

Disproportionation of n-propylamine on supported nickel catalysts 109(1994)265

**Dodecenes**
Dimerization of 1-butene over nickel zeolitic catalysts: A search for linear dimers 110(1994)39

**Doping effect**
Selective ammoxidation of propane over multicomponent oxide catalysts 110(1994)207

**Double-bond oxygen species (V=O)**
Ammoxidation of toluene to benzonitrile over vanadium–bismuth scheelite 101(1993)269

**Double carbonylation**
A convenient synthesis of benzylpyruvic acid: the double carbonylation of phenethyl bromide 102(1993)53

**DTA**
Redox behavior of trimanganese tetroxide catalysts 101(1993)233

Preparation and catalytic activity of titanium pillared montmorillonite 103(1993)23

# E

**Economics**
Catalysis in thermal biomass conversion 116(1994)5

**Effect of promoter**
Effect of transition metals on oxygenates formation from syngas over Co/$SiO_2$ 105(1993)159

**Eggshell**
Selective hydrogenation of isoprene on eggshell and uniform palladium profile catalysts 108(1994)7

**Electrochemical polarization**
Oxidation state of germanium promoter on a palladium/carbon catalyst and its role in hydrogenation reactions 102(1993)105

**Electroless plating**
Dependence of selectivity on the preparation method of copper/$\alpha$-alumina catalysts in the dehydrogenation of cyclohexanol 103(1993)233

**Electron microscopy**
Hydrogenation catalysts based on nickel and rare earth oxides. Part II: XRD, electron microscopy and XPS studies of the cerium–nickel–oxygen–hydrogen system 101(1993)73

**Energy dispersive spectrometry**
Solid-state exchange of lanthanum in beta zeolite 106(1993)185

**Environmental catalysis**
New catalytic processes developed in Europe during the 1980's 115(1994)173

**EPR**
TPR study of $Al_2O_3$- and $SiO_2$-supported $CuCl_2$ catalysts 117(1994)139

**Ester**
Effects of zinc addition to silica supported copper catalysts for the hydrogenolysis of esters 108(1994)63

**Estimation**
Estimation of catalyst activity profiles in fixed-bed reactors with decaying catalysts 106(1993)193

Estimation of catalytic performance by neural network — product distribution in oxidative dehydrogenation of ethylbenzene 114(1994)177

**Ethanal**
Effects of zinc addition to silica supported copper catalysts for the hydrogenolysis of esters 108(1994)63

Oxidative dehydrogenation of aqueous ethanol on a carbon supported platinum catalyst 120(1994)127

**Ethane**
Lead oxide–magnesia aerogel catalysts for the oxidative coupling of methane with nitrous oxide 108(1994)41

Effects of zinc addition to silica supported copper catalysts for the hydrogenolysis of esters 108(1994)63

Oxidative dehydrogenation of ethane over lithium–bismuth–calcium oxide catalysts 114(1994)211

Activity-enhanced copper–zinc based catalysts for the hydrogenolysis of esters 116(1994)237

**Ethane combustion**
Effects of acid or base additives on the catalytic combustion activity of chromium and cobalt oxides 114(1994)39

**Ethane dehydrogenation**
The oxidative dehydrogenation of ethane on silica-supported metal–oxygen cluster compounds 109(1994)117

**Ethane formation**
Structure–activity relation and ethane formation in the hydrogenolysis of methyl acetate on silica-supported copper catalysts 111(1994)63

**Ethanol**
Effects of zinc addition to silica supported copper catalysts for the hydrogenolysis of esters 108(1994)63

Zeolite catalysed intramolecular cyclization of 5-amino-1-pentanol to piperidine bases 119(1994)13

Preparation and catalytic activity of $H_3PMo_{12}O_{40}$-blended polymer film for ethanol conversion reaction 119(1994)107

Metal dispersion dependent selectivities for syngas conversion to ethanol on $V_2O_3$ supported rhodium 120(1994)115

Oxidative dehydrogenation of aqueous ethanol on a carbon supported platinum catalyst 120(1994)127

**Ethanol dehydrogenation**
Ethanol dehydrogenation on silica pillared rectorite 115(1994)219

**Ethene**
Hydrogen cyanide formation in selective catalytic reduction of nitrogen oxides over Cu/ZSM-5 107(1994)125

Lead oxide–magnesia aerogel catalysts for the oxidative coupling of methane with nitrous oxide 108(1994)41

Effects of zinc addition to silica supported copper catalysts for the hydrogenolysis of esters 108(1994)63

Reactions of mixtures of light alkenes and n-heptane over USHY zeolite 108(1994)107

Activity-enhanced copper–zinc based catalysts for the hydrogenolysis of esters 116(1994)237

**Ethene dimerization**
Dimerization of ethylene to butene-1 catalyzed by $Ti(OR')_4$–$AlR_3$ 105(1993)1

**Ethene formation**
Methanol conversion to hydrocarbons over zeolite H-ZSM-5: Comments on the formation of $C_4$ hydrocarbons at low reaction temperatures 106(1993)115

**Ethene polymerization**
Synthesis and activity of vanadium-based supported catalysts for ethylene polymerization 102(1993)1

**Etherification**
Reactivity of isoamylenes with ethanol 101(1993)283

Conversion of methanol and isobutanol to MTBE 103(1993)223

Effect of dealumination on the catalytic activity of acid zeolites for the gas phase synthesis of MTBE 119(1994)69

**Ethylation**
Selective ethylation of ethylbenzene in the presence of other aromatics 115(1994)257

**Ethylbenzene**
Gas-phase oxygen oxidation of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve Fe/Mo/DBH. III. Selective oxidation of *p*-xylene from a xylene isomer mixture containing ethylbenzene 110(1994)75

Oxidative dehydrogenation of ethylbenzene to styrene over carbonaceous catalysts 112(1994)117

Intrinsic kinetics and industrial reactors modelling for the dehydrogenation of ethylbenzene to styrene on promoted iron oxide catalysts 113(1994)89

Estimation of catalytic performance by neural network — product distribution in oxidative dehydrogenation of ethylbenzene 114(1994)177

Selective ethylation of ethylbenzene in the presence of other aromatics 115(1994)257

**Ethylbenzene alkylation**
Desired and undesired ethylbenzene dealkylation over MFI zeolite catalyst 101(1993)95

**Ethylbenzene ethylation**
Ethylation of ethylbenzene over some aluminosilicates with molecular sieve structure 103(1993)173

**Ethylene**
Oxidative dehydrogenation of ethane over lithium–bismuth–calcium oxide catalysts 114(1994)211

**Ethylene dimerization**
Ethylene polymerization over transition metal-exchanged montmorillonite catalysts 101(1993)129

Ethylene dimerization over modified nickel exchanged Y-zeolite 119(1994)327

**Ethylene hydroformylation**
Carbon monoxide adsorption and hydrogenation on Cu–Rh/$SiO_2$ catalysts 114(1994)113

**Ethylene polymerization**
Ethylene polymerization over transition metal-exchanged montmorillonite catalysts 101(1993)129

**Ethylmercaptan oxidation**
Ethylmercaptan oxidation over supported cobalt(II) phthalocyanines 107(1994)181

**EXAFS**
X-ray absorption spectroscopic study of platinum supported on sulfate ion-treated zirconium oxide 102(1993)79

Electronic state of platinum supported on the monochlorotrifluoromethane-treated alkaline L zeolite 102(1993)167

**Exchanged clays**
Comparison of the catalytic properties of protonic zeolites and exchanged clays for Diels–Alder synthesis 101(1993)253

**Experimental design**
Control of porosity and surface area in $TiO_2$–$Al_2O_3$ mixed oxides catalytic supports. A statistical approach 118(1994)73

**Extended X-ray absorption fine structure**
Extended X-ray absorption fine structure study of sulphur poisoned Ni/$SiO_2$ catalysts 110(1994)197

**Extrusion**
Simultaneous exchange and extrusion of metal exchanged zeolites 114(1994)191

# F

**Faujasite**
Catalytic evaluation of gallium modified wide-pore zeolites 109(1994)235

**Faujasites**
Dimerization of styrene catalyzed by acid 12-membered ring zeolites 116(1994)127

**FCC**
Reducibility of metals on fluid cracking catalyst 103(1993)87

Catalytic cracking of heavy vacuum gas oil over aluminum diacetate containing catalyst 110(1994)87

Characterization of the porous structure and cracking activity of Al-pillared saponites 110(1994)153

Metal-resistant FCC catalysts: effect of matrix 115(1994)59

Application of the energy gradient selectivity concept to fluid catalytic cracking catalysts 115(1994)103

**Fe/Mo/DBH**
Gas-phase oxygen oxidations of alkylaromatics over Chemical vapor deposited Fe/Mo/borosilicate molecular sieve, Fe/Mo/DBH. I. The selective synthesis of terephthaldehyde from *para*-xylene 105(1993)83

**Fe–Mn/silicalite**
Selective synthesis of light alkenes from carbon monoxide and hydrogen on silicalite supported iron–manganese catalysts 107(1994)73

**Fe–Mn/ZSM-5**
Selective synthesis of light alkenes from carbon monoxide and hydrogen on silicalite supported iron–manganese catalysts 107(1994)73

**Fe–Mn–K catalysts**
Hydrogenation of carbon monoxide on unsupported Fe–Mn–K catalysts for the synthesis of lower alkenes: promoter effect of manganese 111(1994)119

**Ferric nitrate**
Thermal and catalytic behaviour of grafted polytetrafluoroethylene (PTFE) pretreated with some transition metal nitrates 120(1994)45

**Field gradient**
Application of the energy gradient selectivity concept to fluid catalytic cracking catalysts 115(1994)103

**Filtering**
Estimation of catalyst activity profiles in fixed-bed reactors with decaying catalysts 106(1993)193

**Fine chemicals**
New catalytic processes developed in Europe during the 1980's 115(1994)173

**Fischer–Tropisch synthesis**
Hydrogenation of carbon monoxide on unsupported Fe–Mn–K catalysts for the synthesis of lower alkenes: promoter effect of manganese 111(1994)119

**Fischer–Tropsch synthesis**
Direct synthesis of isoalkanes through Fischer–Tropsch reaction on hybrid catalysts 110(1994)121

Improved alkene selectivity in carbon monoxide hydrogenation over silica supported cobalt–molybdenum catalyst 112(1994)87

**Fixed-bed reactor**
Selective oxidation of glycerol on a platinum–bismuth catalyst by using a fixed bed reactor 105(1993)147

**Fixed-bed reactors**
Estimation of catalyst activity profiles in fixed-bed reactors with decaying catalysts 106(1993)193

**Fluid catalytic cracking**
Microactivity test (MAT) study of the ZSM-5 addition effects on FCC product yields and gasoline composition 105(1993)107

**Fluoride method**
Nuclear magnetic resonance studies of the synthesis of zeolite ZSM-5 by the "fluoride method" 111(1994)29

**Fluorinated catalysts**
Fluorinated hydrotreatment catalysts Effect of the deposition order of $F^-$ ions on F–CoMo/$\gamma$-$Al_2O_3$ catalysts 116(1994)221

**Fluorination**
Fluorinated hydrotreatment catalysts Effect of the deposition order of $F^-$ ions on F–CoMo/$\gamma$-$Al_2O_3$ catalysts 116(1994)221

**Fluorohydrocarbons**
Conversion under hydrogen of dichlorodifluoromethane over bimetallic palladium catalysts 101(1993)41

**Formaldehyde**
Silica supported metal-doped cesium ion catalyst for methacrylic acid synthesis via condensation of propionic acid with formaldehyde 102(1993)215

Vapour-phase trimerisation of formaldehyde to trioxane catalyzed by 1-vanado-11-molybdophosphoric acid: A reaction rate with an unusual pressure dependency 118(1994)17

Active electronic states of silver catalysts for methanol selective oxidation 120(1994)7

TAP reactor study of the partial oxidation of methanol to formaldehyde using an industrial Fe–Cr–Mo oxide catalyst 120(1994)85

**Formate species**
Intermediate species on zirconia supported methanol aerogel catalysts. II. Adsorption of carbon monoxide on pure zirconia and on zirconia containing zinc oxide 105(1993)223

Nature of formate in methanol synthesis on Cu/ZnO/$Al_2O_3$ 112(1994)37

Intermediate species on zirconia supported methanol aerogel catalysts III. Adsorption of carbon monoxide on copper containing solids 112(1994)57

**Fourier transform infrared of carbon monoxide**
Hydrocarbons from synthesis gas: Selectivity changes induced by the zeolite matrix on the metallic function in Rh/Y catalysts 107(1994)59

**Fourier-transform infrared spectroscopy**
Activity-enhanced copper–zinc based catalysts for the hydrogenolysis of esters 116(1994)237

**Free radical**
Liquid-phase oxidation of cyclohexane using CoAPO-5 as the catalyst 105(1993)289

**Freeze-drying**
Combustion of methane over $La_{0.66}Sr_{0.34}Ni_{0.3}Co_{0.7}O_3$ and $La_{0.4}Sr_{0.6}Fe_{0.4}Co_{0.6}O_3$ prepared by freeze-drying 109(1994)181

**Friedel–Crafts catalyst**
Effect of pore size and aluminium content on the production of linear alkylbenzenes over HY, H-ZSM-5 and H-ZSM-12 zeolites: Alkylation of benzene with 1-dodecene 114(1994)145

**FT-IR**
Benzene hydrogenation and hydrogenolysis of n-butane on Rh/H($x$)NaY zeolite catalysts 103(1993)5

Analysis of the surface acid–base characteristics of Pt/C catalysts for phosphoric acid fuel cells 114(1994)261

**FT-IR spectroscopy**
Mechanisms of methanation of carbon dioxide and carbon monoxide over nickel/alumina catalysts 104(1993)87

**Functional groups**
Analysis of the surface acid–base characteristics of Pt/C catalysts for phosphoric acid fuel cells 114(1994)261

**Furancarboxylic acid**
Lead/platinum on charcoal as catalyst for oxidation of furfural. Effect of main parameters 112(1994)1

**Furfural oxidation**
Lead/platinum on charcoal as catalyst for oxidation of furfural. Effect of main parameters 112(1994)1

**Fused iron-cobalt catalysts**
Effect of cobalt on the morphology and activity of fused iron catalyst for ammonia synthesis 112(1994)149

# G

**Ga/H-ZSM-5**
Platinum promoting effects in Pt/Ga zeolite catalysts of lower alkane aromatization. I. Ga and Pt electronic states, dispersion and distribution in zeolite crystals in dependence of preparation techniques. Dynamic effects caused by reaction mixture 107(1994)147

**Gallium**
Platinum promoting effects in Pt/Ga zeolite catalysts of lower alkane aromatization. II. The catalytic properties in n-butane aromatization, formation of the catalytically active sites and reaction mechanism 107(1994)165

State, activation, and migration of gallium in Ga/ H-MFI(Si,Al) propane aromatization catalysts 108(1994)85

Catalytic evaluation of gallium modified wide-pore zeolites 109(1994)235

**Gallium(I) formation**
Platinum promoting effects in Pt/Ga zeolite catalysts of lower alkane aromatization. I. Ga and Pt electronic states, dispersion and distribution in zeolite crystals in dependence of preparation techniques. Dynamic effects caused by reaction mixture 107(1994)147

**Gallosilicate catalyst**
n-Hexane aromatization on synthetic gallosilicates with MFI structure 103(1993)205

**Gas oil**
Catalytic evaluation of gallium modified wide-pore zeolites 109(1994)235

Application of the energy gradient selectivity concept to fluid catalytic cracking catalysts 115(1994)103

Influence of phosphorus on the structure and the hydrodesulphurization and hydrodenitrogenation activity of $W/Al_2O_3$ catalysts 120(1994)147

**Gasoil cracking**
Kinetics of gasoil cracking and catalyst decay on SAPO-37 and USY molecular sieves 118(1994)153

**Gasoline**
Catalytic evaluation of gallium modified wide-pore zeolites 109(1994)235

A comparative study of $O_4^{2-}/ZrO_2$ and zeolite beta as catalysts for the isomerization of n-butane and the alkylation of isobutane with 2-butene 111(1994)175

Cracking of an industrial feedstock over combinations of H-ZSM-5 and HY: The influence of H-ZSM-5 pretreatment 120(1994)55

**Gas-phase oxidation**
One-step hydroxylation of benzene to phenol I. Gas-phase nitric acid oxidation over $Fe/Mo/SiO_2$ 117(1994)1

Gas-phase oxygen oxidations of alkylaromatics over chemical vapor deposited Fe/Mo/borosilicate molecular sieve, Fe/Mo/DBH. IV. Effect of supporting matrix on *p*-xylene oxidation 118(1994)87

**Gas-phase oxygen oxidation**
Gas-phase oxygen oxidations of alkylaromatics over Chemical vapor deposited Fe/Mo/borosilicate molecular sieve, Fe/Mo/DBH. I. The selective synthesis of terephthaldehyde from *para*-xylene 105(1993)83

Gas-phase oxygen oxidations of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve. II. The role of carbon dioxide as a co-oxidant 106(1993)259

Gas-phase oxygen oxidation of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve Fe/Mo/DBH. III. Selective oxidation of *p*-xylene from a xylene isomer mixture containing ethylbenzene 110(1994)75

**Gas sensor**
Sulfur poisoning, recovery and related phenomena over supported palladium, rhodium and iridium catalysts for methane oxidation 101(1993)51

**Gas separation**
Promotion of hydrogen permeation on metal-dispersed alumina membranes and its application to a membrane reactor for methane steam reforming 110(1994)239

**General power law (GPL)**
Sintering kinetics of supported metals: New perspectives from a unifying GPLE treatment 107(1994)1

**Ge–Pd/C**
Oxidation state of germanium promoter on a palladium/carbon catalyst and its role in hydrogenation reactions 102(1993)105

**Germanium)**
Oxidation state of germanium promoter on a palladium/carbon catalyst and its role in hydrogenation reactions 102(1993)105

**Glucose dehydration**
Dehydration of glucose to organic acids in microporous pillared clay catalysts 109(1994)147

**Glycerol**
Selective oxidation of glycerol on a platinum–bismuth catalyst by using a fixed bed reactor 105(1993)147

**Guaiacol**
Study of the hydrodeoxygenation of carbonyl, carboxylic and guaiacyl groups over sulfided $CoMo/\gamma$-$Al_2O_3$ and $NiMo/\gamma$-$Al_2O_3$ catalysts. I. Catalytic reaction schemes 109(1994)77

Study of the hydrodeoxygenation of carbonyl, carboxylic and guaiacyl groups over sulfided CoMo/$\gamma$-$Al_2O_3$ and NiMo/$\gamma$-$Al_2O_3$ catalyst. II. influence of water, ammonia and hydrogen sulfide 109(1994)97

# H

**$H_2$–$O_2$ reaction**
Sulfate accumulation in commercial Pd–Pt/$Al_2O_3$ and Pt/$Al_2O_3$ catalysts used for removal of hydrogen from carbon dioxide 119(1994)23

**HAMS-1B-3**
Gas-phase oxygen oxidations of alkylaromatics over chemical vapor deposited Fe/Mo/borosilicate molecular sieve, Fe/Mo/DBH. IV. Effect of supporting matrix on *p*-xylene oxidation 118(1994)87

**H-beta**
Transalkylation of di-isopropylbenzenes over large pore zeolites 106(1993)143

**HDO**
Direct hydrodeoxygenation and hydrogenation of 2,6- and 3,5-dimethylphenol over sulphided CoMo catalyst 117(1994)151

**Heats of adsorption**
High surface area $\alpha$-alumina. I. Adsorption properties and heats of adsorption of carbon monoxide, carbon dioxide, and ethylene 111(1994)151

**Heavy oils**
A plasma-produced dispersed and disposable supported nickel catalyst for hydroconversion of heavy oils. I. Preparation and characterization 104(1993)137

A plasma-produced dispersed and disposable supported nickel catalyst for hydroconversion of heavy oils. II. Evaluation of the catalytic activity in the hydroconversion of a deasphalted vacuum residue 104(1993)149

**Heavy petroleum residual oil**
Effects of transition metal addition to CoMo/$\gamma$-$Al_2O_3$ catalyst on the hydrotreating reactions of atmospheric residual oil 109(1994)195

**Heptane aromatization**
Transformations of n-heptane over Pt/activated carbon catalysts 119(1994)271

**Heptane isomerization**
Improvement of catalytic properties of SAPO-31 molecular sieves by using an activated form of $SiO_2$ 110(1994)27

**Heptane (n-)**
Reactions of mixtures of light alkenes and n-heptane over USHY zeolite 108(1994)107

**Heterogeneous catalysts**
Investigation of zeolite catalysts for the direct partial oxidation of benzene to phenol 103(1993)135

**Heterogeneous photocatalysis**
Influence of pH on the degradation kinetics of nitrophenol isomers in a heterogeneous photocatalytic system 101(1993)7

**Heterolytic cleavage**
Critical performance evaluation of catalysts and mechanistic implications for oxidative coupling of methane 104(1993)11

**Heteropoly acid**
Vapour-phase trimerisation of formaldehyde to trioxane catalyzed by 1-vanado-11-molybdophosphoric acid: A reaction rate with an unusual pressure dependency 118(1994)17

Preparation and catalytic activity of $H_3PMo_{12}O_{40}$-blended polymer film for ethanol conversion reaction 119(1994)107

**Heteropolyacid/silica**
Oxidative dehydrogenation of isobutyric acid on $H_4PVMo_{11}O_{40}$, $Na_xH_{4-x}PVMo_{11}O_{40}$ and $Cu_yH_{4-2y}PVMo_{11}O_{40}$ heteropolyacid catalysts supported on silica 111(1994)109

**Heteropoly compounds**
Enhancement of catalytic activity of $Cs_{2.5}Ni_{0.08}H_{0.34}PMo_{12}O_{40}$ by $V^{5+}$-substitution for oxidation of isobutane into methacrylic acid 118(1994)1

**Hexane aromatization**
Electronic state of platinum supported on the monochlorotrifluoromethane-treated alkaline L zeolite 102(1993)167

n-Hexane aromatization on synthetic gallosilicates with MFI structure 103(1993)205

Characterization and catalytic performance of the platinum KL zeolite treated with chlorotrifluoromethane 106(1993)9

Influence of structure and acidity-basicity of zeolites on platinum supported catalysts of n-$C_6$ aromatization 112(1994)105

**Hexane conversion**
Nickel modified H-ZSM-5 catalysts 114(1994)299

**Hexane cracking**
Vanadium–nickel interaction in REY zeolite 117(1994)109

**Hexane reforming reaction**
Comparison of platinum–iridium bimetallic catalysts supported on γ-alumina and HY-zeolite in n-hexane reforming reaction 115(1994)229

**Hidden position**
Nickel modified H-ZSM-5 catalysts 114(1994)299

**Highly selective Pt-Ga catalyst**
Platinum promoting effects in Pt/Ga zeolite catalysts of lower alkane aromatization. II. The catalytic properties in n-butane aromatization, formation of the catalytically active sites and reaction mechanism 107(1994)165

**High-surface area $Pt/SiO_2$**
Stabilization and sintering of porous $Pt/SiO_2$: a new approach 102(1993)181

**High temperature**
High-temperature catalytic reduction of nitrogen monoxide by carbon monoxide and hydrogen over $La_{1-x}Sr_xMO_3$ perovskites (M = Fe, Co) during reducing and oxidising conditions 116(1994)109

**High-temperature catalyst**
Catalytic combustion of methane over magnesium oxide 114(1994)231

**H-mordenite**
Conversion of heavy n-alkanes into light isomers over H-mordenite, platinum/H-mordenite, platinum/alumina and composite catalysts 106(1993)27

Transalkylation of di-isopropylbenzenes over large pore zeolites 106(1993)143

**HY**
Effect of dealumination on the catalytic activity of acid zeolites for the gas phase synthesis of MTBE 119(1994)69

**Hydrocarbon adsorption**
Adsorption parameters of some $C_5$–$C_8$ paraffinic hydrocarbons on platinum–alumina by gas chromatographic pulse techniques 103(1993)35

**Hydrocarbons**
Conversion of n-heptane over Pt- and Pd/SAPO-11 catalysts 114(1994)291

**Hydrocarbon synthesis**
Carbon dioxide hydrogenation over iron containing catalysts 117(1994)125

**Hydroconversion**
A plasma-produced dispersed and disposable supported nickel catalyst for hydroconversion of heavy oils. I. Preparation and characterization 104(1993)137

A plasma-produced dispersed and disposable supported nickel catalyst for hydroconversion of heavy oils. II. Evaluation of the catalytic activity in the hydroconversion of a deasphalted vacuum residue 104(1993)149

**Hydrocracking**
n-Heptane hydrocracking over a sulfided NiMo/Y zeolite catalyst: reversible deactivation of the zeolite by sulfur-containing molecules 103(1993)163

Reactions of aromatics and naphthenes with alkanes over a $Pt/ZrO_2/SO_4$ catalyst 114(1994)183

**Hydrodechlorination**
Selective hydrodechlorination of CFC-113 on Bi- and Tl-modified palladium catalysts 113(1994)29

**Hydrodehalogenation**
Conversion under hydrogen of dichlorodifluoromethane over bimetallic palladium catalysts 101(1993)41

**Hydrodemetallisation**
Hydrodemetallisation of nickel-5,10,15,20-tetraphenylporphyrin over sulphided $Mo/Al_2O_3$: Initial catalyst deactivation 108(1994)171

**Hydrodenitrogenation**
$MoS_2$ structures in high-activity hydrotreating catalysts. I. Semi-quantitative method for evaluation of transmission electron microscopy results. Correlations between hydrodesulfurization and hydrodenitrogenation activities and $MoS_2$ dispersion 105(1993)53

$MoS_2$ structures in high activity hydrotreating catalysts. II. Evolution of the active phase during the catalyst life cycle deactivation model 105(1993)69

Deamination of 2-octylamine with metal nitride and oxide catalysts 111(1994)11

Magnesia supported Ni–Mo sulfide hydrodesulfurization and hydrodenitrogenation catalysts prepared by non-aqueous impregnation 118(1994)111

Influence of phosphorus on the structure and the hydrodesulphurization and hydrodenitrogenation activity of $W/Al_2O_3$ catalysts 120(1994)147

**Hydrodeoxygenation**
Study of the hydrodeoxygenation of carbonyl, carboxylic and guaiacyl groups over sulfided $CoMo/\gamma$-$Al_2O_3$ and $NiMo/\gamma$-$Al_2O_3$ catalysts. I. Catalytic reaction schemes 109(1994)77

Study of the hydrodeoxygenation of carbonyl, carboxylic and guaiacyl groups over sulfided $CoMo/\gamma$-$Al_2O_3$ and $NiMo/\gamma$-$Al_2O_3$ catalyst. II. influence of water, ammonia and hydrogen sulfide 109(1994)97

**Hydrodesulfurisation**
Effect of the hydrogen and hydrogen sulfide partial pressures in the hydrodesulfurisation of thiophene and hydrogenation of cyclohexene on rhodium–tungsten catalysts 107(1994)101

**Hydrodesulfurization**
Preparation of molybdenum-based catalysts by new slurry impregnation method: active carbon supported molybdenum sulfide hydrodesulfurization catalyst 115(1994)285

Magnesia supported Ni–Mo sulfide hydrodesulfurization and hydrodenitrogenation catalysts prepared by non-aqueous impregnation 118(1994)111

Influence of zeolite acidity on thiophene hydrodesulfurization activity 119(1994)253

**Hydrodesulphurization**
Kinetic approach in the comparison of supported and unsupported ternary nickel–ruthenium–sulphur compounds in hydrotreating reactions 103(1993)79

$MoS_2$ structures in high-activity hydrotreating catalysts. I. Semi-quantitative method for evaluation of transmission electron microscopy results. Correlations between hydrodesulfurization and hydrodenitrogenation activities and $MoS_2$ dispersion 105(1993)53

Fluorinated hydrotreatment catalysts Effect of the deposition order of $F^-$ ions on $F–CoMo/\gamma$-$Al_2O_3$ catalysts 116(1994)221

In situ poisoning of the thiophene hydrodesulfurization activity of carbon-supported transition metal sulfide catalysts by phosphorus 119(1994)293

Influence of phosphorus on the structure and the hydrodesulphurization and hydrodenitrogenation activity of $W/Al_2O_3$ catalysts 120(1994)147

**Hydroformylation**
Hydroformylation of ethylene over cobalt, nickel, molybdenum, CoMo and NiMo alumina supported sulfide catalysts 116(1994)259

**Hydrogen**
Effects of zinc addition to silica supported copper catalysts for the hydrogenolysis of esters 108(1994)63

Role of alkali promoters in $K/MoS_2$ catalysts for $CO–H_2$ reactions 110(1994)11

High-temperature catalytic reduction of nitrogen monoxide by carbon monoxide and hydrogen over $La_{1-x}Sr_xMO_3$ perovskites (M = Fe, Co) during reducing and oxidising conditions 116(1994)109

**Hydrogen/oxygen chemisorption**
Nickel modified H-ZSM-5 catalysts 114(1994)299

**Hydrogen adsorption**
Intermediate species on zirconia supported methanol aerogel catalysts. I. State of the catalyst surface before and after the adsorption of hydrogen 101(1993)297

Platinum promoting effects in Pt/Ga zeolite catalysts of lower alkane aromatization. I. Ga and Pt electronic states, dispersion and distribution in zeolite crystals in dependence of preparation techniques. Dynamic effects caused by reaction mixture 107(1994)147

**Hydrogen adsorption–desorption**
Study on the active center of $Ga_2O_3$/HZSM-5 catalyst 103(1993)259

**Hydrogenation**
Catalyst characterization by a probe reaction. Effect of tin addition in $PtSn/Al_2O_3$ 101(1993)199

Oxidation state of germanium promoter on a palladium/carbon catalyst and its role in hydrogenation reactions 102(1993)105

Kinetic approach in the comparison of supported and unsupported ternary nickel–ruthenium–sulphur compounds in hydrotreating reactions 103(1993)79

Identification of nickel species and their interaction with the support in Ni–silica catalyst precursor 103(1993)183

Development of an active and stable ceria-supported palladium catalyst for hydrogenation of carbon dioxide to methanol 106(1993)1

Effect of the hydrogen and hydrogen sulfide partial pressures in the hydrodesulfurisation of thiophene and hydrogenation of cyclohexene on rhodium–tungsten catalysts 107(1994)101

Effects of zinc addition to silica supported copper catalysts for the hydrogenolysis of esters 108(1994)63

Reactions of aromatics and naphthenes with alkanes over a $Pt/ZrO_2/SO_4$ catalyst 114(1994)183

Hydrogenation of *para*-chloronitrobenzene over nickel borides 115(1994)45

Morphology changes and deactivation of alkali-promoted $Ni/SiO_2$ catalysts during carbon monoxide hydrogenation 115(1994)135

Role of mass transfer and kinetics in the hydrogenation of rapeseed oil on a supported palladium catalyst 116(1994)269

1,3-Butadiene selective hydrogenation over Pd/alumina and CuPd/alumina catalysts 117(1994)41

Direct hydrodeoxygenation and hydrogenation of 2,6- and 3,5-dimethylphenol over sulphided CoMo catalyst 117(1994)151

Selective hydrogenation of $C_4$-alkynes over a copper on silica catalyst 120(1994)163

**Hydrogenation of acetophenone**
Influence of metal–support effects on acetophenone hydrogenation over platinum 113(1994)59

**Hydrogen chemisorption**
Nitrobenzene hydrogenation over aluminum borate-supported platinum catalyst 119(1994)185

**Hydrogen cyanide**
Hydrogen cyanide formation in selective catalytic reduction of nitrogen oxides over Cu/ZSM-5 107(1994)125

**Hydrogenolysis**
Slurry phase synthesis of methanol with a potassium methoxide/copper chromite catalytic system 102(1993)13

Effects of zinc addition to silica supported copper catalysts for the hydrogenolysis of esters 108(1994)63

Influence of the nature of silicon and titanium alkoxides on the incorporation of titanium in TS-1 110(1994)137

Activated carbons as supports for nickel catalysts 112(1994)75

The use of 2,2-dimethylbutane (neohexane) as a probe molecule of metal catalysts 114(1994)13

Hydrogenolysis of dimethyl succinate on copper-based catalysts 116(1994)137

Direct hydrodeoxygenation and hydrogenation of 2,6- and 3,5-dimethylphenol over sulphided CoMo catalyst 117(1994)151

**Hydrogen partial pressure**
Effect of the hydrogen and hydrogen sulfide partial pressures in the hydrodesulfurisation of thiophene and hydrogenation of cyclohexene on rhodium–tungsten catalysts 107(1994)101

**Hydrogen permeation**
Methane steam reforming in asymmetric Pd- and Pd–Ag/porous SS membrane reactors 119(1994)305

**Hydrogen selective permeation**
Promotion of hydrogen permeation on metal-dispersed alumina membranes and its application to a membrane reactor for methane steam reforming 110(1994)239

**Hydrogen spillover**
Platinum promoting effects in Pt/Ga zeolite catalysts of lower alkane aromatization. II. The catalytic properties in n-butane aromatization, formation of the catalytically active sites and reaction mechanism 107(1994)165

**Hydrogen storage**
Hydrogenation catalysts based on nickel and rare earth oxides. Part II: XRD, electron microscopy and XPS studies of the cerium–nickel–oxygen–hydrogen system 101(1993)73

**Hydrogen sulfide**
n-Heptane hydrocracking over a sulfided NiMo/Y zeolite catalyst: reversible deactivation of the zeolite by sulfur-containing molecules 103(1993)163

Effect of hydrogen sulfide on isosynthesis over 7 wt.-% cerium zirconia catalyst 112(1994)175

**Hydrogen sulfide partial pressure**
Effect of the hydrogen and hydrogen sulfide partial pressures in the hydrodesulfurisation of thiophene and hydrogenation of cyclohexene on rhodium–tungsten catalysts 107(1994)101

**Hydrogen sulphide**
Study of the hydrodeoxygenation of carbonyl, carboxylic and guaiacyl groups over sulfided CoMo/$\gamma$-$Al_2O_3$ and NiMo/$\gamma$-$Al_2O_3$ catalyst. II. influence of water, ammonia and hydrogen sulfide 109(1994)97

**Hydrogen synthesis**
Intermediate species on zirconia supported methanol aerogel catalysts. I. State of the catalyst surface before and after the adsorption of hydrogen 101(1993)297

**Hydrogen thermodesorption**
Composition and catalytic properties of products from the reduction of $NiMoO_4$ 105(1993)205

**Hydroisomerization**
Selective hydroisomerization of long chain normal paraffins 119(1994)121

**Hydroisomerization–hydrocracking**
Conversion of heavy n-alkanes into light isomers over H-mordenite, platinum/H-mordenite, platinum/alumina and composite catalysts 106(1993)27

**Hydrolysis**
Dealkylation of *N,N*-dialkylanilines over transition metal catalysts in the presence of ammonia, water and hydrogen 103(1993)43

**Hydrolysis of carbon sulphides**
Hydrolysis of carbon sulfides on titania and alumina catalysts; the influence of water 115(1994)157

**Hydroprocessing**
Studies on the rejuvenation of spent catalysts: effectiveness and selectivity in the removal of foulant metals from spent hydroprocessing catalysts in coked and decoked forms 105(1993)195

**Hydroprocessing catalysts**
Effect of acidic and basic vapors on pore size distribution of alumina under hydrothermal conditions 101(1993)117

**Hydrorefining**
Doped aluminas as hydrorefining catalyst supports 119(1994)59

**Hydrotalcite**
Alkylation of phenol with methanol over magnesium–aluminium calcined hydrotalcites 119(1994)241

**Hydrotalcite catalyst**
One-step synthesis of citronitril on hydrotalcite derived base catalysts 114(1994)219

**Hydrothermal**
Effect of acidic and basic vapors on pore size distribution of alumina under hydrothermal conditions 101(1993)117

**Hydrothermal stability**
Thermal and hydrothermal stabilities of zeolite EU-1 119(1994)33

Hydrothermal stability and vanadium tolerance of ZSM-20 and Y zeolites 119(1994)139

**Hydrothermal synthesis**
Preparation of a dense ZSM-5 zeolite film on the outer surface of an alumina ceramic filter 111(1994)143

**Hydrotreating**
Effects of transition metal addition to CoMo/$\gamma$-$Al_2O_3$ catalyst on the hydrotreating reactions of atmospheric residual oil 109(1994)195

Catalysis in thermal biomass conversion 116(1994)5

**Hydrotreating catalyst**
Deactivation of industrial hydrotreating catalyst for middle petroleum fractions processing 107(1994)133

**Hydrotreating catalysts**
Promotion effects in bulk metal sulfide catalysts 114(1994)131

Magnesia supported Ni–Mo sulfide hydrodesulfurization and hydrodenitrogenation catalysts prepared by non-aqueous impregnation 118(1994)111

**Hydroxylation**
Comparison between TS-1 and TS-2 in the hydroxylation of phenol with hydrogen peroxide 102(1993)69

Catalytic properties of a new large-pore vanadium silicate with ZSM-12 structure 114(1994)9

**Hysteresis**
Effects of zinc addition to silica supported copper catalysts for the hydrogenolysis of esters 108(1994)63

**HY-zeolite**
Comparison of platinum–iridium bimetallic catalysts supported on $\gamma$-alumina and HY-zeolite in n-hexane reforming reaction 115(1994)229

Cracking of an industrial feedstock over combinations of H-ZSM-5 and HY: The influence of H-ZSM-5 pretreatment 120(1994)55

**H-ZSM-5**
Methanol conversion to hydrocarbons over zeolite H-ZSM-5: Comments on the formation of $C_4$ hydrocarbons at low reaction temperatures 106(1993)115

Vapour phase aniline alkylation activity and selectivity over H-ZSM-5 111(1994)133

Nickel modified H-ZSM-5 catalysts 114(1994)299

Effect of dealumination on the catalytic activity of acid zeolites for the gas phase synthesis of MTBE 119(1994)69

**H-ZSM-5 zeolite**
Cracking of an industrial feedstock over combinations of H-ZSM-5 and HY: The influence of H-ZSM-5 pretreatment 120(1994)55

# I

**Imine**
Dealkylation of *N,N*-dialkylanilines over transition metal catalysts in the presence of ammonia, water and hydrogen 103(1993)43

**Iminium cation**
Dealkylation of *N,N*-dialkylanilines over transition metal catalysts in the presence of ammonia, water and hydrogen 103(1993)43

**Impregnation**
Dependence of selectivity on the preparation method of copper/$\alpha$-alumina catalysts in the dehydrogenation of cyclohexanol 103(1993)233

Adsorption of platinum complexes on silica and alumina: Preparation of non-uniform metal distributions within support pellets 106(1993)239

Preparation of molybdenum-based catalysts by new slurry impregnation method: active carbon supported molybdenum sulfide hydrodesulfurization catalyst 115(1994)285

**Impregnation (non-aqueous)**
Magnesia supported Ni–Mo sulfide hydrodesulfurization and hydrodenitrogenation catalysts prepared by non-aqueous impregnation 118(1994)111

**Incorporation**
Influence of the nature of silicon and titanium alkoxides on the incorporation of titanium in TS-1 110(1994)137

**Industrial catalysis**
New catalytic processes developed in Europe during the 1980's 115(1994)173

**Industrial conditions**
Nature of formate in methanol synthesis on Cu/ZnO/$Al_2O_3$ 112(1994)37

**Infrared**
Platinum promoting effects in Pt/Ga zeolite catalysts of lower alkane aromatization. I. Ga and Pt electronic states, dispersion and distribution in zeolite crystals in dependence of preparation techniques. Dynamic effects caused by reaction mixture 107(1994)147

Catalytic synthesis of thiolane from tetrahydrofuran and $H_2S$ 116(1994)95

**Infrared spectroscopy**
Alcohol synthesis from syngas over nickel catalysts: Effect of copper and lithium addition 103(1993)291

Phosphorus induced formation of a $NiWO_4$ phase in the oxide form of P–Ni–W/$Al_2O_3$ catalysts 108(1994)123

Carbon monoxide adsorption and hydrogenation on Cu–Rh/$SiO_2$ catalysts 114(1994)113

Nickel modified H-ZSM-5 catalysts 114(1994)299

Microcalorimetric and infrared studies of the acid–base properties of $V_2O_5/\gamma$-$Al_2O_3$ catalysts 119(1994)341

**Inhibition**
Stabilization and sintering of porous Pt/$SiO_2$: a new approach 102(1993)181

**Innovative catalysis**
New catalytic processes developed in Europe during the 1980's 115(1994)173

**Interaction**
Application of *acoustophoresis* in a study on solute–support interactions for the preparation of supported cobalt–molybdenum catalysts 102(1993)35

**Intercalation**
Preparation and catalytic activity of titanium pillared montmorillonite 103(1993)23

**Intrinsic kinetics**
Intrinsic kinetics and industrial reactors modelling for the dehydrogenation of ethylbenzene to styrene on promoted iron oxide catalysts 113(1994)89

**Ion exchange**
Simultaneous exchange and extrusion of metal exchanged zeolites 114(1994)191

**IR**
Redox behavior of trimanganese tetroxide catalysts 101(1993)233

Ammoxidation of toluene to benzonitrile over vanadium–bismuth scheelite 101(1993)269

Electronic state of platinum supported on the monochlorotrifluoromethane-treated alkaline L zeolite 102(1993)167

Preparation and catalytic activity of titanium pillared montmorillonite 103(1993)23

Improved activity of a silica supported ruthenium catalyst by carbon monoxide pretreatment 115(1994)315

Thermal and hydrothermal stabilities of zeolite EU-1 119(1994)33

**Iridium**
Benzene hydrogenation on platinum and iridium catalysts. Variation of the toxicity of sulfur with the nature of the support 101(1993)143

The use of 2,2-dimethylbutane (neohexane) as a probe molecule of metal catalysts 114(1994)13

Comparison of platinum–iridium bimetallic catalysts supported on $\gamma$-alumina and HY-zeolite in n-hexane reforming reaction 115(1994)229

**Iron**
Kinetics of activation of the industrial and model fused iron catalysts for ammonia synthesis 112(1994)13

**Iron catalyst**
Passivation layer in a pre-reduced ammonia synthesis catalyst: A temperature-programmed reduction study 115(1994)295

**Iron–chromium–molybdenum oxide**
TAP reactor study of the partial oxidation of methanol to formaldehyde using an industrial Fe–Cr–Mo oxide catalyst 120(1994)85

**Iron-oxide**
Intrinsic kinetics and industrial reactors modelling for the dehydrogenation of ethylbenzene to styrene on promoted iron oxide catalysts 113(1994)89

**Iron phosphate**
Formation of methacrylic acid by oxidative dehydrogenation of isobutyric acid: Promoters of iron phosphate catalysts 109(1994)135

Oxidative dehydrogenation of isobutyronitrile to methacrylonitrile over iron phosphate catalyst 116(1994)165

**Iron promotion**
Isomerization of $^{13}C$ labeled butane over Fe,Mn promoted sulfated $ZrO_2$ catalyst 118(1994)11

**Iron silicalite**
Carbon dioxide hydrogenation over iron containing catalysts 117(1994)125

**IR spectroscopy**
Active electronic states of silver catalysts for methanol selective oxidation 120(1994)7

**Isoalkanes**
Direct synthesis of isoalkanes through Fischer–Tropsch reaction on hybrid catalysts 110(1994)121

**Isobutane**
Alkylation of isobutane with butenes over solid superacids, $SO_4^{2-}/ZrO_2$ and $SO_4^{2-}/TiO_2$ 107(1994)229

Alkylation of isobutane with butenes over solid acid catalysts 107(1994)239

Zeolite beta as a catalyst for alkylation of isobutane with 2-butene. Influence of synthesis conditions and process variables 119(1994)83

**Isobutane alkylation**
A comparative study of $O_4^{2-}/ZrO_2$ and zeolite beta as catalysts for the isomerization of n-butane and the alkylation of isobutane with 2-butene 111(1994)175

**Isobutane cracking**
Silica-supported small crystals of ZSM-5 zeolite 115(1994)7

**Isobutane dehydrogenation**
Isobutane dehydrogenation on chromia/zirconia catalysts 106(1993)125

**Isobutane oxydation**
Enhancement of catalytic activity of $Cs_{2.5}Ni_{0.08}H_{0.34}PMo_{12}O_{40}$ by $V^{5+}$-substitution for oxidation of isobutane into methacrylic acid 118(1994)1

**Isobutanol**
Conversion of methanol and isobutanol to MTBE 103(1993)223

**Isobutene**
Catalytic amination of methyl *tertiary*-butyl ether to *tertiary*-butylamine over pentasil molecular sieves 106(1993)213

$C_4$ alkene separation process using solid acid catalysis 109(1994)247

**Isobutene dimerization**
Kinetic study of isobutene dimerization catalyzed by a macroporous sulphonic acid resin 106(1993)155

**Isobutyric acid dehydrogenation**
Formation of methacrylic acid by oxidative dehydrogenation of isobutyric acid: Promoters of iron phosphate catalysts 109(1994)135

Oxidative dehydrogenation of isobutyric acid on $H_4PVMo_{11}O_{40}$, $Na_xH_{4-x}PVMo_{11}O_{40}$ and $Cu_yH_{4-2y}PVMo_{11}O_{40}$ heteropolyacid catalysts supported on silica 111(1994)109

**Iso-electric point**
Application of *acoustophoresis* in a study on solute–support interactions for the preparation of supported cobalt–molybdenum catalysts 102(1993)35

**Isomerization**
Conversion of 1-butene over $WO_3$–$TiO_2$ catalysts 107(1994)249

Dimerization of 1-butene over nickel zeolitic catalysts: A search for linear dimers 110(1994)39

The use of 2,2-dimethylbutane (neohexane) as a probe molecule of metal catalysts 114(1994)13

Isomerisation of $\alpha$-acetylenic alcohols into $\alpha,\beta$-ethylenic carbonyl derivatives in vapor phase 114(1994)55

Reactions of aromatics and naphthenes with alkanes over a $Pt/ZrO_2/SO_4$ catalyst 114(1994)183

Role of mass transfer and kinetics in the hydrogenation of rapeseed oil on a supported palladium catalyst 116(1994)269

**Isomerization (skeletal)**
Fluorinated alumina as a catalyst for skeletal isomerization of n-butene 118(1994)127

**Isomorphous substitution**
Synthesis, characterization and catalytic properties of vanadium silicates with a ZSM-48 structure 102(1993)201

Effect of pore size and aluminium content on the production of linear alkylbenzenes over HY, H-ZSM-5 and H-ZSM-12 zeolites: Alkylation of benzene with 1-dodecene 114(1994)145

**Isoprene**
Selective hydrogenation of isoprene on eggshell and uniform palladium profile catalysts 108(1994)7

**Isopropanol decomposition**
Influence of structure and acidity-basicity of zeolites on platinum supported catalysts of n-$C_6$ aromatization 112(1994)105

**Iso-propanol dehydrogenation**
High-temperature superconductors in catalysis 109(1994)1

**Isopropanol transformation**
Transformation of isopropanol over $Pt/H_xVMoO_{5.5}$ hydrogen bronze 108(1994)31

**Isosynthesis**
Effect of hydrogen sulfide on isosynthesis over 7 wt.-% cerium zirconia catalyst 112(1994)175

**Isotopic labeling**
Isomerization of $^{13}C$ labeled butane over Fe,Mn promoted sulfated $ZrO_2$ catalyst 118(1994)11

**ISS**
Alkali hydroxides as promoters of $Mn_3O_4$ in the selective reduction of nitrobenzene; an X-ray photoelectron spectroscopy, ultraviolet photoelectron spectroscopy and ion scattering spectroscopy study 115(1994)69

# K

**α-Ketocaboxylic acid**
Catalytic reductive amination of α-ketocaboxylic acids as a useful route to amino acids 119(1994)1

**Ketone**
Study of the hydrodeoxygenation of carbonyl, carboxylic and guaiacyl groups over sulfided $CoMo/\gamma$-$Al_2O_3$ and $NiMo/\gamma$-$Al_2O_3$ catalysts. I. Catalytic reaction schemes 109(1994)77

Study of the hydrodeoxygenation of carbonyl, carboxylic and guaiacyl groups over sulfided $CoMo/\gamma$-$Al_2O_3$ and $NiMo/\gamma$-$Al_2O_3$ catalyst. II. influence of water, ammonia and hydrogen sulfide 109(1994)97

**Ketones**
Application of solid base catalysts in the preparation of prepolymers by condensation of ketones and malononitrile 105(1993)271

**Kinetic model**
Kinetic model for the reaction of sulphur dioxide catalytic reduction to hydrogen sulphide 101(1993)25

**Kinetic models**
Kinetic study of dimethylsulfide and methanethiol synthesis 109(1994)45

Catalytic synthesis of thiolane from tetrahydrofuran and $H_2S$ 116(1994)95

Joint effects of diffusion resistance and catalyst deactivation on the selectivity of complex reactions proceeding via different mechanisms 118(1994)199

**Kinetic permeation model**
Methane steam reforming in asymmetric Pd- and Pd–Ag/porous SS membrane reactors 119(1994)305

**Kinetics**
Coking kinetics of fresh and thermally aged commercial $Cr_2O_3/Al_2O_3$ catalyst 101(1993)185

Kinetics of the water–gas shift reaction over several alkane activation and water–gas shift catalysts 101(1993)317

Catalytic alkylation of phenol with methanol on a microporous xerogel and a macroporous aerogel of high surface area aluminas 101(1993)339

Coking, aging and regeneration of zeolites. XIV. Kinetic study of the formation of coke from propene over USHY and H-ZSM-5 101(1993)351

Investigations on the loss mechanisms and the loss kinetics of molybdenum trioxide on alumina and silica 105(1993)185

Liquid-phase oxidation of cyclohexane using CoAPO-5 as the catalyst 105(1993)289

Kinetic study of isobutene dimerization catalyzed by a macroporous sulphonic acid resin 106(1993)155

Sintering kinetics of supported metals: New perspectives from a unifying GPLE treatment 107(1994)1

Catalytic reaction of methane with carbon dioxide over supported palladium 108(1994)205

Combustion of methane over $La_{0.66}Sr_{0.34}Ni_{0.3}Co_{0.7}O_3$ and $La_{0.4}Sr_{0.6}Fe_{0.4}Co_{0.6}O_3$ prepared by freeze-drying 109(1994)181

The selective oxidation of methane to $C_2$-hydrocarbons over lithium-doped $TiO_2$ catalysts 111(1994)41

Kinetics of activation of the industrial and model fused iron catalysts for ammonia synthesis 112(1994)13

Some new approaches to the competitive catalytic reaction kinetics 113(1994)9

Hydrolysis of carbon sulfides on titania and alumina catalysts; the influence of water 115(1994)157

Beneficial influences of the reactive atmosphere on selective oxidation catalysts 116(1994)49

Investigations of the mechanisms and kinetics leading to a loss of molybdenum from bismuth molybdate catalysts 117(1994)163

Kinetics of gasoil cracking and catalyst decay on SAPO-37 and USY molecular sieves 118(1994)153

Kinetic modeling of the catalytic oxidation of *o*-xylene over an industrial $V_2O_5$–$TiO_2$ (anatase) catalyst 120(1994)17

TAP reactor study of the partial oxidation of methanol to formaldehyde using an industrial Fe–Cr–Mo oxide catalyst 120(1994)85

Oxidative dehydrogenation of aqueous ethanol on a carbon supported platinum catalyst 120(1994)127

**Knoevenagel condensation**
Influence of nitrogen content of a new aluminophosphate oxynitride catalyst: AlPON in Knoevenagel condensation 114(1994)195

# L

**$(La/Sr)CoO_3$ and $(La/Ce)CoO_3$**
Catalytic carbon monoxide oxidation over strontium, cerium and copper-substituted lanthanum manganates and cobaltates 107(1994)201

**$La_{0.4}Sr_{0.6}Fe_{0.4}Co_{0.6}O_3$**
Combustion of methane over $La_{0.66}Sr_{0.34}Ni_{0.3}Co_{0.7}O_3$ and $La_{0.4}Sr_{0.6}Fe_{0.4}Co_{0.6}O_3$ prepared by freeze-drying 109(1994)181

**$La_{0.66}Sr_{0.34}Ni_{0.3}Co_{0.7}O_3$**
Combustion of methane over $La_{0.66}Sr_{0.34}Ni_{0.3}Co_{0.7}O_3$ and $La_{0.4}Sr_{0.6}Fe_{0.4}Co_{0.6}O_3$ prepared by freeze-drying 109(1994)181

**$La_{1-y}Sr_yFeO_3$**
Oxygen permeation flux through $La_{1-y}Sr_yFeO_3$ limited by carbon monoxide oxidation rate 119(1994)279

**LAB**
Effect of pore size and aluminium content on the production of linear alkylbenzenes over HY, H-ZSM-5 and H-ZSM-12 zeolites: Alkylation of benzene with 1-dodecene 114(1994)145

**$LaCoO_3$**
High-temperature catalytic reduction of nitrogen monoxide by carbon monoxide and hydrogen over $La_{1-x}Sr_xMO_3$ perovskites (M = Fe, Co) during reducing and oxidising conditions 116(1994)109

**$LaFeO_3$**
High-temperature catalytic reduction of nitrogen monoxide by carbon monoxide and hydrogen over $La_{1-x}Sr_xMO_3$ perovskites (M = Fe, Co) during reducing and oxidising conditions 116(1994)109

**La-H-Y**
Transalkylation of di-isopropylbenzenes over large pore zeolites 106(1993)143

**$La(Mn/Cu)O_3$**
Catalytic carbon monoxide oxidation over strontium, cerium and copper-substituted lanthanum manganates and cobaltates 107(1994)201

**Lanthanum**
Solid-state exchange of lanthanum in beta zeolite 106(1993)185

Partial oxidation of methane to synthesis gas using La–M–O catalysts 110(1994)99

**Lanthanum oxide catalysts**
In situ X-ray diffraction study of lanthanum oxide catalysts during the oxidative coupling of methane 108(1994)261

**Lanthanum zirconium oxide**
Preparation of stabilized copper–rare earth oxide catalysts for the synthesis of methanol from syngas 106(1993)201

**LAS**
Effect of pore size and aluminium content on the production of linear alkylbenzenes over HY, H-ZSM-5 and H-ZSM-12 zeolites: Alkylation of benzene with 1-dodecene 114(1994)145

**(La,Sr)$MnO_3$**
Catalytic carbon monoxide oxidation over strontium, cerium and copper-substituted lanthanum manganates and cobaltates 107(1994)201

**Leaching**
Studies on the rejuvenation of spent catalysts: effectiveness and selectivity in the removal of foulant metals from spent hydroprocessing catalysts in coked and decoked forms 105(1993)195

Autoxidation of *p*-cresol to *p*-hydroxy benzaldehyde using $CoCl_2$, CoAPO-5 and CoAPO-11 118(1994)51

**Lead**
Formation of methacrylic acid by oxidative dehydrogenation of isobutyric acid: Promoters of iron phosphate catalysts 109(1994)135

**Lead oxide**
Lead oxide–magnesia aerogel catalysts for the oxidative coupling of methane with nitrous oxide 108(1994)41

Structure and reactivity of undoped and sodium-doped $PbO/\alpha$-$Al_2O_3$ catalysts for oxidative coupling of methane 111(1994)79

**Lead–platinum/carbon**
Lead/platinum on charcoal as catalyst for oxidation of furfural. Effect of main parameters 112(1994)1

**Lead promotion**
Redox behavior of trimanganese tetroxide catalysts 101(1993)233

**Lewis acid sites**
Fluorinated alumina as a catalyst for skeletal isomerization of n-butene 118(1994)127

**Light alkenes**
Selective synthesis of light alkenes from carbon monoxide and hydrogen on silicalite supported iron–manganese catalysts 107(1994)73

**Light isomers**
Conversion of heavy n-alkanes into light isomers over H-mordenite, platinum/H-mordenite, platinum/alumina and composite catalysts 106(1993)27

**Linear alkylbenzene**
Effect of pore size and aluminium content on the production of linear alkylbenzenes over HY, H-ZSM-5 and H-ZSM-12 zeolites: Alkylation of benzene with 1-dodecene 114(1994)145

**Linear combination**
Temperature-programmed oxidation technique: kinetics of coke–$O_2$ reaction on supported metal catalysts 117(1994)53

**Liquid phase hydrogenations**
Mass transfer test and maximum rate determination during liquid-phase hydrogenations 120(1994)105

**Lithium**
The selective oxidation of methane to $C_2$-hydrocarbons over lithium-doped $TiO_2$ catalysts 111(1994)41

Oxidative dehydrogenation of ethane over lithium–bismuth–calcium oxide catalysts 114(1994)211

**Lithium addition**
Alcohol synthesis from syngas over nickel catalysts: Effect of copper and lithium addition 103(1993)291

**Lithium aluminate**
Oxidative dimerization of methane in molten $Li_2CO_3$–$Na_2CO_3$ eutectic supported by lithium aluminate at 700–850°C 108(1994)157

**Lithium promotion**
Redox behavior of trimanganese tetroxide catalysts 101(1993)233

**Lithium–sodium eutectic**
Oxidative dimerization of methane in molten $Li_2CO_3$–$Na_2CO_3$ eutectic supported by lithium aluminate at 700–850°C 108(1994)157

**Loss**
Investigations on the loss mechanisms and the loss kinetics of molybdenum trioxide on alumina and silica 105(1993)185

Investigations of the mechanisms and kinetics leading to a loss of molybdenum from bismuth molybdate catalysts 117(1994)163

**Loss of active component**
Deactivation of industrial hydrotreating catalyst for middle petroleum fractions processing 107(1994)133

**Lower alkenes**
Hydrogenation of carbon monoxide on unsupported Fe–Mn–K catalysts for the synthesis of lower alkenes: promoter effect of manganese 111(1994)119

**Low temperature**
Slurry phase synthesis of methanol with a potassium methoxide/copper chromite catalytic system 102(1993)13

Alkali compounds and copper chromite as low-temperature slurry phase methanol catalysts 103(1993)105

**Low-temperature catalytic combustion**
Solid superacid as the support of a platinum catalyst for low-temperature catalytic combustion 110(1994)61

**LTOC**
Dispersion and activity of vanadia supported on phosphate modified silica 101(1993)221

**Lubricant oil**
Selective hydroisomerization of long chain normal paraffins 119(1994)121

**Lumped kinetics**
Promotion effects in bulk metal sulfide catalysts 114(1994)131

**L zeolite**
Characterization and catalytic performance of the platinum KL zeolite treated with chlorotrifluoromethane 106(1993)9

# M

**Magnesia**
Lead oxide–magnesia aerogel catalysts for the oxidative coupling of methane with nitrous oxide 108(1994)41

Solid-state basicity as a guide to formulation of improved catalysts for oxidative coupling of methane. I. Performance evaluation 114(1994)69

**Magnesia promoter**
Carbon monoxide hydrogenation over carbon supported cobalt or ruthenium catalysts. Promoting effects of magnesium, vanadium and cerium oxides 120(1994)71

**Magnesium**
Identification of solid solutions and other phases in strontium and barium catalysts containing oxides of magnesium, aluminum or silicon as additive. II. catalyst characterisation 114(1994)87

**Magnesium dopant**
Doped aluminas as hydrorefining catalyst supports 119(1994)59

**Magnesium oxalate**
Preparation of V–Mg–O catalysts: Nature of active species precursors 104(1993)161

**Magnesium oxide**
Catalytic combustion of methane over magnesium oxide 114(1994)231

**Magnesium–phosphorus**
Acid–base properties and direction of oxidative transformations of methane on magnesium–phosphorus catalysts 101(1993)15

**Magnesium vanadates**
Support effects on magnesium-vanadium mixed oxides in the oxidative dehydrogenation of propane 114(1994)201

**Magnetite**
Microstructural and surface area development during hydrogen reduction of magnetite 109(1994)211

Effect of hydrogen reduction temperature on the surface chemistry of pure and promoted magnetite 110(1994)185

**Magnetization measurements**
Composition and catalytic properties of products from the reduction of $NiMoO_4$ 105(1993)205

**Maleic anhydride synthesis**
Incorporation of promoter elements into the crystal lattice of $(VO)_2P_2O_7$ and its promotion effects on the oxidation of n-butane to maleic anhydride 103(1993)281

**Malononitrile**
Application of solid base catalysts in the preparation of prepolymers by condensation of ketones and malononitrile 105(1993)271

**Malononitrile benzaldehyde condensation**
Influence of nitrogen content of a new aluminophosphate oxynitride catalyst: AlPON in Knoevenagel condensation 114(1994)195

**Manganese oxide**
Alkali hydroxides as promoters of $Mn_3O_4$ in the selective reduction of nitrobenzene; an X-ray photoelectron spectroscopy, ultraviolet photoelectron spectroscopy and ion scattering spectroscopy study 115(1994)69

Role of alkali promoters on $Mn_3O_4$ in the selective reduction of nitrobenzene 115(1994)85

Intrinsic reactivities of manganese oxides for carbon monoxide hydrogenation catalysis 119(1994)97

**Manganese oxide catalyst**
Redox behavior of trimanganese tetroxide catalysts 101(1993)233

**Manganese promotion**
Isomerization of $^{13}C$ labeled butane over Fe,Mn promoted sulfated $ZrO_2$ catalyst 118(1994)11

**MAS NMR spectroscopy**
Synthesis and characterization of silicon-rich SAPO-44 molecular sieves 110(1994)1

**Mass transfer test**
Mass transfer test and maximum rate determination during liquid-phase hydrogenations 120(1994)105

**Mass transport resistances**
Mass transfer test and maximum rate determination during liquid-phase hydrogenations 120(1994)105

**Matrix**
Metal-resistant FCC catalysts: effect of matrix 115(1994)59

**Mechanism**
Catalytic alkylation of phenol with methanol on a microporous xerogel and a macroporous aerogel of high surface area aluminas 101(1993)339

Investigations on the loss mechanisms and the loss kinetics of molybdenum trioxide on alumina and silica 105(1993)185

Kinetic study of dimethylsulfide and methanethiol synthesis 109(1994)45

Methanol synthesis over copper and ZnO promoted copper surfaces 115(1994)15

Beneficial influences of the reactive atmosphere on selective oxidation catalysts 116(1994)49

Catalytic synthesis of thiolane from tetrahydrofuran and $H_2S$ 116(1994)95

Investigations of the mechanisms and kinetics leading to a loss of molybdenum from bismuth molybdate catalysts 117(1994)163

**Mechanism development**
Liquid-phase oxidation of cyclohexane using CoAPO-5 as the catalyst 105(1993)289

**Mechanism of deactivation**
Deactivation of industrial hydrotreating catalyst for middle petroleum fractions processing 107(1994)133

**Membrane reactor**
Selective hydrogenation of phenol to cyclohexanone using palladium-based membranes as catalysts 107(1994)83

Formaldehyde production by catalytic dehydrogenation of methanol in inorganic membrane reactors 109(1994)63

Promotion of hydrogen permeation on metal-dispersed alumina membranes and its application to a membrane reactor for methane steam reforming 110(1994)239

Methane steam reforming in asymmetric Pd- and Pd–Ag/porous SS membrane reactors 119(1994)305

**Membranes**
Preparation of a dense ZSM-5 zeolite film on the outer surface of an alumina ceramic filter 111(1994)143

**Mercury porosimetry**
Alumina supported molybdenum and tungsten oxide catalysts. Surface area and pore size distribution from nitrogen adsorption and mercury penetration 119(1994)205

**Metal area**
Identification of nickel species and their interaction with the support in Ni–silica catalyst precursor 103(1993)183

**Metal dispersed mesoporous membrane**
Promotion of hydrogen permeation on metal-dispersed alumina membranes and its application to a membrane reactor for methane steam reforming 110(1994)239

**Metal-doped $Cs/SiO_2$**
Silica supported metal-doped cesium ion catalyst for methacrylic acid synthesis via condensation of propionic acid with formaldehyde 102(1993)215

**Metal leaching**
Studies on the rejuvenation of spent catalysts: effectiveness and selectivity in the removal of foulant metals from spent hydroprocessing catalysts in coked and decoked forms 105(1993)195

**Metallic copper**
Behaviour of copper–thorium phosphate $CuTh_2(PO_4)_3$ in butan-2-ol conversion 114(1994)247

**Metal loading sequence**
Effect of metal loading sequence on the activity of Sn–Ni/C for methanol carbonylation 117(1994)17

**Metal–oxygen clusters**
The oxidative dehydrogenation of ethane on silica-supported metal–oxygen cluster compounds 109(1994)117

**Metal poisoning**
Hydrothermal stability and vanadium tolerance of ZSM-20 and Y zeolites 119(1994)139

**Metal resistance**
Catalytic cracking of heavy vacuum gas oil over aluminum diacetate containing catalyst 110(1994)87

**Metals deactivation**
Application of the energy gradient selectivity concept to fluid catalytic cracking catalysts 115(1994)103

**Metal sulfides**
Influence of zeolite acidity on thiophene hydrodesulfurization activity 119(1994)253

**Metal–support interaction**
Influence of the preparation method and the nature of the support on the stability of nickel catalysts 109(1994)169

**Metal–support interactions (MSI)**
Influence of metal–support effects on acetophenone hydrogenation over platinum 113(1994)59

**Metal surface area**
Analysis of the surface acid–base characteristics of Pt/C catalysts for phosphoric acid fuel cells 114(1994)261

**Methacrylic acid**
Silica supported metal-doped cesium ion catalyst for methacrylic acid synthesis via condensation of propionic acid with formaldehyde 102(1993)215

Formation of methacrylic acid by oxidative dehydrogenation of isobutyric acid: Promoters of iron phosphate catalysts 109(1994)135

Oxidative dehydrogenation of isobutyric acid on $H_4PVMo_{11}O_{40}$, $Na_xH_{4-x}PVMo_{11}O_{40}$ and $Cu_yH_{4-2y}PVMo_{11}O_{40}$ heteropolyacid catalysts supported on silica 111(1994)109

Enhancement of catalytic activity of $Cs_{2.5}Ni_{0.08}H_{0.34}PMo_{12}O_{40}$ by $V^{5+}$-substitution for oxidation of isobutane into methacrylic acid 118(1994)1

**Methacrylonitrile**
Oxidative dehydrogenation of isobutyronitrile to methacrylonitrile over iron phosphate catalyst 116(1994)165

**Methane**
A comparative study of oxidative methylation of toluene with methane to styrene and ethylbenzene over bi-alkali-promoted MgO, CaO, SrO or BaO 102(1993)233

Critical performance evaluation of catalysts and mechanistic implications for oxidative coupling of methane 104(1993)11

Stabilization of $Sm_2O_3$ based catalysts in oxidative methylation of toluene 105(1993)135

Catalytic combustion of methane over magnesium oxide 114(1994)231

Investigation of the catalytic performance of MgO/$BaCO_3$ catalyst for the oxidative coupling of methane 116(1994)81

Activity-enhanced copper–zinc based catalysts for the hydrogenolysis of esters 116(1994)237

**Methane activation**

Direct conversion of methane to higher alkanes by platinum loaded zeolites 104(1993)215

**Methane combustion**

Preparation and characterization of hexaaluminate-based materials for catalytic combustion 104(1993)101

Combustion of methane over $La_{0.66}Sr_{0.34}Ni_{0.3}Co_{0.7}O_3$ and $La_{0.4}Sr_{0.6}Fe_{0.4}Co_{0.6}O_3$ prepared by freeze-drying 109(1994)181

Catalytic combustion of methane over palladium supported on alumina catalysts: Evidence for reconstruction of particles 109(1994)279

**Methane conversion**

Oxidative coupling of methane over alkali sulphates in the presence and absence of tetrachloromethane 103(1993)55

Influence of surface composition of perovskite-type complex oxides on methane oxidative coupling 104(1993)61

Roles of oxygen and carbon dioxide on methane oxidative coupling over CaO and $Sm_2O_3$ catalysts 115(1994)243

Conversion of methane to higher alkanes by ruthenium loaded $Zr_3(PO_4)_4$ 118(1994)187

**Methane coupling**

Kinetics of the water–gas shift reaction over several alkane activation and water–gas shift catalysts 101(1993)317

Lead oxide–magnesia aerogel catalysts for the oxidative coupling of methane with nitrous oxide 108(1994)41

In situ X-ray diffraction study of lanthanum oxide catalysts during the oxidative coupling of methane 108(1994)261

**Methane homologation**

Direct conversion of methane to higher alkanes by platinum loaded zeolites 104(1993)215

**Methane oxidation**

Kinetic model for the reaction of sulphur dioxide catalytic reduction to hydrogen sulphide 101(1993)25

Sulfur poisoning, recovery and related phenomena over supported palladium, rhodium and iridium catalysts for methane oxidation 101(1993)51

Oxygen desorption and oxidation–reduction kinetics with methane and carbon monoxide over perovskite type metal oxide catalysts 104(1993)175

High-temperature superconductors in catalysis 109(1994)1

**Methane oxidative coupling**

Oxidative coupling of methane on perovskite oxides, $(Ba,Ca)(Co,Fe)O_{3-\delta}$ 101(1993)63

Structure and reactivity of alkali-doped calcium oxide catalysts for oxidative coupling of methane 101(1993)167

Surface composition and selectivity of sodium-compound-impregnated calcium oxide catalysts for the oxidative coupling of methane 107(1994)115

The selective oxidation of methane to $C_2$-hydrocarbons over lithium-doped $TiO_2$ catalysts 111(1994)41

Structure and reactivity of undoped and sodium-doped PbO/$\alpha$-$Al_2O_3$ catalysts for oxidative coupling of methane 111(1994)79

Solid-state basicity as a guide to formulation of improved catalysts for oxidative coupling of methane. I. Performance evaluation 114(1994)69

Oxidative coupling of methane over alkali halide-promoted perovskite oxide catalysts 115(1994)269

On the effect of introducing $Zn^{2+}$ cations onto the surface of a NaOH–CaO catalyst on its selectivity in the oxidative coupling of methane 118(1994)103

**Methane oxidative dimerization**
Oxidative dimerization of methane in molten $Li_2CO_3$–$Na_2CO_3$ eutectic supported by lithium aluminate at 700–850°C 108(1994)157

**Methane partial oxidation**
Partial oxidation of methane to synthesis gas using La–M–O catalysts 110(1994)99

**Methane reforming**
Catalytic reaction of methane with carbon dioxide over supported palladium 108(1994)205

**Methane steam reforming**
Promotion of hydrogen permeation on metal-dispersed alumina membranes and its application to a membrane reactor for methane steam reforming 110(1994)239

Methane steam reforming in asymmetric Pd- and Pd–Ag/porous SS membrane reactors 119(1994)305

**Methanethiol**
Kinetic study of dimethylsulfide and methanethiol synthesis 109(1994)45

**Methanol**
Intermediate species on zirconia supported methanol aerogel catalysts. I. State of the catalyst surface before and after the adsorption of hydrogen 101(1993)297

Catalytic alkylation of phenol with methanol on a microporous xerogel and a macroporous aerogel of high surface area aluminas 101(1993)339

Slurry phase synthesis of methanol with a potassium methoxide/copper chromite catalytic system 102(1993)13

Alkali compounds and copper chromite as low-temperature slurry phase methanol catalysts 103(1993)105

Conversion of methanol and isobutanol to MTBE 103(1993)223

Development of an active and stable ceria-supported palladium catalyst for hydrogenation of carbon dioxide to methanol 106(1993)1

Effects of zinc addition to silica supported copper catalysts for the hydrogenolysis of esters 108(1994)63

Formaldehyde production by catalytic dehydrogenation of methanol in inorganic membrane reactors 109(1994)63

Vapour-phase reaction of methanol with acetone over alkali containing zeolites 118(1994)33

Polyacrylonitrile coated silica as support for copper catalyst in methanol dehydrogenation to methyl formate 118(1994)163

Zeolite catalysed intramolecular cyclization of 5-amino-1-pentanol to piperidine bases 119(1994)13

Intrinsic reactivities of manganese oxides for carbon monoxide hydrogenation catalysis 119(1994)97

**Methanol carbonylation**
Effect of metal loading sequence on the activity of Sn–Ni/C for methanol carbonylation 117(1994)17

**Methanol conversion**
Methanol conversion to hydrocarbons over zeolite H-ZSM-5: Comments on the formation of $C_4$ hydrocarbons at low reaction temperatures 106(1993)115

Synthesis and characterization of silicon-rich SAPO-44 molecular sieves 110(1994)1

Improvement of catalytic properties of SAPO-31 molecular sieves by using an activated form of $SiO_2$ 110(1994)27

**Methanol decomposition**
Hydrocarbons from synthesis gas: Selectivity changes induced by the zeolite matrix on the metallic function in Rh/Y catalysts 107(1994)59

**Methanol dehydrogenation**
High-temperature superconductors in catalysis 109(1994)1

**Methanol oxidation**
Dispersion and activity of vanadia supported on phosphate modified silica 101(1993)221

Active electronic states of silver catalysts for methanol selective oxidation 120(1994)7

TAP reactor study of the partial oxidation of methanol to formaldehyde using an industrial Fe–Cr–Mo oxide catalyst 120(1994)85

**Methanol synthesis**
Methanol synthesis by amorphous copper-based catalysts prepared by spark-erosion 101(1993)151

Hydrogenation of $CO_2$ over gold supported on metal oxides 102(1993)125

Intermediate species on zirconia supported methanol aerogel catalysts. II. Adsorption of carbon monoxide on pure zirconia and on zirconia containing zinc oxide 105(1993)223

Preparation of stabilized copper–rare earth oxide catalysts for the synthesis of methanol from syngas 106(1993)201

Hydrogenation of carbon dioxide over silver promoted copper/zirconia catalysts 106(1993)275

Nature of formate in methanol synthesis on Cu/ZnO/$Al_2O_3$ 112(1994)37

Intermediate species on zirconia supported methanol aerogel catalysts III. Adsorption of carbon monoxide on copper containing solids 112(1994)57

Intermediate species on zirconia supported methanol aerogel catalysts. IV. Adsorption of carbon dioxide 112(1994)219

Methanol synthesis over copper and ZnO promoted copper surfaces 115(1994)15

**1-Methoxy-2-propanol**
Deactivation of a multimetal supported catalyst for aniline *N*-alkylation with alcohol 118(1994)139

**2-Methyl-6-ethyl-aniline**
Deactivation of a multimetal supported catalyst for aniline *N*-alkylation with alcohol 118(1994)139

**Methyl acetate**
Effects of zinc addition to silica supported copper catalysts for the hydrogenolysis of esters 108(1994)63

Activity-enhanced copper–zinc based catalysts for the hydrogenolysis of esters 116(1994)237

**Methyl acetate hydrogenolysis**
Structure–activity relation and ethane formation in the hydrogenolysis of methyl acetate on silica-supported copper catalysts 111(1994)63

**Methylalkylamines synthesis**
Hydrogenation and methylation of dodecyl nitrile in the presence of copper catalysts supported on alumina. I: characterization of the catalysts 102(1993)137

Hydrogenation and methylation of dodecylnitrile in the presence of supported copper–chromium catalysts. II: catalytic properties 102(1993)151

**Methylation**
Stabilization of $Sm_2O_3$ based catalysts in oxidative methylation of toluene 105(1993)135

Methylation of n-butylamine over solid-acid catalysts 109(1994)225

**Methyl(ethyl) piperidines**
Zeolite catalysed intramolecular cyclization of 5-amino-1-pentanol to piperidine bases 119(1994)13

**Methyl formate**
Slurry phase synthesis of methanol with a potassium methoxide/copper chromite catalytic system 102(1993)13

Alkali compounds and copper chromite as low-temperature slurry phase methanol catalysts 103(1993)105

Polyacrylonitrile coated silica as support for copper catalyst in methanol dehydrogenation to methyl formate 118(1994)163

**Methylindane**
Aromatic compounds synthesis from cyclopentadiene 111(1994)1

**Methyl isobutyl ketone**
Highly selective one-step formation of methyl isobutyl ketone from acetone with a magnesia supported nickel catalyst 101(1993)1

**Methyl isobutyl ketone production**
Application of a new hydrogenated aluminophosphate oxynitride (ALPON) as a catalytic support for the one-step synthesis of methyl isobutyl ketone from acetone 114(1994)1

**Methyl *sec*-butyl ether**
The role of by-products formation in methyl *tert*-butyl ether synthesis catalyzed by a macroporous acidic resin 117(1994)99

**Methyl *tertiary*-butyl ether**
Catalytic amination of methyl *tertiary*-butyl ether to *tertiary*-butylamine over pentasil molecular sieves 106(1993)213

**MFI**
Factors controlling iso-/n- and *para*-selectivity in the alkylation of toluene with isopropanol on molecular sieves 108(1994)187

**MFI structure**
n-Hexane aromatization on synthetic gallosilicates with MFI structure 103(1993)205

**MFI zeolite**
Selective ethylation of ethylbenzene in the presence of other aromatics 115(1994)257

**Mg/Al atomic ratio**
Alkylation of phenol with methanol over magnesium–aluminium calcined hydrotalcites 119(1994)241

**$MgO/BaCO_3$**
Investigation of the catalytic performance of $MgO/BaCO_3$ catalyst for the oxidative coupling of methane 116(1994)81

**Microcalorimetry**
Characterization of catalyst acidity by microcalorimetry and temperature-programmed desorption 102(1993)253

Heats of adsorption for ammonia and pyridine in H-ZSM-5: evidence for identical Brønsted-acid sites 110(1994)67

**Microreactivity test**
Microactivity test (MAT) study of the ZSM-5 addition effects on FCC product yields and gasoline composition 105(1993)107

**Milling**
Vapour-phase reaction of methanol with acetone over alkali containing zeolites 118(1994)33

**Mixed oxides**
Control of porosity and surface area in $TiO_2$–$Al_2O_3$ mixed oxides catalytic supports. A statistical approach 118(1994)73

**$Mo/Fe/SiO_2$**
One-step hydroxylation of benzene to phenol I. Gas-phase nitric acid oxidation over $Fe/Mo/SiO_2$ 117(1994)1

**Modified nickel exchanged zeolite**
Ethylene dimerization over modified nickel exchanged Y-zeolite 119(1994)327

**Molecular mechanics**
Selective reduction of *para*-substituted diphenyldisulfides catalysed by a sulfided NiMo supported on alumina catalyst 115(1994)303

**Molecular sieves**
Factors controlling iso-/n- and *para*-selectivity in the alkylation of toluene with isopropanol on molecular sieves 108(1994)187

Nature of the active sites and catalytic activity of SAPO-5 synthesized in the presence of nickel cations 119(1994)195

**Molecular sieve structure**
Ethylation of ethylbenzene over some aluminosilicates with molecular sieve structure 103(1993)173

**Molten carbonate**
Oxidative dimerization of methane in molten $Li_2CO_3$–$Na_2CO_3$ eutectic supported by lithium aluminate at 700–850°C 108(1994)157

**Molybdena/carbon**
Preparation of molybdenum-based catalysts by new slurry impregnation method: active carbon supported molybdenum sulfide hydrodesulfurization catalyst 115(1994)285

**Molybdena–silica**
Isomerisation of $\alpha$-acetylenic alcohols into $\alpha,\beta$-ethylenic carbonyl derivatives in vapor phase 114(1994)55

**Molybdenum**
Application of *acoustophoresis* in a study on solute–support interactions for the preparation of supported cobalt–molybdenum catalysts 102(1993)35

n-Heptane hydrocracking over a sulfided NiMo/Y zeolite catalyst: reversible deactivation of the zeolite by sulfur-containing molecules 103(1993)163

$MoS_2$ structures in high-activity hydrotreating catalysts. I. Semi-quantitative method for evaluation of transmission electron microscopy results. Correlations between hydrodesulfurization and hydrodenitrogenation activities and $MoS_2$ dispersion 105(1993)53

**Molybdenum/alumina**
Hydrodemetallisation of nickel-5,10,15,20-tetraphenylporphyrin over sulphided $Mo/Al_2O_3$: Initial catalyst deactivation 108(1994)171

**Molybdenum oxide**
Structure and reactivity of titania-supported oxides. V. Influence of phosphorus and potassium impurities on the properties of molybdenum oxide supported on titania 105(1993)281

Alumina supported molybdenum and tungsten oxide catalysts. Surface area and pore size distribution from nitrogen adsorption and mercury penetration 119(1994)205

**Molybdenum sulfide**
Surface species on the oxidized $K_2CO_3/MoS_2$ and their effects on catalytic carbon monoxide hydrogenation 104(1993)199

**Molybdenum sulphide**
Role of alkali promoters in $K/MoS_2$ catalysts for CO–$H_2$ reactions 110(1994)11

Characterization of supported molybdenum sulfide catalyst ex ammonium tetrathiomolybdate 112(1994)161

**Molybdenum trioxide/alumina**
Investigations on the loss mechanisms and the loss kinetics of molybdenum trioxide on alumina and silica 105(1993)185

**Molybdenum trioxide/silica**
Investigations on the loss mechanisms and the loss kinetics of molybdenum trioxide on alumina and silica 105(1993)185

**Montmorillonite**
Ethylene polymerization over transition metal-exchanged montmorillonite catalysts 101(1993)129

Preparation and catalytic activity of titanium pillared montmorillonite 103(1993)23

Dehydration of glucose to organic acids in microporous pillared clay catalysts 109(1994)147

$C_4$ alkene separation process using solid acid catalysis 109(1994)247

**Mordenite**
Characterization of catalyst acidity by microcalorimetry and temperature-programmed desorption 102(1993)253

Hydroconversion of *meta*-xylene on catalysts containing Pt, Re and PtRe on H-mordenite 105(1993)127

Conversion of heavy n-alkanes into light isomers over H-mordenite, platinum/H-mordenite, platinum/alumina and composite catalysts 106(1993)27

Transalkylation of di-isopropylbenzenes over large pore zeolites 106(1993)143

Factors controlling iso-/n- and *para*-selectivity in the alkylation of toluene with isopropanol on molecular sieves 108(1994)187

**Morphological change**
Morphology changes and deactivation of alkali-promoted $Ni/SiO_2$ catalysts during carbon monoxide hydrogenation 115(1994)135

**Morphology of catalyst**
Effect of cobalt on the morphology and activity of fused iron catalyst for ammonia synthesis 112(1994)149

**MOVS**
Alcohol synthesis from syngas. I. Performance of alkali-promoted Ni–Mo(MOVS) catalysts 104(1993)77

**MSI catalysts**
Influence of metal–support effects on acetophenone hydrogenation over platinum 113(1994)59

**MTBE**
Conversion of methanol and isobutanol to MTBE 103(1993)223

Effect of dealumination on the catalytic activity of acid zeolites for the gas phase synthesis of MTBE 119(1994)69

**MTBE synthesis**
Kinetic study of isobutene dimerization catalyzed by a macroporous sulphonic acid resin 106(1993)155

The role of by-products formation in methyl *tert*-butyl ether synthesis catalyzed by a macroporous acidic resin 117(1994)99

# N

**N-alkylation**
Deactivation of a multimetal supported catalyst for aniline *N*-alkylation with alcohol 118(1994)139

**Nanocomposites**
Porous nanocomposites as catalyst supports Part I. 'Second phase stabilization', thermal stability and anatase-to-rutile transformation in titania–alumina nanocomposites 119(1994)163

**Naphthenes**
Reactions of aromatics and naphthenes with alkanes over a $Pt/ZrO_2/SO_4$ catalyst 114(1994)183

**Naphthol (1-)**
Catalytic properties of a new large-pore vanadium silicate with ZSM-12 structure 114(1994)9

**NaY zeolites**
Mechanism of the decomposition of Pt–Co bimetallic particles in NaY zeolites 120(1994)1

**N-butane hydrogenolysis**
Benzene hydrogenation and hydrogenolysis of n-butane on $Rh/H(x)NaY$ zeolite catalysts 103(1993)5

**Neohexane**
The use of 2,2-dimethylbutane (neohexane) as a probe molecule of metal catalysts 114(1994)13

**Neural network**
Estimation of catalytic performance by neural network — product distribution in oxidative dehydrogenation of ethylbenzene 114(1994)177

**N-heptane**
n-Heptane hydrocracking over a sulfided NiMo/Y zeolite catalyst: reversible deactivation of the zeolite by sulfur-containing molecules 103(1993)163

**Ni/H-ZSM-5**
Nickel modified H-ZSM-5 catalysts 114(1994)299

**Nickel**
Reducibility of metals on fluid cracking catalyst 103(1993)87

n-Heptane hydrocracking over a sulfided NiMo/Y zeolite catalyst: reversible deactivation of the zeolite by sulfur-containing molecules 103(1993)163

A plasma-produced dispersed and disposable supported nickel catalyst for hydroconversion of heavy oils. I. Preparation and characterization 104(1993)137

A plasma-produced dispersed and disposable supported nickel catalyst for hydroconversion of heavy oils. II. Evaluation of the catalytic activity in the hydroconversion of a deasphalted vacuum residue 104(1993)149

Influence of the preparation method and the nature of the support on the stability of nickel catalysts 109(1994)169

Effects of transition metal addition to $CoMo/\gamma\text{-}Al_2O_3$ catalyst on the hydrotreating reactions of atmospheric residual oil 109(1994)195

Disproportionation of n-propylamine on supported nickel catalysts 109(1994)265

Activated carbons as supports for nickel catalysts 112(1994)75

The use of 2,2-dimethylbutane (neohexane) as a probe molecule of metal catalysts 114(1994)13

Metal-resistant FCC catalysts: effect of matrix 115(1994)59

Vanadium–nickel interaction in REY zeolite 117(1994)109

Ethylene dimerization over modified nickel exchanged Y-zeolite 119(1994)327

**Nickel/alumina**
Mechanisms of methanation of carbon dioxide and carbon monoxide over nickel/alumina catalysts 104(1993)87

**Nickel/magnesia**
Highly selective one-step formation of methyl isobutyl ketone from acetone with a magnesia supported nickel catalyst 101(1993)1

**Nickel/SAPO-5**
Nature of the active sites and catalytic activity of SAPO-5 synthesized in the presence of nickel cations 119(1994)195

**Nickel/silica**
Extended X-ray absorption fine structure study of sulphur poisoned $Ni/SiO_2$ catalysts 110(1994)197

Morphology changes and deactivation of alkali-promoted $Ni/SiO_2$ catalysts during carbon monoxide hydrogenation 115(1994)135

**Nickel boride**
Hydrogenation of *para*-chloronitrobenzene over nickel borides 115(1994)45

**Nickel catalysts**
Measuring the acid–base properties of supported nickel catalysts using temperature-programmed desorption of ammonia 105(1993)251

**Nickel–cerium oxides**
Hydrogenation catalysts based on nickel and rare earth oxides. Part II: XRD, electron microscopy and XPS studies of the cerium–nickel–oxygen–hydrogen system 101(1993)73

**Nickel deposition**
Hydrodemetallisation of nickel-5,10,15,20-tetraphenylporphyrin over sulphided $Mo/Al_2O_3$: Initial catalyst deactivation 108(1994)171

**Nickel exchanged montmorillonite**
Ethylene polymerization over transition metal-exchanged montmorillonite catalysts 101(1993)129

**Nickel molybdate**
Composition and catalytic properties of products from the reduction of $NiMoO_4$ 105(1993)205

**Nickel–molybdenum**
$MoS_2$ structures in high-activity hydrotreating catalysts. I. Semi-quantitative method for evaluation of transmission electron microscopy results. Correlations between hydrodesulfurization and hydrodenitrogenation activities and $MoS_2$ dispersion 105(1993)53

**Nickel–molybdenum/alumina**
$MoS_2$ structures in high activity hydrotreating catalysts. II. Evolution of the active phase during the catalyst life cycle deactivation model 105(1993)69

**Nickel–molybdenum/magnesia**
Magnesia supported Ni–Mo sulfide hydrodesulfurization and hydrodenitrogenation catalysts prepared by non-aqueous impregnation 118(1994)111

**Nickel nitrate**
Thermal and catalytic behaviour of grafted polytetrafluoroethylene (PTFE) pretreated with some transition metal nitrates 120(1994)45

**Nickel oxide**
Reduction of model steam reforming catalysts: NiO/$\alpha$-$Al_2O_3$ 110(1994)217

**Nickel oxide/alumina**
On the nature of oxidic nickel phases in NiO/$\gamma$-$Al_2O_3$ catalysts 106(1993)73

**Nickel–ruthenium sulphides**
Kinetic approach in the comparison of supported and unsupported ternary nickel–ruthenium–sulphur compounds in hydrotreating reactions 103(1993)79

**Nickel–sepiolite catalysts**
Hydrogenation of styrene over nickel/sepiolite catalysts 113(1994)75

**Nickel–silica catalyst**
Identification of nickel species and their interaction with the support in Ni–silica catalyst precursor 103(1993)183

**Ni–Mo(MOVS)**
Alcohol synthesis from syngas. I. Performance of alkali-promoted Ni–Mo(MOVS) catalysts 104(1993)77

**Niobium oxide**
Catalytic performance and active sites determination of niobium oxide promoted vanadia/titania catalysts for selective catalytic reduction of nitric oxide 105(1993)41

**Niobium oxynitride**
Catalytic activity of niobium oxynitride and carbide I. Preparation, characterization and thermal stability of finely divided niobium oxynitrides 119(1994)223

**$NiO–Fe_2O_3$ catalyst**
Structural analysis of $NiO–Fe_2O_3$ catalyst for vapor-phase oxidation of benzoic acid to phenol 115(1994)1

**$NiPS_3$**
Catalytic oxidation of sulfide ions over $NiPS_3$ 107(1994)189

Catalytic activity of $NiPS_3$ in the reaction of thiophene hydrodesulfurization 108(1994)97

**Nitric acid**
One-step hydroxylation of benzene to phenol I. Gas-phase nitric acid oxidation over $Fe/Mo/SiO_2$ 117(1994)1

**Nitric oxide-ammonia rectangular pulse technique**
Catalytic performance and active sites determination of niobium oxide promoted vanadia/titania catalysts for selective catalytic reduction of nitric oxide 105(1993)41

**Nitric oxide decomposition**
High-temperature superconductors in catalysis 109(1994)1

**Nitric oxide selective reduction**
Vanadia supported on titania aerogels Morphological properties and catalytic behaviour in the selective reduction of nitric oxide by ammonia 120(1994)187

**Nitridation**
Influence of nitrogen content of a new aluminophosphate oxynitride catalyst: AlPON in Knoevenagel condensation 114(1994)195

**Nitrides**
Deamination of 2-octylamine with metal nitride and oxide catalysts 111(1994)11

**Nitrile hydrogenation**
Hydrogenation and methylation of dodecylnitrile in the presence of supported copper–chromium catalysts II: catalytic properties 102(1993)151

**Nitrobenzene**
One-step hydroxylation of benzene to phenol I. Gas-phase nitric acid oxidation over $Fe/Mo/SiO_2$ 117(1994)1

**Nitrobenzene hydrogenation**
Nitrobenzene hydrogenation over aluminum borate-supported platinum catalyst 119(1994)185

**Nitrobenzene reduction**
Alkali hydroxides as promoters of $Mn_3O_4$ in the selective reduction of nitrobenzene; an X-ray photoelectron spectroscopy, ultraviolet photoelectron spectroscopy and ion scattering spectroscopy study 115(1994)69

Role of alkali promoters on $Mn_3O_4$ in the selective reduction of nitrobenzene 115(1994)85

**Nitrogen content**
Influence of nitrogen content of a new aluminophosphate oxynitride catalyst: AlPON in Knoevenagel condensation 114(1994)195

**Nitrogen monoxide reduction**
High-temperature catalytic reduction of nitrogen monoxide by carbon monoxide and hydrogen over $La_{1-x}Sr_xMO_3$ perovskites (M = Fe, Co) during reducing and oxidising conditions 116(1994)109

**Nitrophenol isomers**
Influence of pH on the degradation kinetics of nitrophenol isomers in a heterogeneous photocatalytic system 101(1993)7

**Nitrosobenzene**
Role of alkali promoters on $Mn_3O_4$ in the selective reduction of nitrobenzene 115(1994)85

Oxidation of aniline over TS-1, the titanium substituted silicalite-1 118(1994)173

**Nitrous oxide**
Hydrogen cyanide formation in selective catalytic reduction of nitrogen oxides over Cu/ZSM-5 107(1994)125

Lead oxide–magnesia aerogel catalysts for the oxidative coupling of methane with nitrous oxide 108(1994)41

Activity-enhanced copper–zinc based catalysts for the hydrogenolysis of esters 116(1994)237

**Ni-ZSM-5 catalysts**
Dimerization of 1-butene over nickel zeolitic catalysts: A search for linear dimers 110(1994)39

**NMR**
Thermal and hydrothermal stabilities of zeolite EU-1 119(1994)33

**NMR imaging**
Coke profiles in deactivated alumina pellets studied by NMR imaging 115(1994)147

**Nonstoichiometry**
Synthesis and reactivity of copper-containing non stoichiometric spinel-type catalysts 103(1993)69

**NO selective reduction**
Effect of water vapour and ammonia on the solid–solid interaction of Cu oxide with Y-type zeolite: Preparation of catalyst for reduction of nitric oxide with ammonia at low temperature. 103(1993)269

**$NO_x$**
Hydrogen cyanide formation in selective catalytic reduction of nitrogen oxides over Cu/ZSM-5 107(1994)125

**$NO_x$ abatement**
Effect of water vapour and ammonia on the solid–solid interaction of Cu oxide with Y-type zeolite: Preparation of catalyst for reduction of nitric oxide with ammonia at low temperature. 103(1993)269

**Nuclear magnetic resonance**
Characterization and catalytic performance of the platinum KL zeolite treated with chlorotrifluoromethane 106(1993)9

Nuclear magnetic resonance studies of the synthesis of zeolite ZSM-5 by the "fluoride method" 111(1994)29

Catalytic synthesis of thiolane from tetrahydrofuran and $H_2S$ 116(1994)95

**Nuclear magnetic resonance ($^{29}Si$)**
Influence of the nature of silicon and titanium alkoxides on the incorporation of titanium in TS-1 110(1994)137

# O

**Octane enhancement**
Cracking of an industrial feedstock over combinations of H-ZSM-5 and HY: The influence of H-ZSM-5 pretreatment 120(1994)55

**Octenes**
Dimerization of 1-butene over nickel zeolitic catalysts: A search for linear dimers 110(1994)39

**Octylamine conversion**
Deamination of 2-octylamine with metal nitride and oxide catalysts 111(1994)11

*ortho–para* conversion
High-temperature superconductors in catalysis 109(1994)1

**Oxidation**
Synthesis, characterization and catalytic properties of vanadium silicates with a ZSM-48 structure 102(1993)201

Selective oxidation of glycerol on a platinum–bismuth catalyst by using a fixed bed reactor 105(1993)147

Oxidative dehydrogenation of ethylbenzene to styrene over carbonaceous catalysts 112(1994)117

Structural analysis of $NiO–Fe_2O_3$ catalyst for vapor-phase oxidation of benzoic acid to phenol 115(1994)1

Beneficial influences of the reactive atmosphere on selective oxidation catalysts 116(1994)49

Enhancement of catalytic activity of $Cs_{2.5}Ni_{0.08}H_{0.34}PMo_{12}O_{40}$ by $V^{5+}$-substitution for oxidation of isobutane into methacrylic acid 118(1994)1

Oxidative dehydrogenation of aqueous ethanol on a carbon supported platinum catalyst 120(1994)127

**Oxidation (partial)**
Partial oxidation of natural gas to synthesis gas over ruthenium perovskite oxides 118(1994)217

**Oxidation–reduction kinetics**
Oxygen desorption and oxidation–reduction kinetics with methane and carbon monoxide over perovskite type metal oxide catalysts 104(1993)175

**Oxidative coupling**
Oxidative coupling of methane over alkali sulphates in the presence and absence of tetrachloromethane 103(1993)55

Critical performance evaluation of catalysts and mechanistic implications for oxidative coupling of methane 104(1993)11

Investigation of the catalytic performance of $MgO/BaCO_3$ catalyst for the oxidative coupling of methane 116(1994)81

**Oxidative coupling of methane**
Oxidative coupling of methane over alkali halide-promoted perovskite oxide catalysts 115(1994)269

**Oxidative coupling of methane solid solutions**
Identification of solid solutions and other phases in strontium and barium catalysts containing oxides of magnesium, aluminum or silicon as additive. II. catalyst characterisation 114(1994)87

**Oxidative dehydrogenation**
Support effects on magnesium-vanadium mixed oxides in the oxidative dehydrogenation of propane 114(1994)201

Oxidative dehydrogenation of ethane over lithium–bismuth–calcium oxide catalysts 114(1994)211

**Oxidative dehydrogenation of alkanes**
Preparation of V–Mg–O catalysts: Nature of active species precursors 104(1993)161

**Oxidative methylation**
A comparative study of oxidative methylation of toluene with methane to styrene and ethylbenzene over bi-alkali-promoted MgO, CaO, SrO or BaO 102(1993)233

**Oxidative transformations**
Acid–base properties and direction of oxidative transformations of methane on magnesium–phosphorus catalysts 101(1993)15

**Oxides**
Critical performance evaluation of catalysts and mechanistic implications for oxidative coupling of methane 104(1993)11

Deamination of 2-octylamine with metal nitride and oxide catalysts 111(1994)11

**Oxidic phases**
On the nature of oxidic nickel phases in $NiO/\gamma\text{-}Al_2O_3$ catalysts 106(1993)73

**Oxydehydrogenation**
Kinetics of the water–gas shift reaction over several alkane activation and water–gas shift catalysts 101(1993)317

Oxidative dehydrogenation of aqueous ethanol on a carbon supported platinum catalyst 120(1994)127

**Oxygen**
High-temperature catalytic reduction of nitrogen monoxide by carbon monoxide and hydrogen over $La_{1-x}Sr_xMO_3$ perovskites (M = Fe, Co) during reducing and oxidising conditions 116(1994)109

**Oxygen/carbon dioxide**
Gas-phase oxygen oxidations of alkylaromatics over chemical vapor deposited Fe/Mo/borosilicate molecular sieve, Fe/Mo/DBH. IV. Effect of supporting matrix on *p*-xylene oxidation 118(1994)87

**Oxygenate**
Reactivity of isoamylenes with ethanol 101(1993)283

**Oxygenated compounds**
Effect of transition metals on oxygenates formation from syngas over $Co/SiO_2$ 105(1993)159

**Oxygenates**
Carbon monoxide adsorption and hydrogenation on $Cu–Rh/SiO_2$ catalysts 114(1994)113

**Oxygen chemisorption**
Influence of zeolite acidity on thiophene hydrodesulfurization activity 119(1994)253

**Oxygen desorption**
Oxygen desorption and oxidation–reduction kinetics with methane and carbon monoxide over perovskite type metal oxide catalysts 104(1993)175

**Oxygen ion-conductivity**
Critical performance evaluation of catalysts and mechanistic implications for oxidative coupling of methane 104(1993)11

**Oxygen mobility**
Catalytic carbon monoxide oxidation over strontium, cerium and copper-substituted lanthanum manganates and cobaltates 107(1994)201

**Oxygen oxidation**
Gas-phase oxygen oxidations of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve. II. The role of carbon dioxide as a co-oxidant 106(1993)259

**Oxygen permeation**
Oxygen permeation flux through $La_{1-y}Sr_yFeO_3$ limited by carbon monoxide oxidation rate 119(1994)279

**Oxygen titration**
Reducibility of metals on fluid cracking catalyst 103(1993)87

**Oxyhydroclorination**
TPR study of $Al_2O_3$- and $SiO_2$-supported $CuCl_2$ catalysts 117(1994)139

**o-xylene oxidation**
Promoted vanadia/titania catalysts for *o*-xylene oxidation: influence of acid–base and redox properties 108(1994)241

# P

**Palladium**
Conversion under hydrogen of dichlorodifluoromethane over bimetallic palladium catalysts 101(1993)41

Dealkylation of *N,N*-dialkylanilines over transition metal catalysts in the presence of ammonia, water and hydrogen 103(1993)43

Selective hydrogenation of phenol to cyclohexanone using palladium-based membranes as catalysts 107(1994)83

Catalytic reaction of methane with carbon dioxide over supported palladium 108(1994)205

Selective hydrodechlorination of CFC-113 on Bi- and Tl-modified palladium catalysts 113(1994)29

The use of 2,2-dimethylbutane (neohexane) as a probe molecule of metal catalysts 114(1994)13

**Palladium/alumina**
Catalytic combustion of methane over palladium supported on alumina catalysts: Evidence for reconstruction of particles 109(1994)279

Hydrogenation of phenol to cyclohexanone over palladium and alkali-doped palladium catalysts 110(1994)49

Sulfate accumulation in commercial Pd–Pt/$Al_2O_3$ and Pt/$Al_2O_3$ catalysts used for removal of hydrogen from carbon dioxide 119(1994)23

**Palladium/magnesia**
Hydrogenation of phenol to cyclohexanone over palladium and alkali-doped palladium catalysts 110(1994)49

**Palladium/silica**
Mass transfer test and maximum rate determination during liquid-phase hydrogenations 120(1994)105

**Palladium/silica–alumina**
Role of mass transfer and kinetics in the hydrogenation of rapeseed oil on a supported palladium catalyst 116(1994)269

**Palladium catalysts**
1,3-Butadiene selective hydrogenation over Pd/alumina and CuPd/alumina catalysts 117(1994)41

**Palladium copper alloys**
1,3-Butadiene selective hydrogenation over Pd/alumina and CuPd/alumina catalysts 117(1994)41

**Palladium film**
Methane steam reforming in asymmetric Pd- and Pd–Ag/porous SS membrane reactors 119(1994)305

**Palladium membrane**
Formaldehyde production by catalytic dehydrogenation of methanol in inorganic membrane reactors 109(1994)63

**Palladium-on-ceria**
Development of an active and stable ceria-supported palladium catalyst for hydrogenation of carbon dioxide to methanol 106(1993)1

**Palladium–silver film**
Methane steam reforming in asymmetric Pd- and Pd–Ag/porous SS membrane reactors 119(1994)305

**Palladium–vanadia/alumina**
Structure of metal–metal oxide Pd–$V_2O_5$/$Al_2O_3$ catalyst for complete oxidation of hydrocarbons 112(1994)141

***para*-Chloronitrobenzene**
Hydrogenation of *para*-chloronitrobenzene over nickel borides 115(1994)45

**Paraffins (n-)**
Selective hydroisomerization of long chain normal paraffins 119(1994)121

**Partial oxidation**
Investigation of zeolite catalysts for the direct partial oxidation of benzene to phenol 103(1993)135

**Passivation**
Activity-enhanced copper–zinc based catalysts for the hydrogenolysis of esters 116(1994)237

**Passivation layer**
Passivation layer in a pre-reduced ammonia synthesis catalyst: A temperature-programmed reduction study 115(1994)295

**Pb-ZSM-5**
Synthesis of 2-picoline from acetone over modified ZSM-5 catalysts 111(1994)101

**Pd**
Conversion of n-heptane over Pt- and Pd/SAPO-11 catalysts 114(1994)291

**$Pd/Al_2O_3$**
Selective hydrogenation of isoprene on eggshell and uniform palladium profile catalysts 108(1994)7

**Pd/C**
Oxidation state of germanium promoter on a palladium/carbon catalyst and its role in hydrogenation reactions 102(1993)105

**Pellets**
Role of catalyst pellet activity distribution in catalyst poisoning 108(1994)141

**Pellistor**
Sulfur poisoning, recovery and related phenomena over supported palladium, rhodium and iridium catalysts for methane oxidation 101(1993)51

**Pentasil molecular sieves**
Catalytic amination of methyl *tertiary*-butyl ether to *tertiary*-butylamine over pentasil molecular sieves 106(1993)213

**Performance**
Estimation of catalytic performance by neural network — product distribution in oxidative dehydrogenation of ethylbenzene 114(1994)177

**Perovskite**
Oxygen desorption and oxidation–reduction kinetics with methane and carbon monoxide over perovskite type metal oxide catalysts 104(1993)175

Combustion of methane over $La_{0.66}Sr_{0.34}Ni_{0.3}Co_{0.7}O_3$ and $La_{0.4}Sr_{0.6}Fe_{0.4}Co_{0.6}O_3$ prepared by freeze-drying 109(1994)181

High-temperature catalytic reduction of nitrogen monoxide by carbon monoxide and hydrogen over $La_{1-x}Sr_xMO_3$ perovskites (M = Fe, Co) during reducing and oxidising conditions 116(1994)109

Partial oxidation of natural gas to synthesis gas over ruthenium perovskite oxides 118(1994)217

Oxygen permeation flux through $La_{1-y}Sr_yFeO_3$ limited by carbon monoxide oxidation rate 119(1994)279

**Perovskite oxide**
Oxidative coupling of methane over alkali halide-promoted perovskite oxide catalysts 115(1994)269

**Perovskites**
Catalytic carbon monoxide oxidation over strontium, cerium and copper-substituted lanthanum manganates and cobaltates 107(1994)201

**Perovskite-type**
High-temperature superconductors in catalysis 109(1994)1

**Perovskite oxides**
Oxidative coupling of methane on perovskite oxides, $(Ba,Ca)(Co,Fe)O_{3-\delta}$ 101(1993)63

**Petroleum refining**
New catalytic processes developed in Europe during the 1980's 115(1994)173

**Petroleum residues**
Effect of acidic and basic vapors on pore size distribution of alumina under hydrothermal conditions 101(1993)117

**Phase stabilization**
Porous nanocomposites as catalyst supports Part I. 'Second phase stabilization', thermal stability and anatase-to-rutile transformation in titania–alumina nanocomposites 119(1994)163

**Phenethyl bromide**
A convenient synthesis of benzylpyruvic acid: the double carbonylation of phenethyl bromide 102(1993)53

**Phenol**
Catalytic alkylation of phenol with methanol on a microporous xerogel and a macroporous aerogel of high surface area aluminas 101(1993)339

Comparison between TS-1 and TS-2 in the hydroxylation of phenol with hydrogen peroxide 102(1993)69

Investigation of zeolite catalysts for the direct partial oxidation of benzene to phenol 103(1993)135

Factors affecting the deactivation of various zeolites used as catalysts for the direct partial oxidation of benzene to phenol 106(1993)167

Selective hydrogenation of phenol to cyclohexanone using palladium-based membranes as catalysts 107(1994)83

Catalytic properties of a new large-pore vanadium silicate with ZSM-12 structure 114(1994)9

Structural analysis of $NiO–Fe_2O_3$ catalyst for vapor-phase oxidation of benzoic acid to phenol 115(1994)1

One-step hydroxylation of benzene to phenol I. Gas-phase nitric acid oxidation over $Fe/Mo/SiO_2$ 117(1994)1

**Phenol hydrogenation**
Hydrogenation of phenol to cyclohexanone over palladium and alkali-doped palladium catalysts 110(1994)49

Selectivity dependence on the alloying element of carbon supported Pt-alloy catalysts in the hydrogenation of phenol 110(1994)167

**Phenylalanine**
Catalytic reductive amination of $\alpha$-ketocaboxylic acids as a useful route to amino acids 119(1994)1

**Phosphate modified silica**
Dispersion and activity of vanadia supported on phosphate modified silica 101(1993)221

**Phosphorus**
Structure and reactivity of titania-supported oxides. V. Influence of phosphorus and potassium impurities on the properties of molybdenum oxide supported on titania 105(1993)281

In situ poisoning of the thiophene hydrodesulfurization activity of carbon-supported transition metal sulfide catalysts by phosphorus 119(1994)293

**Phosphorus-containing catalyst**
Influence of phosphorus on the structure and the hydrodesulphurization and hydrodenitrogenation activity of $W/Al_2O_3$ catalysts 120(1994)147

**Phosphorus–nickel–tungsten/alumina**
Phosphorus induced formation of a $NiWO_4$ phase in the oxide form of $P–Ni–W/Al_2O_3$ catalysts 108(1994)123

**Photocatalysis**
Influence of pH on the degradation kinetics of nitrophenol isomers in a heterogeneous photocatalytic system 101(1993)7

**Photoelectron spectroscopy**
Structure and reactivity of undoped and sodium-doped $PbO/\alpha\text{-}Al_2O_3$ catalysts for oxidative coupling of methane 111(1994)79

**Phthalic anhydride**
Kinetic modeling of the catalytic oxidation of *o*-xylene over an industrial $V_2O_5–TiO_2$ (anatase) catalyst 120(1994)17

**Phthalocyanine**
Ethylmercaptan oxidation over supported cobalt(II) phthalocyanines 107(1994)181

**Physical mixture**
Study on the active center of $Ga_2O_3/HZSM\text{-}5$ catalyst 103(1993)259

**Picoline**
Synthesis of 2-picoline from acetone over modified ZSM-5 catalysts 111(1994)101

**Picolines**
Synthesis of pyridine and picolines from ethanol over modified ZSM-5 catalysts 113(1994)1

**Pillared clay catalysts**
Dehydration of glucose to organic acids in microporous pillared clay catalysts 109(1994)147

**Pillared clays**
Characterization of the porous structure and cracking activity of Al-pillared saponites 110(1994)153

**Pillared montmorillonite**
Preparation and catalytic activity of titanium pillared montmorillonite 103(1993)23

**Piperidine**
Zeolite catalysed intramolecular cyclization of 5-amino-1-pentanol to piperidine bases 119(1994)13

**Plasma**
Improvement of catalytic properties of SAPO-31 molecular sieves by using an activated form of $SiO_2$ 110(1994)27

**Platinum**
Benzene hydrogenation on platinum and iridium catalysts. Variation of the toxicity of sulfur with the nature of the support 101(1993)143

Effect of alkaline earth added to platinum-supporting oxides on platinum dispersion and dehydrogenation activity 101(1993)207

X-ray absorption spectroscopic study of platinum supported on sulfate ion-treated zirconium oxide 102(1993)79

Direct conversion of methane to higher alkanes by platinum loaded zeolites 104(1993)215

Hydroconversion of *meta*-xylene on catalysts containing Pt, Re and PtRe on H-mordenite 105(1993)127

Adsorption of platinum complexes on silica and alumina: Preparation of non-uniform metal distributions within support pellets 106(1993)239

Platinum promoting effects in Pt/Ga zeolite catalysts of lower alkane aromatization. II. The catalytic properties in n-butane aromatization, formation of the catalytically active sites and reaction mechanism 107(1994)165

Effect of platinum on supported copper catalysts for carbon monoxide removal 108(1994)21

Influence of the preparation procedure and of the barium content on the physicochemical and catalytic properties of barium-modified platinum/alumina catalysts 108(1994)221

Solid superacid as the support of a platinum catalyst for low-temperature catalytic combustion 110(1994)61

Selectivity dependence on the alloying element of carbon supported Pt-alloy catalysts in the hydrogenation of phenol 110(1994)167

Aromatic compounds synthesis from cyclopentadiene 111(1994)1

The use of 2,2-dimethylbutane (neohexane) as a probe molecule of metal catalysts 114(1994)13

Analysis of the surface acid–base characteristics of Pt/C catalysts for phosphoric acid fuel cells 114(1994)261

Comparison of platinum–iridium bimetallic catalysts supported on $\gamma$-alumina and HY-zeolite in n-hexane reforming reaction 115(1994)229

Carbon dioxide hydrogenation catalyzed by alkaline earth- and platinum-based catalysts supported on carbon 116(1994)187

Deactivation of a multimetal supported catalyst for aniline *N*-alkylation with alcohol 118(1994)139

Nitrobenzene hydrogenation over aluminum borate-supported platinum catalyst 119(1994)185

Oxygen permeation flux through $La_{1-y}Sr_yFeO_3$ limited by carbon monoxide oxidation rate 119(1994)279

Oxidative dehydrogenation of aqueous ethanol on a carbon supported platinum catalyst 120(1994)127

**Platinum/alumina**

Conversion of heavy n-alkanes into light isomers over H-mordenite, platinum/H-mordenite, platinum/alumina and composite catalysts 106(1993)27

Sulfate accumulation in commercial Pd–Pt/$Al_2O_3$ and Pt/$Al_2O_3$ catalysts used for removal of hydrogen from carbon dioxide 119(1994)23

**Platinum/carbon**

Transformations of n-heptane over Pt/activated carbon catalysts 119(1994)271

**Platinum/molybdenum–vanadium oxide**

Transformation of isopropanol over Pt/$H_xVMoO_{5.5}$ hydrogen bronze 108(1994)31

**Platinum/silica**

Mass transfer test and maximum rate determination during liquid-phase hydrogenations 120(1994)105

**Platinum/silica sintering**

Stabilization and sintering of porous Pt/$SiO_2$: a new approach 102(1993)181

**Platinum/zeolite**

Direct conversion of methane to higher alkanes by platinum loaded zeolites 104(1993)215

Influence of structure and acidity-basicity of zeolites on platinum supported catalysts of n-$C_6$ aromatization 112(1994)105

Effect of the platinum/aluminum sites ratio on the performance of platinum/$\beta$ zeolite in the reforming of alkylcyclopentanes 117(1994)75

**Platinum–alumina**
Adsorption parameters of some $C_5$–$C_8$ paraffinic hydrocarbons on platinum–alumina by gas chromatographic pulse techniques 103(1993)35

**Platinum–bismuth**
Selective oxidation of glycerol on a platinum–bismuth catalyst by using a fixed bed reactor 105(1993)147

**Platinum–cobalt**
Mechanism of the decomposition of Pt–Co bimetallic particles in NaY zeolites 120(1994)1

**Platinum–gold/silica**
Preparation of platinum–gold bimetallic catalysts by redox reactions 116(1994)179

**Platinum modification**
Selective synthesis of aromatics from propene on platinum-modified zinco-silicate catalysts 106(1993)83

**Platinum–thallium**
Propane aromatization over Pt–Tl/ZSM-5 103(1993)123

**Poisoning**
Role of catalyst pellet activity distribution in catalyst poisoning 108(1994)141

Extended X-ray absorption fine structure study of sulphur poisoned $Ni/SiO_2$ catalysts 110(1994)197

In situ poisoning of the thiophene hydrodesulfurization activity of carbon-supported transition metal sulfide catalysts by phosphorus 119(1994)293

**Polyacrylonitrile coating**
Polyacrylonitrile coated silica as support for copper catalyst in methanol dehydrogenation to methyl formate 118(1994)163

**Polyethersulfone**
Preparation and catalytic activity of $H_3PMo_{12}O_{40}$-blended polymer film for ethanol conversion reaction 119(1994)107

**Polysulfone**
Preparation and catalytic activity of $H_3PMo_{12}O_{40}$-blended polymer film for ethanol conversion reaction 119(1994)107

**Pore diffusion in reaction mixture**
Promotion effects in bulk metal sulfide catalysts 114(1994)131

**Pore enlargement**
Effect of acidic and basic vapors on pore size distribution of alumina under hydrothermal conditions 101(1993)117

**Pore size**
Microstructural and surface area development during hydrogen reduction of magnetite 109(1994)211

**Pore size distribution**
Influence of the forming method on the pore structure of alumina supports 119(1994)45

**Pore size distributions**
Stabilization and sintering of porous $Pt/SiO_2$: a new approach 102(1993)181

**Pore size regulated**
Selective ethylation of ethylbenzene in the presence of other aromatics 115(1994)257

**Pore structure**
Porous nanocomposites as catalyst supports Part I. 'Second phase stabilization', thermal stability and anatase-to-rutile transformation in titania–alumina nanocomposites 119(1994)163

**Porosity**
Alumina supported molybdenum and tungsten oxide catalysts. Surface area and pore size distribution from nitrogen adsorption and mercury penetration 119(1994)205

**Porosity control**
Control of porosity and surface area in $TiO_2$–$Al_2O_3$ mixed oxides catalytic supports. A statistical approach 118(1994)73

**Porous $Pt/SiO_2$**
Stabilization and sintering of porous $Pt/SiO_2$: a new approach 102(1993)181

**Potassium**
Structure and reactivity of titania-supported oxides. V. Influence of phosphorus and potassium impurities on the properties of molybdenum oxide supported on titania 105(1993)281

Role of alkali promoters in $K/MoS_2$ catalysts for CO–$H_2$ reactions 110(1994)11

**Potassium carbonate**
Surface species on the oxidized $K_2CO_3/MoS_2$ and their effects on catalytic carbon monoxide hydrogenation 104(1993)199

**Potassium methoxide**
Slurry phase synthesis of methanol with a potassium methoxide/copper chromite catalytic system 102(1993)13

**Potentiometry**
Synthesis and activity of vanadium-based supported catalysts for ethylene polymerization 102(1993)1

**Power-law kinetics**
Temperature-programmed oxidation technique: kinetics of coke–$O_2$ reaction on supported metal catalysts 117(1994)53

**Precipitation**
Dependence of selectivity on the preparation method of copper/$\alpha$-alumina catalysts in the dehydrogenation of cyclohexanol 103(1993)233

**Precipitation conditions**
Preparation and characterization of silica-supported copper catalysts for the dehydrogenation of cyclohexanol to cyclohexanone 115(1994)29

**Precursor**
Application of *acoustophoresis* in a study on solute–support interactions for the preparation of supported cobalt–molybdenum catalysts 102(1993)35

**Preparation**
Influence of preparation conditions on the structure and catalytic properties of $SO_4^{2-}/ZrO_2$ superacid catalysts 116(1994)151

**Prepolymers**
Application of solid base catalysts in the preparation of prepolymers by condensation of ketones and malononitrile 105(1993)271

**Principal component analysis**
Principal component analysis of data on the catalytic oxidation of toluene 119(1994)7

**Probe reaction**
Catalyst characterization by a probe reaction. Effect of tin addition in $PtSn/Al_2O_3$ 101(1993)199

**Process variables**
Zeolite beta as a catalyst for alkylation of isobutane with 2-butene. Influence of synthesis conditions and process variables 119(1994)83

**Profile**
Adsorption of platinum complexes on silica and alumina: Preparation of non-uniform metal distributions within support pellets 106(1993)239

**Promoter**
Incorporation of promoter elements into the crystal lattice of $(VO)_2P_2O_7$ and its promotion effects on the oxidation of n-butane to maleic anhydride 103(1993)281

One-step hydroxylation of benzene to phenol I. Gas-phase nitric acid oxidation over $Fe/Mo/SiO_2$ 117(1994)1

**Promoter effect**
Hydrogenation of carbon monoxide on unsupported Fe–Mn–K catalysts for the synthesis of lower alkenes: promoter effect of manganese 111(1994)119

**Promoters**
Promoted vanadia/titania catalysts for *o*-xylene oxidation: influence of acid–base and redox properties 108(1994)241

Intrinsic kinetics and industrial reactors modelling for the dehydrogenation of ethylbenzene to styrene on promoted iron oxide catalysts 113(1994)89

**Promotion**
Oxidation state of germanium promoter on a palladium/carbon catalyst and its role in hydrogenation reactions 102(1993)105

**Promotion effects**
Promotion effects in bulk metal sulfide catalysts 114(1994)131

**Propanal**
Hydroformylation of ethylene over cobalt, nickel, molybdenum, CoMo and NiMo alumina supported sulfide catalysts 116(1994)259

**Propane**
Selective ammoxidation of propane over Ca–Bi–Mo oxide catalyst 110(1994)173

Support effects on magnesium-vanadium mixed oxides in the oxidative dehydrogenation of propane 114(1994)201

**Propane ammoxidation**
Selective ammoxidation of propane over multicomponent oxide catalysts 110(1994)207

Surface characterization and reactivity in ammoxidation reactions of vanadium antimonate catalysts 113(1994)43

**Propane aromatization**
State, activation, and migration of gallium in Ga/ H-MFI(Si,Al) propane aromatization catalysts 108(1994)85

**Propane dehydrogenation**
Characterization of vanadia supported on amorphous $AlPO_4$ and its properties for oxidative dehydrogenation of propane 112(1994)187

**Propane oxidation**
Kinetic study of the oxidative dehydrogenation of propane over vanadia supported on amorphous $AlPO_4$ 112(1994)209

**Propene**
Coking, aging and regeneration of zeolites. XIV. Kinetic study of the formation of coke from propene over USHY and H-ZSM-5 101(1993)351

Hydrogen cyanide formation in selective catalytic reduction of nitrogen oxides over Cu/ZSM-5 107(1994)125

Reactions of mixtures of light alkenes and n-heptane over USHY zeolite 108(1994)107

Support effects on magnesium-vanadium mixed oxides in the oxidative dehydrogenation of propane 114(1994)201

**Propene aromatization**
Study on the active center of $Ga_2O_3$/HZSM-5 catalyst 103(1993)259

**Propene conversion**
Selective synthesis of aromatics from propene on platinum-modified zinco-silicate catalysts 106(1993)83

**Propionic acid**
Silica supported metal-doped cesium ion catalyst for methacrylic acid synthesis via condensation of propionic acid with formaldehyde 102(1993)215

**Propylamine**
Disproportionation of n-propylamine on supported nickel catalysts 109(1994)265

**Protonic zeolites**
Comparison of the catalytic properties of protonic zeolites and exchanged clays for Diels–Alder synthesis 101(1993)253

**Pseudoliquid phase**
Vapour-phase trimerisation of formaldehyde to trioxane catalyzed by 1-vanado-11-molybdophosphoric acid: A reaction rate with an unusual pressure dependency 118(1994)17

**Pt**
Conversion of n-heptane over Pt- and Pd/SAPO-11 catalysts 114(1994)291

**Pt/Ga-silicate**
Platinum promoting effects in Pt/Ga zeolite catalysts of lower alkane aromatization. II. The catalytic properties in n-butane aromatization, formation of the catalytically active sites and reaction mechanism 107(1994)165

**PTFE**
Thermal and catalytic behaviour of grafted polytetrafluoroethylene (PTFE) pretreated with some transition metal nitrates 120(1994)45

**Pt–Ga/H-ZSM-5**
Platinum promoting effects in Pt/Ga zeolite catalysts of lower alkane aromatization. I. Ga and Pt electronic states, dispersion and distribution in zeolite crystals in dependence of preparation techniques. Dynamic effects caused by reaction mixture 107(1994)147

Platinum promoting effects in Pt/Ga zeolite catalysts of lower alkane aromatization. II. The catalytic properties in n-butane aromatization, formation of the catalytically active sites and reaction mechanism 107(1994)165

**Pt–$Ga^I$ species**
Platinum promoting effects in Pt/Ga zeolite catalysts of lower alkane aromatization. I. Ga and Pt electronic states, dispersion and distribution in zeolite crystals in dependence of preparation techniques. Dynamic effects caused by reaction mixture 107(1994)147

**Pt–Ir bimetallic catalysts**
Comparison of platinum–iridium bimetallic catalysts supported on $\gamma$-alumina and HY-zeolite in n-hexane reforming reaction 115(1994)229

**PtSn**
Catalyst characterization by a probe reaction. Effect of tin addition in $PtSn/Al_2O_3$ 101(1993)199

**Pulse techniques.**
Adsorption parameters of some $C_5$–$C_8$ paraffinic hydrocarbons on platinum–alumina by gas chromatographic pulse techniques 103(1993)35

**p-Xylene**
Gas-phase oxygen oxidations of alkylaromatics over chemical vapor deposited Fe/Mo/borosilicate molecular sieve, Fe/Mo/DBH. IV. Effect of supporting matrix on *p*-xylene oxidation 118(1994)87

**Pyridine**
Heats of adsorption for ammonia and pyridine in H-ZSM-5: evidence for identical Brønsted-acid sites 110(1994)67

Synthesis of pyridine and picolines from ethanol over modified ZSM-5 catalysts 113(1994)1

Influence of phosphorus on the structure and the hydrodesulphurization and hydrodenitrogenation activity of $W/Al_2O_3$ catalysts 120(1994)147

**Pyridine adsorption**
Platinum promoting effects in Pt/Ga zeolite catalysts of lower alkane aromatization. I. Ga and Pt electronic states, dispersion and distribution in zeolite crystals in dependence of preparation techniques. Dynamic effects caused by reaction mixture 107(1994)147

# R

**Raman spectra**
Support effects on magnesium-vanadium mixed oxides in the oxidative dehydrogenation of propane 114(1994)201

**Raman spectroscopy**
Adsorption of platinum complexes on silica and alumina: Preparation of non-uniform metal distributions within support pellets 106(1993)239

**Raney copper**
Methanol synthesis over copper and ZnO promoted copper surfaces 115(1994)15

**Raney nickel**
Catalytic reductive amination of $\alpha$-ketocaboxylic acids as a useful route to amino acids 119(1994)1

**Rapeseed oil**
Role of mass transfer and kinetics in the hydrogenation of rapeseed oil on a supported palladium catalyst 116(1994)269

**Rare earth ions**
Surface area stability and characterisation of a novel sulfate-based alumina modified by rare earth and alkaline earth ions 107(1994)267

**Rare earth oxides**
Stabilisation of aluminas by rare earth and alkaline earth ions 101(1993)105

**Rare earths**
Critical performance evaluation of catalysts and mechanistic implications for oxidative coupling of methane 104(1993)11

**Rate constants**
Kinetic model for the reaction of sulphur dioxide catalytic reduction to hydrogen sulphide 101(1993)25

**Rate determination**
Mass transfer test and maximum rate determination during liquid-phase hydrogenations 120(1994)105

**Rate of hydrolysis**
Influence of the nature of silicon and titanium alkoxides on the incorporation of titanium in TS-1 110(1994)137

**Reaction kinetics**
Hydrolysis of carbon sulfides on titania and alumina catalysts; the influence of water 115(1994)157

**Reaction mechanism**
Catalytic activity of $NiPS_3$ in the reaction of thiophene hydrodesulfurization 108(1994)97

Conversion of *sec*-butylbenzene over synthetic zeolites 111(1994)191

Joint effects of diffusion resistance and catalyst deactivation on the selectivity of complex reactions proceeding via different mechanisms 118(1994)199

**Reaction scheme**
Study of the hydrodeoxygenation of carbonyl, carboxylic and guaiacyl groups over sulfided $CoMo/\gamma$-$Al_2O_3$ and $NiMo/\gamma$-$Al_2O_3$ catalysts. I. Catalytic reaction schemes 109(1994)77

**Reactivation by water**
Ethylene polymerization over transition metal-exchanged montmorillonite catalysts 101(1993)129

**Rectorite**
Ethanol dehydrogenation on silica pillared rectorite 115(1994)219

Cumene dehydrogenation on silica-pillared rectorite 120(1994)179

**Redox behavior**
Redox behavior of trimanganese tetroxide catalysts 101(1993)233

**Redox properties**
Promoted vanadia/titania catalysts for *o*-xylene oxidation: influence of acid–base and redox properties 108(1994)241

**Reduction**
Composition and catalytic properties of products from the reduction of $NiMoO_4$ 105(1993)205

Effect of hydrogen reduction temperature on the surface chemistry of pure and promoted magnetite 110(1994)185

Reduction of model steam reforming catalysts: NiO/$\alpha$-$Al_2O_3$ 110(1994)217

Activity-enhanced copper–zinc based catalysts for the hydrogenolysis of esters 116(1994)237

**Reduction degree**
Identification of nickel species and their interaction with the support in Ni–silica catalyst precursor 103(1993)183

**Reduction (selective)**
Selective reduction of *para*-substituted diphenyldisulfides catalysed by a sulfided NiMo supported on alumina catalyst 115(1994)303

**Reduction temperature**
Development of an active and stable ceria-supported palladium catalyst for hydrogenation of carbon dioxide to methanol 106(1993)1

Structure–activity relation and ethane formation in the hydrogenolysis of methyl acetate on silica-supported copper catalysts 111(1994)63

**Reductive amination**
Catalytic reductive amination of $\alpha$-ketocaboxylic acids as a useful route to amino acids 119(1994)1

**Reforming**
Effect of the platinum/aluminum sites ratio on the performance of platinum/$\beta$ zeolite in the reforming of alkylcyclopentanes 117(1994)75

**Regeneration**
Coking, aging and regeneration of zeolites. XIV. Kinetic study of the formation of coke from propene over USHY and H-ZSM-5 101(1993)351

Studies on the rejuvenation of spent catalysts: effectiveness and selectivity in the removal of foulant metals from spent hydroprocessing catalysts in coked and decoked forms 105(1993)195

State, activation, and migration of gallium in Ga/ H-MFI(Si,Al) propane aromatization catalysts 108(1994)85

**Rejuvenation**
Studies on the rejuvenation of spent catalysts: effectiveness and selectivity in the removal of foulant metals from spent hydroprocessing catalysts in coked and decoked forms 105(1993)195

**Rh/HNaY**
Benzene hydrogenation and hydrogenolysis of n-butane on Rh/H($x$)NaY zeolite catalysts 103(1993)5

**Rhenium**
Hydroconversion of *meta*-xylene on catalysts containing Pt, Re and PtRe on H-mordenite 105(1993)127

The use of 2,2-dimethylbutane (neohexane) as a probe molecule of metal catalysts 114(1994)13

**Rhodium/silica**
Carbon monoxide adsorption and hydrogenation on Cu–Rh/$SiO_2$ catalysts 114(1994)113

**Rhodium/vanadia**
Metal dispersion dependent selectivities for syngas conversion to ethanol on $V_2O_3$ supported rhodium 120(1994)115

**Rhodium-containing Y zeolites**
Hydrocarbons from synthesis gas: Selectivity changes induced by the zeolite matrix on the metallic function in Rh/Y catalysts 107(1994)59

**Rhodium–tungsten**
Effect of the hydrogen and hydrogen sulfide partial pressures in the hydrodesulfurisation of thiophene and hydrogenation of cyclohexene on rhodium–tungsten catalysts 107(1994)101

**Ruthenium**
Effects of transition metal addition to CoMo/$\gamma$-$Al_2O_3$ catalyst on the hydrotreating reactions of atmospheric residual oil 109(1994)195

The use of 2,2-dimethylbutane (neohexane) as a probe molecule of metal catalysts 114(1994)13

Improved activity of a silica supported ruthenium catalyst by carbon monoxide pretreatment 115(1994)315

**Ruthenium/carbon**
Carbon monoxide hydrogenation over carbon supported cobalt or ruthenium catalysts. Promoting effects of magnesium, vanadium and cerium oxides 120(1994)71

**Ruthenium/Syngas**
Partial oxidation of natural gas to synthesis gas over ruthenium perovskite oxides 118(1994)217

**Ruthenium dispersion**
Conversion of methane to higher alkanes by ruthenium loaded $Zr_3(PO_4)_4$ 118(1994)187

**Ruthenium sulphide**
Kinetic approach in the comparison of supported and unsupported ternary nickel–ruthenium–sulphur compounds in hydrotreating reactions 103(1993)79

# S

**$S^{2-}$ oxidation**
Catalytic oxidation of sulfide ions over $NiPS_3$ 107(1994)189

**Samarium oxide**
Stabilization of $Sm_2O_3$ based catalysts in oxidative methylation of toluene 105(1993)135

Roles of oxygen and carbon dioxide on methane oxidative coupling over CaO and $Sm_2O_3$ catalysts 115(1994)243

**SAPO**
Improvement of catalytic properties of SAPO-31 molecular sieves by using an activated form of $SiO_2$ 110(1994)27

Conversion of n-heptane over Pt- and Pd/SAPO-11 catalysts 114(1994)291

**SAPO-11**
Selective hydroisomerization of long chain normal paraffins 119(1994)121

**SAPO-37**
Kinetics of gasoil cracking and catalyst decay on SAPO-37 and USY molecular sieves 118(1994)153

**Saponites**
Characterization of the porous structure and cracking activity of Al-pillared saponites 110(1994)153

**Scheelite structure**
Selective ammoxidation of propane over multicomponent oxide catalysts 110(1994)207

**Selective catalytic decomposition**
Selective decomposition of cyclohexyl hydroperoxide to cyclohexanone catalyzed by chromium aluminophosphate-5 108(1994)1

**Selective catalytic reduction**
Catalytic performance and active sites determination of niobium oxide promoted vanadia/titania catalysts for selective catalytic reduction of nitric oxide 105(1993)41

**Selective hydrogenation**
Selective hydrogenation of phenol to cyclohexanone using palladium-based membranes as catalysts 107(1994)83

Selective hydrogenation of isoprene on eggshell and uniform palladium profile catalysts 108(1994)7

1,3-Butadiene selective hydrogenation over Pd/alumina and CuPd/alumina catalysts 117(1994)41

**Selective oxidation**
Gas-phase oxygen oxidation of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve Fe/Mo/DBH. III. Selective oxidation of *p*-xylene from a xylene isomer mixture containing ethylbenzene 110(1994)75

Beneficial influences of the reactive atmosphere on selective oxidation catalysts 116(1994)49

**Selective reduction**
Hydrogen cyanide formation in selective catalytic reduction of nitrogen oxides over Cu/ZSM-5 107(1994)125

**Selectivity**
Effects of zinc addition to silica supported copper catalysts for the hydrogenolysis of esters 108(1994)63

Carbon monoxide adsorption and hydrogenation on $Cu–Rh/SiO_2$ catalysts 114(1994)113

Estimation of catalytic performance by neural network — product distribution in oxidative dehydrogenation of ethylbenzene 114(1994)177

Selective ethylation of ethylbenzene in the presence of other aromatics 115(1994)257

Activity-enhanced copper–zinc based catalysts for the hydrogenolysis of esters 116(1994)237

Polyacrylonitrile coated silica as support for copper catalyst in methanol dehydrogenation to methyl formate 118(1994)163

Joint effects of diffusion resistance and catalyst deactivation on the selectivity of complex reactions proceeding via different mechanisms 118(1994)199

**Selectivity (adipic acid)**
Liquid-phase oxidation of cyclohexane over CoAPO-5: Synergism effect of coreactant and solvent effect 118(1994)21

**Selectivity (alkenes)**
Improved alkene selectivity in carbon monoxide hydrogenation over silica supported cobalt–molybdenum catalyst 112(1994)87

**Selectivity ($C_{2+}$)**
Structure and reactivity of alkali-doped calcium oxide catalysts for oxidative coupling of methane 101(1993)167

Oxidative dimerization of methane in molten $Li_2CO_3–Na_2CO_3$ eutectic supported by lithium aluminate at 700–850°C 108(1994)157

On the effect of introducing $Zn^{2+}$ cations onto the surface of a NaOH–CaO catalyst on its selectivity in the oxidative coupling of methane 118(1994)103

**Selectivity (cyclohexanol/cyclohexanone)**
Selectivity dependence on the alloying element of carbon supported Pt-alloy catalysts in the hydrogenation of phenol 110(1994)167

**Selectivity (cyclohexanone)**
Liquid-phase oxidation of cyclohexane using CoAPO-5 as the catalyst 105(1993)289

**Selectivity (ethane)**
Structure–activity relation and ethane formation in the hydrogenolysis of methyl acetate on silica-supported copper catalysts 111(1994)63

**Selectivity (ethene/propene)**
Kinetic study of the oxidative dehydrogenation of propane over vanadia supported on amorphous $AlPO_4$ 112(1994)209

**Selectivity (hydrocarbons)**
Catalytic evaluation of gallium modified wide-pore zeolites 109(1994)235

**Selectivity (methanol)**
Intrinsic reactivities of manganese oxides for carbon monoxide hydrogenation catalysis 119(1994)97

**Selectivity (*N*-isopropylmethoxy-2-methyl-6-ethylaniline, *N*-isopropylidenemethoxy-2-methyl-6-ethylaniline)**
Deactivation of a multimetal supported catalyst for aniline *N*-alkylation with alcohol 118(1994)139

**Selectivity (*para*-)**
Gas-phase oxygen oxidations of alkylaromatics over Chemical vapor deposited Fe/Mo/borosilicate molecular sieve, Fe/Mo/DBH. I. The selective synthesis of terephthaldehyde from *para*-xylene 105(1993)83

Factors controlling iso-/n- and *para*-selectivity in the alkylation of toluene with isopropanol on molecular sieves 108(1994)187

**SEM-EDX**
Incorporation of titania into preshaped silica monolith structures 116(1994)205

**Separation**
$C_4$ alkene separation process using solid acid catalysis 109(1994)247

**Silica**
Application of *acoustophoresis* in a study on solute–support interactions for the preparation of supported cobalt–molybdenum catalysts 102(1993)35

Adsorption of platinum complexes on silica and alumina: Preparation of non-uniform metal distributions within support pellets 106(1993)239

Effects of zinc addition to silica supported copper catalysts for the hydrogenolysis of esters 108(1994)63

Influence of the preparation method and the nature of the support on the stability of nickel catalysts 109(1994)169

Improvement of catalytic properties of SAPO-31 molecular sieves by using an activated form of $SiO_2$ 110(1994)27

Silica-supported small crystals of ZSM-5 zeolite 115(1994)7

Ethanol dehydrogenation on silica pillared rectorite 115(1994)219

Activity-enhanced copper–zinc based catalysts for the hydrogenolysis of esters 116(1994)237

Deactivation of a multimetal supported catalyst for aniline *N*-alkylation with alcohol 118(1994)139

Cumene dehydrogenation on silica-pillared rectorite 120(1994)179

**Silica–alumina**
Effect of coke deposition on the effective diffusivity of catalyst pellets 110(1994)109

**Silicalite**
Gas-phase oxygen oxidations of alkylaromatics over chemical vapor deposited Fe/Mo/borosilicate molecular sieve, Fe/Mo/DBH. IV. Effect of supporting matrix on *p*-xylene oxidation 118(1994)87

**Silicalite-1**
Oxidation of aniline over TS-1, the titanium substituted silicalite-1 118(1994)173

**Silica monoliths**
Incorporation of titania into preshaped silica monolith structures 116(1994)205

**Silica support**
Preparation and characterization of silica-supported copper catalysts for the dehydrogenation of cyclohexanol to cyclohexanone 115(1994)29

**Silicon alkoxide**
Influence of the nature of silicon and titanium alkoxides on the incorporation of titanium in TS-1 110(1994)137

**Silicon-rich SAPO-44**
Synthesis and characterization of silicon-rich SAPO-44 molecular sieves 110(1994)1

**Silver**
Active electronic states of silver catalysts for methanol selective oxidation 120(1994)7

**Silver promotion**
Hydrogenation of carbon dioxide over silver promoted copper/zirconia catalysts 106(1993)275

**Sintering**
Sintering kinetics of supported metals: New perspectives from a unifying GPLE treatment 107(1994)1

Deactivation of industrial hydrotreating catalyst for middle petroleum fractions processing 107(1994)133

Surface area stability and characterisation of a novel sulfate-based alumina modified by rare earth and alkaline earth ions 107(1994)267

Extended X-ray absorption fine structure study of sulphur poisoned $Ni/SiO_2$ catalysts 110(1994)197

Preparation of platinum–gold bimetallic catalysts by redox reactions 116(1994)179

**$SiO_2$**
TPR study of $Al_2O_3$- and $SiO_2$-supported $CuCl_2$ catalysts 117(1994)139

**Sodium-calcium oxide catalysts**
Surface composition and selectivity of sodium-compound-impregnated calcium oxide catalysts for the oxidative coupling of methane 107(1994)115

**Sodium-doped lead oxide**
Structure and reactivity of undoped and sodium-doped $PbO/\alpha$-$Al_2O_3$ catalysts for oxidative coupling of methane 111(1994)79

**Sodium hydroxide**
Ethylmercaptan oxidation over supported cobalt(II) phthalocyanines 107(1994)181

**Sodium hydroxide–calcium oxide**
On the effect of introducing $Zn^{2+}$ cations onto the surface of a NaOH–CaO catalyst on its selectivity in the oxidative coupling of methane 118(1994)103

**Sol-gel processing**
Stabilization and sintering of porous $Pt/SiO_2$: a new approach 102(1993)181

**Sol-gel technique**
Promotion of hydrogen permeation on metal-dispersed alumina membranes and its application to a membrane reactor for methane steam reforming 110(1994)239

**Solid acid**
Alkylation of isobutane with butenes over solid acid catalysts 107(1994)239

**Solid acid catalyst**
Methylation of n-butylamine over solid-acid catalysts 109(1994)225

**Solid acid catalysts**
$C_4$ alkene separation process using solid acid catalysis 109(1994)247

**Solid acids**
Direct synthesis of isoalkanes through Fischer–Tropsch reaction on hybrid catalysts 110(1994)121

Reactions of aromatics and naphthenes with alkanes over a $Pt/ZrO_2/SO_4$ catalyst 114(1994)183

**Solid base catalysts**
Application of solid base catalysts in the preparation of prepolymers by condensation of ketones and malononitrile 105(1993)271

**Solid–solid ion exchange**
Effect of water vapour and ammonia on the solid–solid interaction of Cu oxide with Y-type zeolite: Preparation of catalyst for reduction of nitric oxide with ammonia at low temperature. 103(1993)269

**Solid-state exchange**
Solid-state exchange of lanthanum in beta zeolite 106(1993)185

**Solid superacid**
Solid superacid as the support of a platinum catalyst for low-temperature catalytic combustion 110(1994)61

**Solid superacids**
Influence of preparation conditions on the structure and catalytic properties of $SO_4^{2-}/ZrO_2$ superacid catalysts 116(1994)151

**Solid support**
Oxidative dimerization of methane in molten $Li_2CO_3$–$Na_2CO_3$ eutectic supported by lithium aluminate at 700–850°C 108(1994)157

**Solvent effect**
Liquid-phase oxidation of cyclohexane over CoAPO-5: Synergism effect of coreactant and solvent effect 118(1994)21

**$SO_x$ poisoning**
Effect of sulfur oxides on surface state and carbon monoxide oxidation activity of $Cu_xZn_{1-x}Cr_2O_4$ mixed oxides 108(1994)115

**Spark-erosion**
Methanol synthesis by amorphous copper-based catalysts prepared by spark-erosion 101(1993)151

**Spent catalyst**
Studies on the rejuvenation of spent catalysts: effectiveness and selectivity in the removal of foulant metals from spent hydroprocessing catalysts in coked and decoked forms 105(1993)195

**Spillover**
Intermediate species on zirconia supported methanol aerogel catalysts. I. State of the catalyst surface before and after the adsorption of hydrogen 101(1993)297

Transformation of isopropanol over $Pt/H_xVMoO_{5.5}$ hydrogen bronze 108(1994)31

**Spillover of adsorbed species**
Intermediate species on zirconia supported methanol aerogel catalysts III. Adsorption of carbon monoxide on copper containing solids 112(1994)57

**Spinel**
Synthesis and reactivity of copper-containing non stoichiometric spinel-type catalysts 103(1993)69

**Stabilisation**
Surface area stability and characterisation of a novel sulfate-based alumina modified by rare earth and alkaline earth ions 107(1994)267

**Stability**
Ethylmercaptan oxidation over supported cobalt(II) phthalocyanines 107(1994)181

**Stabilization**
Stabilisation of aluminas by rare earth and alkaline earth ions 101(1993)105

Influence of the preparation procedure and of the barium content on the physicochemical and catalytic properties of barium-modified platinum/alumina catalysts 108(1994)221

**Statistical analysis**
Kinetic model for the reaction of sulphur dioxide catalytic reduction to hydrogen sulphide 101(1993)25

**Steady-state multiplicity**
Catalytic carbon monoxide oxidation over strontium, cerium and copper-substituted lanthanum manganates and cobaltates 107(1994)201

**Steam**
Gas-phase oxygen oxidations of alkylaromatics over chemical vapor deposited Fe/Mo/borosilicate molecular sieve, Fe/Mo/DBH. IV. Effect of supporting matrix on *p*-xylene oxidation 118(1994)87

**Steam deactivation**
Application of the energy gradient selectivity concept to fluid catalytic cracking catalysts 115(1994)103

**Steaming**
Cracking of an industrial feedstock over combinations of H-ZSM-5 and HY: The influence of H-ZSM-5 pretreatment 120(1994)55

**Steam reforming**
Reduction of model steam reforming catalysts: NiO/$\alpha$-$Al_2O_3$ 110(1994)217

**Steric constraints**
Factors controlling iso-/n- and *para*-selectivity in the alkylation of toluene with isopropanol on molecular sieves 108(1994)187

**Strontium**
Identification of solid solutions and other phases in strontium and barium catalysts containing oxides of magnesium, aluminum or silicon as additive. II. catalyst characterisation 114(1994)87

**Strontium oxide**
Solid-state basicity as a guide to formulation of improved catalysts for oxidative coupling of methane. I. Performance evaluation 114(1994)69

**Structural characterization**
Catalyst characterization. Variation of several parameters with the deactivation/regeneration cycles 103(1993)17

**Structural heterogeneity**
Coke profiles in deactivated alumina pellets studied by NMR imaging 115(1994)147

**Structure**
Comparison between TS-1 and TS-2 in the hydroxylation of phenol with hydrogen peroxide 102(1993)69

Investigation of zeolite catalysts for the direct partial oxidation of benzene to phenol 103(1993)135

Identification of nickel species and their interaction with the support in Ni–silica catalyst precursor 103(1993)183

**Styrene**
A comparative study of oxidative methylation of toluene with methane to styrene and ethylbenzene over bi-alkali-promoted MgO, CaO, SrO or BaO 102(1993)233

Oxidative dehydrogenation of ethylbenzene to styrene over carbonaceous catalysts 112(1994)117

Intrinsic kinetics and industrial reactors modelling for the dehydrogenation of ethylbenzene to styrene on promoted iron oxide catalysts 113(1994)89

**Styrene dimerization**
Dimerization of styrene catalyzed by acid 12-membered ring zeolites 116(1994)127

**Styrene hydrogenation**
Hydrogenation of styrene over nickel/sepiolite catalysts 113(1994)75

**Sulfate doped zirconia**
Influence of preparation conditions on the structure and catalytic properties of $SO_4^{2-}/ZrO_2$ superacid catalysts 116(1994)151

**Sulfide catalysts**
Hydroformylation of ethylene over cobalt, nickel, molybdenum, CoMo and NiMo alumina supported sulfide catalysts 116(1994)259

**Sulfided cobalt–molybdenum**
Study of the hydrodeoxygenation of carbonyl, carboxylic and guaiacyl groups over sulfided CoMo/$\gamma$-$Al_2O_3$ and NiMo/$\gamma$-$Al_2O_3$ catalysts. I. Catalytic reaction schemes 109(1994)77

**Sulfided–nickel–molybdenum**
Study of the hydrodeoxygenation of carbonyl, carboxylic and guaiacyl groups over sulfided CoMo/$\gamma$-$Al_2O_3$ and NiMo/$\gamma$-$Al_2O_3$ catalysts. I. Catalytic reaction schemes 109(1994)77

**Sulphate**
Sulfate accumulation in commercial Pd–Pt/$Al_2O_3$ and Pt/$Al_2O_3$ catalysts used for removal of hydrogen from carbon dioxide 119(1994)23

**Sulphate/zirconia**
A comparative study of $O_4^{2-}/ZrO_2$ and zeolite beta as catalysts for the isomerization of n-butane and the alkylation of isobutane with 2-butene 111(1994)175

**Sulphidation**
$MoS_2$ structures in high-activity hydrotreating catalysts. I. Semi-quantitative method for evaluation of transmission electron microscopy results. Correlations between hydrodesulfurization and hydrodenitrogenation activities and $MoS_2$ dispersion 105(1993)53

$MoS_2$ structures in high activity hydrotreating catalysts. II. Evolution of the active phase during the catalyst life cycle deactivation model 105(1993)69

Hydrodemetallisation of nickel-5,10,15,20-tetraphenylporphyrin over sulphided Mo/$Al_2O_3$: Initial catalyst deactivation 108(1994)171

**Sulphide**
Benzene hydrogenation on platinum and iridium catalysts. Variation of the toxicity of sulfur with the nature of the support 101(1993)143

**Sulphide catalysts**
Selective reduction of *para*-substituted diphenyldisulfides catalysed by a sulfided NiMo supported on alumina catalyst 115(1994)303

**Sulphided cobalt–molybdenum**
Study of the hydrodeoxygenation of carbonyl, carboxylic and guaiacyl groups over sulfided CoMo/$\gamma$-$Al_2O_3$ and NiMo/$\gamma$-$Al_2O_3$ catalyst. II. influence of water, ammonia and hydrogen sulfide 109(1994)97

**Sulphided CoMo catalyst**
Direct hydrodeoxygenation and hydrogenation of 2,6- and 3,5-dimethylphenol over sulphided CoMo catalyst 117(1994)151

**Sulphided nickel–molybdenum**
Study of the hydrodeoxygenation of carbonyl, carboxylic and guaiacyl groups over sulfided CoMo/$\gamma$-$Al_2O_3$ and NiMo/$\gamma$-$Al_2O_3$ catalyst. II. influence of water, ammonia and hydrogen sulfide 109(1994)97

**Sulphides**
Hydrolysis of carbon sulfides on titania and alumina catalysts; the influence of water 115(1994)157

**Sulphonic acid resin**
Kinetic study of isobutene dimerization catalyzed by a macroporous sulphonic acid resin 106(1993)155

The role of by-products formation in methyl *tert*-butyl ether synthesis catalyzed by a macroporous acidic resin 117(1994)99

**Sulphur**
Extended X-ray absorption fine structure study of sulphur poisoned Ni/$SiO_2$ catalysts 110(1994)197

**Sulphurdioxide**
Kinetic model for the reaction of sulphur dioxide catalytic reduction to hydrogen sulphide 101(1993)25

**Sulphur poisoning**
Sulfur poisoning, recovery and related phenomena over supported palladium, rhodium and iridium catalysts for methane oxidation 101(1993)51

Sulfate accumulation in commercial Pd–Pt/$Al_2O_3$ and Pt/$Al_2O_3$ catalysts used for removal of hydrogen from carbon dioxide 119(1994)23

**Superacid**
Alkylation of isobutane with butenes over solid superacids, $SO_4^{2-}/ZrO_2$ and $SO_4^{2-}/TiO_2$ 107(1994)229

**Superacids**
Direct synthesis of isoalkanes through Fischer–Tropsch reaction on hybrid catalysts 110(1994)121

**Superbasic catalysts**
A comparative study of oxidative methylation of toluene with methane to styrene and ethylbenzene over bi-alkali-promoted MgO, CaO, SrO or BaO 102(1993)233

**Superconductivity**
High-temperature superconductors in catalysis 109(1994)1

**Support**
Application of *acoustophoresis* in a study on solute–support interactions for the preparation of supported cobalt–molybdenum catalysts 102(1993)35

Silica-supported small crystals of ZSM-5 zeolite 115(1994)7

Influence of the forming method on the pore structure of alumina supports 119(1994)45

**Supported catalysts**
Sintering kinetics of supported metals: New perspectives from a unifying GPLE treatment 107(1994)1

**Supported gold catalysts**
Hydrogenation of $CO_2$ over gold supported on metal oxides 102(1993)125

**Supported molybdenum sulphide**
Characterization of supported molybdenum sulfide catalyst ex ammonium tetrathiomolybdate 112(1994)161

**Supported noble metal catalysts**
Sulfur poisoning, recovery and related phenomena over supported palladium, rhodium and iridium catalysts for methane oxidation 101(1993)51

**Support effect**
Hydrogenation of $CO_2$ over gold supported on metal oxides 102(1993)125

Solid superacid as the support of a platinum catalyst for low-temperature catalytic combustion 110(1994)61

Catalytic cracking of heavy vacuum gas oil over aluminum diacetate containing catalyst 110(1994)87

Selective ammoxidation of propane over multicomponent oxide catalysts 110(1994)207

Gas-phase oxygen oxidations of alkylaromatics over chemical vapor deposited Fe/Mo/borosilicate molecular sieve, Fe/Mo/DBH. IV. Effect of supporting matrix on *p*-xylene oxidation 118(1994)87

**Surface acidity**
Conversion of *sec*-butylbenzene over synthetic zeolites 111(1994)191

**Surface and bulk restructuring**
Beneficial influences of the reactive atmosphere on selective oxidation catalysts 116(1994)49

**Surface area**
Stabilisation of aluminas by rare earth and alkaline earth ions 101(1993)105

Preparation of high surface area $\alpha$-$Al_2O_3$ and its surface properties 105(1993)141

Characterization of the porous structure and cracking activity of Al-pillared saponites 110(1994)153

Structure–activity relation and ethane formation in the hydrogenolysis of methyl acetate on silica-supported copper catalysts 111(1994)63

High surface area $\alpha$-alumina. I. Adsorption properties and heats of adsorption of carbon monoxide, carbon dioxide, and ethylene 111(1994)151

Influence of nitrogen content of a new aluminophosphate oxynitride catalyst: AlPON in Knoevenagel condensation 114(1994)195

Another view of the surface properties of high surface area $\alpha$-alumina 118(1994)5

Control of porosity and surface area in $TiO_2$–$Al_2O_3$ mixed oxides catalytic supports. A statistical approach 118(1994)73

Alumina supported molybdenum and tungsten oxide catalysts. Surface area and pore size distribution from nitrogen adsorption and mercury penetration 119(1994)205

**Surface composition**
Characterization of copper–cobalt catalysts for alcohol synthesis from syngas 118(1994)63

**Surface diffusion**
Stabilization and sintering of porous $Pt/SiO_2$: a new approach 102(1993)181

**Surface modification**
Oxygen permeation flux through $La_{1-y}Sr_yFeO_3$ limited by carbon monoxide oxidation rate 119(1994)279

**Surface properties**
Preparation of high surface area $\alpha$-$Al_2O_3$ and its surface properties 105(1993)141

Another view of the surface properties of high surface area $\alpha$-alumina 118(1994)5

**Surface species**
Surface species on the oxidized $K_2CO_3/MoS_2$ and their effects on catalytic carbon monoxide hydrogenation 104(1993)199

**Surface state**
Effect of sulfur oxides on surface state and carbon monoxide oxidation activity of $Cu_xZn_{1-x}Cr_2O_4$ mixed oxides 108(1994)115

**Synergism effect**
Liquid-phase oxidation of cyclohexane over CoAPO-5: Synergism effect of coreactant and solvent effect 118(1994)21

**Synergy**
Platinum promoting effects in Pt/Ga zeolite catalysts of lower alkane aromatization. II. The catalytic properties in n-butane aromatization, formation of the catalytically active sites and reaction mechanism 107(1994)165

**Syngas**
Alcohol synthesis from syngas. I. Performance of alkali-promoted Ni–Mo(MOVS) catalysts 104(1993)77

Partial oxidation of methane to synthesis gas using La–M–O catalysts 110(1994)99

Intrinsic reactivities of manganese oxides for carbon monoxide hydrogenation catalysis 119(1994)97

**Syngas conversion**
Alcohol synthesis from syngas over nickel catalysts: Effect of copper and lithium addition 103(1993)291

Metal dispersion dependent selectivities for syngas conversion to ethanol on $V_2O_3$ supported rhodium 120(1994)115

**Synthesis**
Zeolite beta as a catalyst for alkylation of isobutane with 2-butene. Influence of synthesis conditions and process variables 119(1994)83

# T

**Tailoring of titanium distribution**
Incorporation of titania into preshaped silica monolith structures 116(1994)205

**TEM**
Improved activity of a silica supported ruthenium catalyst by carbon monoxide pretreatment 115(1994)315

**Temperature**
Oxidative dimerization of methane in molten $Li_2CO_3$–$Na_2CO_3$ eutectic supported by lithium aluminate at 700–850°C 108(1994)157

**Temperature-programmed desorption**
Composition and catalytic properties of products from the reduction of $NiMoO_4$ 105(1993)205

Measuring the acid–base properties of supported nickel catalysts using temperature-programmed desorption of ammonia 105(1993)251

Oxidative coupling of methane over alkali halide-promoted perovskite oxide catalysts 115(1994)269

Nitrobenzene hydrogenation over aluminum borate-supported platinum catalyst 119(1994)185

**Temperature-programmed desorption of ammonia**
Influence of preparation conditions on the structure and catalytic properties of $SO_4^{2-}/ZrO_2$ superacid catalysts 116(1994)151

**Temperature-programmed gasification**
Adsorption of propene and coke formation on a cracking catalyst (FCC) 104(1993)1

**Temperature-programmed oxidation**
Redox behavior of trimanganese tetroxide catalysts 101(1993)233

Temperature-programmed oxidation technique: kinetics of coke–$O_2$ reaction on supported metal catalysts 117(1994)53

**Temperature-programmed reaction**
Mechanisms of methanation of carbon dioxide and carbon monoxide over nickel/alumina catalysts 104(1993)87

**Temperature-programmed reduction**
Structure and reactivity of undoped and sodium-doped $PbO/\alpha$-$Al_2O_3$ catalysts for oxidative coupling of methane 111(1994)79

Nickel modified H-ZSM-5 catalysts 114(1994)299

Carbon monoxide hydrogenation over carbon supported cobalt or ruthenium catalysts. Promoting effects of magnesium, vanadium and cerium oxides 120(1994)71

Influence of phosphorus on the structure and the hydrodesulphurization and hydrodenitrogenation activity of $W/Al_2O_3$ catalysts 120(1994)147

**Temperature programmed reduction (TPR)**
1,3-Butadiene selective hydrogenation over Pd/alumina and CuPd/alumina catalysts 117(1994)41

**Temperature-programmed techniques**
On the nature of oxidic nickel phases in $NiO/\gamma\text{-}Al_2O_3$ catalysts 106(1993)73

**Temporal analysis of products**
TAP reactor study of the partial oxidation of methanol to formaldehyde using an industrial Fe–Cr–Mo oxide catalyst 120(1994)85

**Temperature-programmed reduction**
Redox behavior of trimanganese tetroxide catalysts 101(1993)233

**Terephthaldehyde**
Gas-phase oxygen oxidations of alkylaromatics over Chemical vapor deposited Fe/Mo/borosilicate molecular sieve, Fe/Mo/DBH. I. The selective synthesis of terephthaldehyde from *para*-xylene 105(1993)83

Gas-phase oxygen oxidation of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve Fe/Mo/DBH. III. Selective oxidation of *p*-xylene from a xylene isomer mixture containing ethylbenzene 110(1994)75

Gas-phase oxygen oxidations of alkylaromatics over chemical vapor deposited Fe/Mo/borosilicate molecular sieve, Fe/Mo/DBH. IV. Effect of supporting matrix on *p*-xylene oxidation 118(1994)87

**Tetrachloromethane**
Oxidative coupling of methane over alkali sulphates in the presence and absence of tetrachloromethane 103(1993)55

**Tetrahydrofuran**
Hydrogenolysis of dimethyl succinate on copper-based catalysts 116(1994)137

**Tetralin**
Aromatic compounds synthesis from cyclopentadiene 111(1994)1

**TGA**
Preparation and catalytic activity of titanium pillared montmorillonite 103(1993)23

**Thallium**
Selective hydrodechlorination of CFC-113 on Bi- and Tl-modified palladium catalysts 113(1994)29

**Thermal gravimetry**
Oxidative coupling of methane on perovskite oxides, $(Ba,Ca)(Co,Fe)O_{3-\delta}$ 101(1993)63

**Thermal stability**
Thermal and hydrothermal stabilities of zeolite EU-1 119(1994)33

**Thermodynamic analysis**
Kinetic model for the reaction of sulphur dioxide catalytic reduction to hydrogen sulphide 101(1993)25

**Thermogravimetry**
Effects of zinc addition to silica supported copper catalysts for the hydrogenolysis of esters 108(1994)63

**Thiolane synthesis**
Catalytic synthesis of thiolane from tetrahydrofuran and $H_2S$ 116(1994)95

**Thiophene**
Kinetic approach in the comparison of supported and unsupported ternary nickel–ruthenium–sulphur compounds in hydrotreating reactions 103(1993)79

Effect of the hydrogen and hydrogen sulfide partial pressures in the hydrodesulfurisation of thiophene and hydrogenation of cyclohexene on rhodium–tungsten catalysts 107(1994)101

Extended X-ray absorption fine structure study of sulphur poisoned $Ni/SiO_2$ catalysts 110(1994)197

Influence of zeolite acidity on thiophene hydrodesulfurization activity 119(1994)253

In situ poisoning of the thiophene hydrodesulfurization activity of carbon-supported transition metal sulfide catalysts by phosphorus 119(1994)293

**Thiophene hydrodesulfurization**
Catalytic activity of $NiPS_3$ in the reaction of thiophene hydrodesulfurization 108(1994)97

**Tin**
Deactivation of a multimetal supported catalyst for aniline *N*-alkylation with alcohol 118(1994)139

**Tin–nickel/activated carbon**
Effect of metal loading sequence on the activity of Sn–Ni/C for methanol carbonylation 117(1994)17

**Titanate complex**
Dimerization of ethylene to butene-1 catalyzed by $Ti(OR')_4$–$AlR_3$ 105(1993)1

**Titania**
Catalytic performance and active sites determination of niobium oxide promoted vanadia/titania catalysts for selective catalytic reduction of nitric oxide 105(1993)41

Structure and reactivity of titania-supported oxides. V. Influence of phosphorus and potassium impurities on the properties of molybdenum oxide supported on titania 105(1993)281

Conversion of 1-butene over $WO_3$–$TiO_2$ catalysts 107(1994)249

Support effects on magnesium-vanadium mixed oxides in the oxidative dehydrogenation of propane 114(1994)201

Hydrolysis of carbon sulfides on titania and alumina catalysts; the influence of water 115(1994)157

Porous nanocomposites as catalyst supports Part I. 'Second phase stabilization', thermal stability and anatase-to-rutile transformation in titania–alumina nanocomposites 119(1994)163

**Titania-aerogels**
Vanadia supported on titania aerogels Morphological properties and catalytic behaviour in the selective reduction of nitric oxide by ammonia 120(1994)187

**Titania–alumina**
Control of porosity and surface area in $TiO_2$–$Al_2O_3$ mixed oxides catalytic supports. A statistical approach 118(1994)73

**Titanium**
Incorporation of titanium into the framework sites of Na-zeolites using $TiCl_4$: Catalytic activity in the ammoximation of cyclohexanone to cyclohexanone oxime 103(1993)1

Oxidation of aniline over TS-1, the titanium substituted silicalite-1 118(1994)173

**Titanium alkoxide**
Influence of the nature of silicon and titanium alkoxides on the incorporation of titanium in TS-1 110(1994)137

**Titanium dioxide**
Influence of pH on the degradation kinetics of nitrophenol isomers in a heterogeneous photocatalytic system 101(1993)7

**Titanium oxide**
The selective oxidation of methane to $C_2$-hydrocarbons over lithium-doped $TiO_2$ catalysts 111(1994)41

**Titanium profiles**
Incorporation of titania into preshaped silica monolith structures 116(1994)205

**Titanium silicalite 1**
Oxidation of linear alcohols with hydrogen peroxide over titanium silicalite 1 106(1993)97

**Titration**
Catalyst characterization by a probe reaction. Effect of tin addition in $PtSn/Al_2O_3$ 101(1993)199

**Tolualdehyde (*para*-)**
Gas-phase oxygen oxidations of alkylaromatics over Chemical vapor deposited Fe/Mo/borosilicate molecular sieve, Fe/Mo/DBH. I. The selective synthesis of terephthaldehyde from *para*-xylene 105(1993)83

**Toluene**
Ammoxidation of toluene to benzonitrile over vanadium–bismuth scheelite 101(1993)269

A comparative study of oxidative methylation of toluene with methane to styrene and ethylbenzene over bi-alkali-promoted MgO, CaO, SrO or BaO 102(1993)233

Stabilization of $Sm_2O_3$ based catalysts in oxidative methylation of toluene 105(1993)135

**Toluene alkylation**
Factors controlling iso-/n- and *para*-selectivity in the alkylation of toluene with isopropanol on molecular sieves 108(1994)187

**Toluene ammoxidation**
Zirconia-supported vanadium oxide catalysts for ammoxidation and oxidation of toluene: A characterization and activity study 106(1993)51

Surface characterization and reactivity in ammoxidation reactions of vanadium antimonate catalysts 113(1994)43

**Toluene disproportionation**
Investigations on the characteristics, surface, acidity/acid strength distribution and catalytic properties of the zinc-substituted aluminophosphate of type 36 molecular sieve 112(1994)125

**Toluene hydrogenation**
Composition and catalytic properties of products from the reduction of $NiMoO_4$ 105(1993)205

**Toluene methylation**
Deactivation of toluene alkylation with methanol over magnesium-modified ZSM-5 Shape selectivity changes induced by coke formation 114(1994)277

**Toluene oxidation**
Zirconia-supported vanadium oxide catalysts for ammoxidation and oxidation of toluene: A characterization and activity study 106(1993)51

High-temperature superconductors in catalysis 109(1994)1

Principal component analysis of data on the catalytic oxidation of toluene 119(1994)7

**Toxicity**
Benzene hydrogenation on platinum and iridium catalysts. Variation of the toxicity of sulfur with the nature of the support 101(1993)143

**TPD**
Characterization of catalyst acidity by microcalorimetry and temperature-programmed desorption 102(1993)253

Preparation and catalytic activity of titanium pillared montmorillonite 103(1993)23

Analysis of the surface acid–base characteristics of Pt/C catalysts for phosphoric acid fuel cells 114(1994)261

Thermal and hydrothermal stabilities of zeolite EU-1 119(1994)33

**TPO**
Redox behavior of trimanganese tetroxide catalysts 101(1993)233

**TPO spectrum**
Temperature-programmed oxidation technique: kinetics of coke–$O_2$ reaction on supported metal catalysts 117(1994)53

**TPR**
X-ray absorption spectroscopic study of platinum supported on sulfate ion-treated zirconium oxide 102(1993)79

Benzene hydrogenation and hydrogenolysis of n-butane on Rh/H($x$)NaY zeolite catalysts 103(1993)5

Reducibility of metals on fluid cracking catalyst 103(1993)87

Passivation layer in a pre-reduced ammonia synthesis catalyst: A temperature-programmed reduction study 115(1994)295

Improved activity of a silica supported ruthenium catalyst by carbon monoxide pretreatment 115(1994)315

TPR study of $Al_2O_3$- and $SiO_2$-supported $CuCl_2$ catalysts 117(1994)139

**Transformation**
Zeolite beta catalyzed $C_7$ and $C_9$ aromatics transformation 116(1994)71

**Transient oxidation kinetics**
The selective oxidation of methane to $C_2$-hydrocarbons over lithium-doped $TiO_2$ catalysts 111(1994)41

**Transient response method**
Mechanisms of methanation of carbon dioxide and carbon monoxide over nickel/alumina catalysts 104(1993)87

**Transition metal additives**
Effects of transition metal addition to CoMo/$\gamma$-$Al_2O_3$ catalyst on the hydrotreating reactions of atmospheric residual oil 109(1994)195

**Transition metal exchanged clay**
Ethylene polymerization over transition metal-exchanged montmorillonite catalysts 101(1993)129

**Transition metal sulphides**
In situ poisoning of the thiophene hydrodesulfurization activity of carbon-supported transition metal sulfide catalysts by phosphorus 119(1994)293

**Transition state selectivity**
Oxidation of linear alcohols with hydrogen peroxide over titanium silicalite 1 106(1993)97

**Transmission electron microscopy**
$MoS_2$ structures in high-activity hydrotreating catalysts. I. Semi-quantitative method for evaluation of transmission electron microscopy results. Correlations between hydrodesulfurization and hydrodenitrogenation activities and $MoS_2$ dispersion 105(1993)53

$MoS_2$ structures in high activity hydrotreating catalysts. II. Evolution of the active phase during the catalyst life cycle deactivation model 105(1993)69

Influence of phosphorus on the structure and the hydrodesulphurization and hydrodenitrogenation activity of $W/Al_2O_3$ catalysts 120(1994)147

**Trichlorotrifluoroethane**
Selective hydrodechlorination of CFC-113 on Bi- and Tl-modified palladium catalysts 113(1994)29

**Triethylaluminium**
Dimerization of ethylene to butene-1 catalyzed by $Ti(OR')_4$–$AlR_3$ 105(1993)1

**Trifluoroethene**
Selective hydrodechlorination of CFC-113 on Bi- and Tl-modified palladium catalysts 113(1994)29

**Trimerisation**
Vapour-phase trimerisation of formaldehyde to trioxane catalyzed by 1-vanado-11-molybdophosphoric acid: A reaction rate with an unusual pressure dependency 118(1994)17

**Trioxane**
Vapour-phase trimerisation of formaldehyde to trioxane catalyzed by 1-vanado-11-molybdophosphoric acid: A reaction rate with an unusual pressure dependency 118(1994)17

**TS-1**
Comparison between TS-1 and TS-2 in the hydroxylation of phenol with hydrogen peroxide 102(1993)69

Oxidation of linear alcohols with hydrogen peroxide over titanium silicalite 1 106(1993)97

Oxidation of aniline over TS-1, the titanium substituted silicalite-1 118(1994)173

**TS-2**
Comparison between TS-1 and TS-2 in the hydroxylation of phenol with hydrogen peroxide 102(1993)69

**Tungsten**
Conversion of 1-butene over $WO_3$–$TiO_2$ catalysts 107(1994)249

**Tungsten–cobalt–molybdenum**
Effects of transition metal addition to $CoMo/\gamma$-$Al_2O_3$ catalyst on the hydrotreating reactions of atmospheric residual oil 109(1994)195

**Tungsten oxide**
Alumina supported molybdenum and tungsten oxide catalysts. Surface area and pore size distribution from nitrogen adsorption and mercury penetration 119(1994)205

**Tungsten sulphide**
Influence of phosphorus on the structure and the hydrodesulphurization and hydrodenitrogenation activity of $W/Al_2O_3$ catalysts 120(1994)147

**Tungstophosphoric acid**
$C_4$ alkene separation process using solid acid catalysis 109(1994)247

# U

**Uniform**
Selective hydrogenation of isoprene on eggshell and uniform palladium profile catalysts 108(1994)7

**Unsaturated hydrocarbon hydrogenation**
Hydrogenation catalysts based on nickel and rare earth oxides. Part II: XRD, electron microscopy and XPS studies of the cerium–nickel–oxygen–hydrogen system 101(1993)73

**Unsupported Fe catalysts**
Hydrogenation of carbon monoxide on unsupported Fe–Mn–K catalysts for the synthesis of lower alkenes: promoter effect of manganese 111(1994)119

**Upgrading**
Catalysis in thermal biomass conversion 116(1994)5

**UPS**
Alkali hydroxides as promoters of $Mn_3O_4$ in the selective reduction of nitrobenzene; an X-ray photoelectron spectroscopy, ultraviolet photoelectron spectroscopy and ion scattering spectroscopy study 115(1994)69

**USHY**
Coke deposition on H-ZSM-20 and USHY zeolites 114(1994)165

Hydrothermal stability and vanadium tolerance of ZSM-20 and Y zeolites 119(1994)139

**USHY zeolites**
Coking, aging and regeneration of zeolites. XIV. Kinetic study of the formation of coke from propene over USHY and H-ZSM-5 101(1993)351

**USY**
Kinetics of gasoil cracking and catalyst decay on SAPO-37 and USY molecular sieves 118(1994)153

**UV-VIS diffuse reflection**
Adsorption of platinum complexes on silica and alumina: Preparation of non-uniform metal distributions within support pellets 106(1993)239

# V

**Vacuum residue**
A plasma-produced dispersed and disposable supported nickel catalyst for hydroconversion of heavy oils. II. Evaluation of the catalytic activity in the hydroconversion of a deasphalted vacuum residue 104(1993)149

**Valence state**
Characterization of supported molybdenum sulfide catalyst ex ammonium tetrathiomolybdate 112(1994)161

**Vamnadium**
Vanadium–nickel interaction in REY zeolite 117(1994)109

**Vanadia**
Dispersion and activity of vanadia supported on phosphate modified silica 101(1993)221

Catalytic performance and active sites determination of niobium oxide promoted vanadia/titania catalysts for selective catalytic reduction of nitric oxide 105(1993)41

Characterization of vanadia supported on amorphous $AlPO_4$ and its properties for oxidative dehydrogenation of propane 112(1994)187

Vanadia supported on titania aerogels Morphological properties and catalytic behaviour in the selective reduction of nitric oxide by ammonia 120(1994)187

**Vanadia/alumina**
Microcalorimetric and infrared studies of the acid–base properties of $V_2O_5/\gamma$-$Al_2O_3$ catalysts 119(1994)341

**Vanadia/titania**
Promoted vanadia/titania catalysts for *o*-xylene oxidation: influence of acid–base and redox properties 108(1994)241

**Vanadia promoter**
Carbon monoxide hydrogenation over carbon supported cobalt or ruthenium catalysts. Promoting effects of magnesium, vanadium and cerium oxides 120(1994)71

**Vanadia–zirconia**
Zirconia-supported vanadium oxide catalysts for ammoxidation and oxidation of toluene: A characterization and activity study 106(1993)51

**Vanadium**
Synthesis and activity of vanadium-based supported catalysts for ethylene polymerization 102(1993)1

Synthesis, characterization and catalytic properties of vanadium silicates with a ZSM-48 structure 102(1993)201

Reducibility of metals on fluid cracking catalyst 103(1993)87

Kinetic study of the oxidative dehydrogenation of propane over vanadia supported on amorphous $AlPO_4$ 112(1994)209

Surface characterization and reactivity in ammoxidation reactions of vanadium antimonate catalysts 113(1994)43

Metal-resistant FCC catalysts: effect of matrix 115(1994)59

Hydrothermal stability and vanadium tolerance of ZSM-20 and Y zeolites 119(1994)139

**Vanadium/phosphorous/oxide**
Incorporation of promoter elements into the crystal lattice of $(VO)_2P_2O_7$ and its promotion effects on the oxidation of n-butane to maleic anhydride 103(1993)281

**Vanadium–bismuth scheelite ($BiVO_4$)**
Ammoxidation of toluene to benzonitrile over vanadium–bismuth scheelite 101(1993)269

**Vanadium hyperfine EPR**
Vanadium oxide loading on aluminophosphate molecular sieve by vapor adsorption 102(1993)93

**Vanadium magnesium oxides**
Preparation of V–Mg–O catalysts: Nature of active species precursors 104(1993)161

**Vanadium oxide**
Vanadium oxide loading on aluminophosphate molecular sieve by vapor adsorption 102(1993)93

**Vanadium oxide dispersion**
Vanadium oxide loading on aluminophosphate molecular sieve by vapor adsorption 102(1993)93

**Vanadium oxide–titanium oxide**
Kinetic modeling of the catalytic oxidation of *o*-xylene over an industrial $V_2O_5$–$TiO_2$ (anatase) catalyst 120(1994)17

**Vanadium silicate**
Catalytic properties of a new large-pore vanadium silicate with ZSM-12 structure 114(1994)9

**Vanadium substitution**
Enhancement of catalytic activity of $Cs_{2.5}Ni_{0.08}H_{0.34}PMo_{12}O_{40}$ by $V^{5+}$-substitution for oxidation of isobutane into methacrylic acid 118(1994)1

**Vanadyl pyrophosphate**
Incorporation of promoter elements into the crystal lattice of $(VO)_2P_2O_7$ and its promotion effects on the oxidation of n-butane to maleic anhydride 103(1993)281

**Vapor phase adsorption**
Vanadium oxide loading on aluminophosphate molecular sieve by vapor adsorption 102(1993)93

**Vapour phase**
Vapour-phase trimerisation of formaldehyde to trioxane catalyzed by 1-vanado-11-molybdophosphoric acid: A reaction rate with an unusual pressure dependency 118(1994)17

**Vapour phase oxidation**
Structural analysis of NiO–$Fe_2O_3$ catalyst for vapor-phase oxidation of benzoic acid to phenol 115(1994)1

# W

***W/F* factor**
Zeolite catalysed intramolecular cyclization of 5-amino-1-pentanol to piperidine bases 119(1994)13

**Water**
Study of the hydrodeoxygenation of carbonyl, carboxylic and guaiacyl groups over sulfided CoMo/$\gamma$-$Al_2O_3$ and NiMo/$\gamma$-$Al_2O_3$ catalyst. II. influence of water, ammonia and hydrogen sulfide 109(1994)97

**Water–gas shift reaction**
Kinetics of the water–gas shift reaction over several alkane activation and water–gas shift catalysts 101(1993)317

**Water inhibition**
Reduction of model steam reforming catalysts: NiO/$\alpha$-$Al_2O_3$ 110(1994)217

**Water vapour**
Oxidative dehydrogenation of isobutyronitrile to methacrylonitrile over iron phosphate catalyst 116(1994)165

**W-ZSM-5**
Synthesis of 2-picoline from acetone over modified ZSM-5 catalysts 111(1994)101

# X

**XANES**
X-ray absorption spectroscopic study of platinum supported on sulfate ion-treated zirconium oxide 102(1993)79

Electronic state of platinum supported on the monochlorotrifluoromethane-treated alkaline L zeolite 102(1993)167

**Xe NMR**
Characterization and catalytic performance of the platinum KL zeolite treated with chlorotrifluoromethane 106(1993)9

**Xerogel**
Catalytic alkylation of phenol with methanol on a microporous xerogel and a macroporous aerogel of high surface area aluminas 101(1993)339

**XPS**
Hydrogenation catalysts based on nickel and rare earth oxides. Part II: XRD, electron microscopy and XPS studies of the cerium–nickel–oxygen–hydrogen system 101(1993)73

Electronic state of platinum supported on the monochlorotrifluoromethane-treated alkaline L zeolite 102(1993)167

Benzene hydrogenation and hydrogenolysis of n-butane on Rh/H($x$)NaY zeolite catalysts 103(1993)5

Analysis of the surface acid–base characteristics of Pt/C catalysts for phosphoric acid fuel cells 114(1994)261

Alkali hydroxides as promoters of $Mn_3O_4$ in the selective reduction of nitrobenzene; an X-ray photoelectron spectroscopy, ultraviolet photoelectron spectroscopy and ion scattering spectroscopy study 115(1994)69

Improved activity of a silica supported ruthenium catalyst by carbon monoxide pretreatment 115(1994)315

Incorporation of titania into preshaped silica monolith structures 116(1994)205

Fluorinated hydrotreatment catalysts Effect of the deposition order of $F^-$ ions on F–CoMo/$\gamma$-$Al_2O_3$ catalysts 116(1994)221

Polyacrylonitrile coated silica as support for copper catalyst in methanol dehydrogenation to methyl formate 118(1994)163

Thermal and hydrothermal stabilities of zeolite EU-1 119(1994)33

**XPS analysis**
Surface composition and selectivity of sodium-compound-impregnated calcium oxide catalysts for the oxidative coupling of methane 107(1994)115

**XPS characterization**
Hydrogenation and methylation of dodecyl nitrile in the presence of copper catalysts supported on alumina I: characterization of the catalysts 102(1993)137

**X-ray absorption**
X-ray absorption spectroscopic study of platinum supported on sulfate ion-treated zirconium oxide 102(1993)79

**X-ray diffraction**
On the nature of oxidic nickel phases in NiO/$\gamma$-$Al_2O_3$ catalysts 106(1993)73

Phosphorus induced formation of a $NiWO_4$ phase in the oxide form of P–Ni–W/$Al_2O_3$ catalysts 108(1994)123

In situ X-ray diffraction study of lanthanum oxide catalysts during the oxidative coupling of methane 108(1994)261

Structure and reactivity of undoped and sodium-doped PbO/$\alpha$-$Al_2O_3$ catalysts for oxidative coupling of methane 111(1994)79

Activity-enhanced copper–zinc based catalysts for the hydrogenolysis of esters 116(1994)237

**X-ray photoelectron spectroscopy**
Oxidation state of germanium promoter on a palladium/carbon catalyst and its role in hydrogenation reactions 102(1993)105

Platinum promoting effects in Pt/Ga zeolite catalysts of lower alkane aromatization. I. Ga and Pt electronic states, dispersion and distribution in zeolite crystals in dependence of preparation techniques. Dynamic effects caused by reaction mixture 107(1994)147

Effect of sulfur oxides on surface state and carbon monoxide oxidation activity of $Cu_xZn_{1-x}Cr_2O_4$ mixed oxides 108(1994)115

Phosphorus induced formation of a $NiWO_4$ phase in the oxide form of P–Ni–W/$Al_2O_3$ catalysts 108(1994)123

Surface characterization and reactivity in ammoxidation reactions of vanadium antimonate catalysts 113(1994)43

On the effect of introducing $Zn^{2+}$ cations onto the surface of a NaOH–CaO catalyst on its selectivity in the oxidative coupling of methane 118(1994)103

**X-ray photoelectron spectroscopy of carbon monoxide**
Hydrocarbons from synthesis gas: Selectivity changes induced by the zeolite matrix on the metallic function in Rh/Y catalysts 107(1994)59

**XRD**
Hydrogenation catalysts based on nickel and rare earth oxides. Part II: XRD, electron microscopy and XPS studies of the cerium–nickel–oxygen–hydrogen system 101(1993)73

Dispersion and activity of vanadia supported on phosphate modified silica 101(1993)221

Ammoxidation of toluene to benzonitrile over vanadium–bismuth scheelite 101(1993)269

Synthesis and activity of vanadium-based supported catalysts for ethylene polymerization 102(1993)1

Preparation and catalytic activity of titanium pillared montmorillonite 103(1993)23

**Xylene hydroconversion**
Hydroconversion of *meta*-xylene on catalysts containing Pt, Re and PtRe on H-mordenite 105(1993)127

**Xylene isomerisation**
Desired and undesired ethylbenzene dealkylation over MFI zeolite catalyst 101(1993)95

**Xylene (m-) Isomerization**
Proposed pore volume topology of zeolite MCM-22 based on catalytic tests 115(1994)121

**Xylene oxidation**
Kinetic modeling of the catalytic oxidation of *o*-xylene over an industrial $V_2O_5$–$TiO_2$ (anatase) catalyst 120(1994)17

**Xylenes**
Gas-phase oxygen oxidation of alkylaromatics over CVD Fe/Mo/borosilicate molecular sieve Fe/Mo/DBH. III. Selective oxidation of *p*-xylene from a xylene isomer mixture containing ethylbenzene 110(1994)75

Zeolite beta catalyzed $C_7$ and $C_9$ aromatics transformation 116(1994)71

**Xylenes (*para*-)**
Gas-phase oxygen oxidations of alkylaromatics over Chemical vapor deposited Fe/Mo/borosilicate molecular sieve, Fe/Mo/DBH. I. The selective synthesis of terephthaldehyde from *para*-xylene 105(1993)83

# Y

**Yttrium**
High-temperature superconductors in catalysis 109(1994)1

# Z

**ZAPO-36**
Investigations on the characteristics, surface, acidity/acid strength distribution and catalytic properties of the zinc-substituted aluminophosphate of type 36 molecular sieve 112(1994)125

**Zeolite**
Effect of water vapour and ammonia on the solid–solid interaction of Cu oxide with Y-type zeolite: Preparation of catalyst for reduction of nitric oxide with ammonia at low temperature. 103(1993)269

Selective synthesis of aromatics from propene on platinum-modified zinco-silicate catalysts 106(1993)83

Hydrogen cyanide formation in selective catalytic reduction of nitrogen oxides over Cu/ZSM-5 107(1994)125

Dimerization of styrene catalyzed by acid 12-membered ring zeolites 116(1994)127

**Zeolite beta**

Acidity and catalytic activity of B-Al beta zeolite 108(1994)53

Zeolite beta catalyzed $C_7$ and $C_9$ aromatics transformation 116(1994)71

Zeolite beta as a catalyst for alkylation of isobutane with 2-butene. Influence of synthesis conditions and process variables 119(1994)83

**Zeolite cracking**

Catalysis in thermal biomass conversion 116(1994)5

**Zeolite EU-1**

Thermal and hydrothermal stabilities of zeolite EU-1 119(1994)33

**Zeolite film**

Preparation of a dense ZSM-5 zeolite film on the outer surface of an alumina ceramic filter 111(1994)143

**Zeolite MFI**

Desired and undesired ethylbenzene dealkylation over MFI zeolite catalyst 101(1993)95

**Zeolites**

Effect of alkaline earth added to platinum-supporting oxides on platinum dispersion and dehydrogenation activity 101(1993)207

Incorporation of titanium into the framework sites of Na-zeolites using $TiCl_4$: Catalytic activity in the ammoximation of cyclohexanone to cyclohexanone oxime 103(1993)1

Benzene hydrogenation and hydrogenolysis of n-butane on Rh/H($x$)NaY zeolite catalysts 103(1993)5

Propane aromatization over Pt–Tl/ZSM-5 103(1993)123

Investigation of zeolite catalysts for the direct partial oxidation of benzene to phenol 103(1993)135

n-Heptane hydrocracking over a sulfided NiMo/Y zeolite catalyst: reversible deactivation of the zeolite by sulfur-containing molecules 103(1993)163

Catalytic cracking of a binary mixture on zeolite catalysts 103(1993)243

Microactivity test (MAT) study of the ZSM-5 addition effects on FCC product yields and gasoline composition 105(1993)107

Hydroconversion of *meta*-xylene on catalysts containing Pt, Re and PtRe on H-mordenite 105(1993)127

Characterization and catalytic performance of the platinum KL zeolite treated with chlorotrifluoromethane 106(1993)9

Oxidation of linear alcohols with hydrogen peroxide over titanium silicalite 1 106(1993)97

Methanol conversion to hydrocarbons over zeolite H-ZSM-5: Comments on the formation of $C_4$ hydrocarbons at low reaction temperatures 106(1993)115

Transalkylation of di-isopropylbenzenes over large pore zeolites 106(1993)143

Factors affecting the deactivation of various zeolites used as catalysts for the direct partial oxidation of benzene to phenol 106(1993)167

Solid-state exchange of lanthanum in beta zeolite 106(1993)185

Hydrocarbons from synthesis gas: Selectivity changes induced by the zeolite matrix on the metallic function in Rh/Y catalysts 107(1994)59

State, activation, and migration of gallium in Ga/ H-MFI(Si,Al) propane aromatization catalysts 108(1994)85

Reactions of mixtures of light alkenes and n-heptane over USHY zeolite 108(1994)107

Factors controlling iso-/n- and *para*-selectivity in the alkylation of toluene with isopropanol on molecular sieves 108(1994)187

Catalytic evaluation of gallium modified wide-pore zeolites 109(1994)235

Heats of adsorption for ammonia and pyridine in H-ZSM-5: evidence for identical Brønsted-acid sites 110(1994)67

Effect of coke deposition on the effective diffusivity of catalyst pellets 110(1994)109

Aromatic compounds synthesis from cyclopentadiene 111(1994)1

Nuclear magnetic resonance studies of the synthesis of zeolite ZSM-5 by the "fluoride method" 111(1994)29

Synthesis of 2-picoline from acetone over modified ZSM-5 catalysts 111(1994)101

Vapour phase aniline alkylation activity and selectivity over H-ZSM-5 111(1994)133

Preparation of a dense ZSM-5 zeolite film on the outer surface of an alumina ceramic filter 111(1994)143

A comparative study of $O_4^{2-}/ZrO_2$ and zeolite beta as catalysts for the isomerization of n-butane and the alkylation of isobutane with 2-butene 111(1994)175

Conversion of *sec*-butylbenzene over synthetic zeolites 111(1994)191

Influence of structure and acidity-basicity of zeolites on platinum supported catalysts of n-$C_6$ aromatization 112(1994)105

Synthesis of pyridine and picolines from ethanol over modified ZSM-5 catalysts 113(1994)1

Coke deposition on H-ZSM-20 and USHY zeolites 114(1994)165

Simultaneous exchange and extrusion of metal exchanged zeolites 114(1994)191

Deactivation of toluene alkylation with methanol over magnesium-modified ZSM-5 Shape selectivity changes induced by coke formation 114(1994)277

Comparison of platinum–iridium bimetallic catalysts supported on $\gamma$-alumina and HY-zeolite in n-hexane reforming reaction 115(1994)229

Influence of hydrocarbon chain length and zeolite structure on the catalyst activity and deactivation for n-alkanes cracking 117(1994)29

Vanadium–nickel interaction in REY zeolite 117(1994)109

Oxidation of aniline over TS-1, the titanium substituted silicalite-1 118(1994)173

Zeolite catalysed intramolecular cyclization of 5-amino-1-pentanol to piperidine bases 119(1994)13

Effect of dealumination on the catalytic activity of acid zeolites for the gas phase synthesis of MTBE 119(1994)69

Hydrothermal stability and vanadium tolerance of ZSM-20 and Y zeolites 119(1994)139

Influence of zeolite acidity on thiophene hydrodesulfurization activity 119(1994)253

Ethylene dimerization over modified nickel exchanged Y-zeolite 119(1994)327

Cracking of an industrial feedstock over combinations of H-ZSM-5 and HY: The influence of H-ZSM-5 pretreatment 120(1994)55

### Zeolites/MCM-22/Model reactions

Proposed pore volume topology of zeolite MCM-22 based on catalytic tests 115(1994)121

### Zeolite Y

Effect of pore size and aluminium content on the production of linear alkylbenzenes over HY, H-ZSM-5 and H-ZSM-12 zeolites: Alkylation of benzene with 1-dodecene 114(1994)145

Application of the energy gradient selectivity concept to fluid catalytic cracking catalysts 115(1994)103

Hydrothermal stability and vanadium tolerance of ZSM-20 and Y zeolites 119(1994)139

### Ziegler–Natta catalysts

Dimerization of ethylene to butene-1 catalyzed by $Ti(OR')_4$–$AlR_3$ 105(1993)1

### Zinc

Effects of zinc addition to silica supported copper catalysts for the hydrogenolysis of esters 108(1994)63

Effect of sulfur oxides on surface state and carbon monoxide oxidation activity of $Cu_xZn_{1-x}Cr_2O_4$ mixed oxides 108(1994)115

Nature of formate in methanol synthesis on Cu/ZnO/$Al_2O_3$ 112(1994)37

Ethanol dehydrogenation on silica pillared rectorite 115(1994)219

Activity-enhanced copper–zinc based catalysts for the hydrogenolysis of esters 116(1994)237

**Zinc dopant**
Doped aluminas as hydrorefining catalyst supports 119(1994)59

**Zinc doping of NaOH–CaO catalysts**
On the effect of introducing $Zn^{2+}$ cations onto the surface of a NaOH–CaO catalyst on its selectivity in the oxidative coupling of methane 118(1994)103

**Zinco-silicate (Zn-silicate)**
Selective synthesis of aromatics from propene on platinum-modified zinco-silicate catalysts 106(1993)83

**Zinc oxide**
Stabilization of $Sm_2O_3$ based catalysts in oxidative methylation of toluene 105(1993)135

**Zirconia**
X-ray absorption spectroscopic study of platinum supported on sulfate ion-treated zirconium oxide 102(1993)79

Effect of hydrogen sulfide on isosynthesis over 7 wt.-% cerium zirconia catalyst 112(1994)175

**Zirconia (monoclinic)**
Zirconia-supported vanadium oxide catalysts for ammoxidation and oxidation of toluene: A characterization and activity study 106(1993)51

**Zirconia (sulfated)**
Direct synthesis of isoalkanes through Fischer–Tropsch reaction on hybrid catalysts 110(1994)121

**Zirconia support**
Intermediate species on zirconia supported methanol aerogel catalysts. I. State of the catalyst surface before and after the adsorption of hydrogen 101(1993)297

Intermediate species on zirconia supported methanol aerogel catalysts. II. Adsorption of carbon monoxide on pure zirconia and on zirconia containing zinc oxide 105(1993)223

Isobutane dehydrogenation on chromia/zirconia catalysts 106(1993)125

Intermediate species on zirconia supported methanol aerogel catalysts III. Adsorption of carbon monoxide on copper containing solids 112(1994)57

Intermediate species on zirconia supported methanol aerogel catalysts. IV. Adsorption of carbon dioxide 112(1994)219

**Zirconium dopant**
Doped aluminas as hydrorefining catalyst supports 119(1994)59

**Zirconium oxide**
Isomerization of $^{13}C$ labeled butane over Fe,Mn promoted sulfated $ZrO_2$ catalyst 118(1994)11

**Zirconium phosphate**
Conversion of methane to higher alkanes by ruthenium loaded $Zr_3(PO_4)_4$ 118(1994)187

**ZnO promotion**
Methanol synthesis over copper and ZnO promoted copper surfaces 115(1994)15

**ZSM-12**
Catalytic properties of a new large-pore vanadium silicate with ZSM-12 structure 114(1994)9

Effect of pore size and aluminium content on the production of linear alkylbenzenes over HY, H-ZSM-5 and H-ZSM-12 zeolites: Alkylation of benzene with 1-dodecene 114(1994)145

**ZSM-20**
Coke deposition on H-ZSM-20 and USHY zeolites 114(1994)165

Hydrothermal stability and vanadium tolerance of ZSM-20 and Y zeolites 119(1994)139

**ZSM-48 structure**
Synthesis, characterization and catalytic properties of vanadium silicates with a ZSM-48 structure 102(1993)201

**ZSM-5**
Coking, aging and regeneration of zeolites. XIV. Kinetic study of the formation of coke from propene over USHY and H-ZSM-5 101(1993)351

Characterization of catalyst acidity by microcalorimetry and temperature-programmed desorption 102(1993)253

Propane aromatization over Pt–Tl/ZSM-5 103(1993)123

Conversion of methanol and isobutanol to MTBE 103(1993)223

Microactivity test (MAT) study of the ZSM-5 addition effects on FCC product yields and gasoline composition 105(1993)107

Selective synthesis of aromatics from propene on platinum-modified zinco-silicate catalysts 106(1993)83

Heats of adsorption for ammonia and pyridine in H-ZSM-5: evidence for identical Brønsted-acid sites 110(1994)67

Nuclear magnetic resonance studies of the synthesis of zeolite ZSM-5 by the "fluoride method" 111(1994)29

Synthesis of 2-picoline from acetone over modified ZSM-5 catalysts 111(1994)101

Synthesis of pyridine and picolines from ethanol over modified ZSM-5 catalysts 113(1994)1

Effect of pore size and aluminium content on the production of linear alkylbenzenes over HY, H-ZSM-5 and H-ZSM-12 zeolites: Alkylation of benzene with 1-dodecene 114(1994)145

Deactivation of toluene alkylation with methanol over magnesium-modified ZSM-5 Shape selectivity changes induced by coke formation 114(1994)277

Silica-supported small crystals of ZSM-5 zeolite 115(1994)7

Gas-phase oxygen oxidations of alkylaromatics over chemical vapor deposited Fe/Mo/borosilicate molecular sieve, Fe/Mo/DBH. IV. Effect of supporting matrix on *p*-xylene oxidation 118(1994)87

**ZSM-5 zeolite**

Preparation of a dense ZSM-5 zeolite film on the outer surface of an alumina ceramic filter 111(1994)143

**ZSM-type catalyst**

n-Hexane aromatization on synthetic gallosilicates with MFI structure 103(1993)205
